## PENNSYLVANIA HOSPITAL.

[FROM OFFICIAL HOSPITAL REPORTS.]

MAY 19, 1860,—Elica S., set. 28, single, never was very strong. Two years ago she had an attack of acute rheumatism, from which she was confined to her bed for two weeks and subsequently from a relapse for four more. She has been well since then till hast Satur day, while engaged in house cleaning, she took cold, had pain in her back, felt cold, hot had no decided chill. Two days later her ankles began so swell, which was followed by swelling of the knee joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheumatism, or, as it is now fashionably called, rheumatic fever. It is a well remarked typical case. We will carefully watch the case, and from time to time call your attention to the various symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recontly been recommended in the treatment of rheumatism. I mean propylamine. Dr. awenarius, of St. Petersburg, recommends it in the highest terms, having derived great benefit from its use in 250 cases which came under his care. Various commendatory testimonials respecting it have appeared in our journals, and I propose therefore to give it another trial I must confess I am always incredulous as to the worth of new remedies, which are vaunted as specifies; but this cames to us recommended so highly, that we have bound to give it a trial. [FROM OFFICIAL HOSPITAL REPORTS.]

## SAME CASE FOUR DAYS LATER!

SAME CASE FOUR DAYS LATER!

MAY 23, 1860.—I will now exhibit to you the patient for whom I prescribed Propylamine, and was then laboring under an attack of acute rheumatism. She has steadily taken it in doese of three grains every two hours (intermitting it at night.) The day after you saw her, I found her much more comfortable, better than she expected to be for a week or more, judging from her other attack. (The patient now walked into the room.) The improvement has steadily progressed, and you cannot fail to notice a marked change in the appearance of her joints, which are new nearly all of their ratural size.—Thur far our experiment would have seemed very successful; but, gentlemen, we must wait a little while before we can give a declued opinion as to what is to be the result.

the result.

Here is another patient who was placed on the use of the same medicine on Sunday last; she has long been suffering from a bronic rheumatism, and I found her at that time with an acute attack supervening upon her chrotic affection. The wrists and knuckles were much swellen and tense. She took the chloride of Propylamine in three grain doses every two hours, and you will perceive that the swelling of the joints has much dimintaled.

## THREE DAYS LATER!!

THREE DAYS LATER!!

May 28, 1860.—This is the case of acute rheumatism treates with propylamine, the first of those to which I called your attention at our last clinic. She is still very comfortable, and is now taking three grains thrice daily. In this case it has seemed to be followed by very satisfactory reactist. The second case to which your attention was called at our last lecture, has also continued to do wel? I will now bring before you a very characterlatic case of acute rheumatism, and if the result be satfactory, I think, as good jurymen, we shall justly render our verdict in favor of propylamin.

He is a seaman, set. 28, who was a dmitted a few days ago. Has has coassional rheumatic paus, but not so as to keep bis bed, until eight days ago. The pains began in his right knee, subsequently affected the left knee, and later, the joints of the upper extremities. These joints are all swellen, tense and tender. His tongue is furred his skin, at present dry, though there has been much sweating. His pulse is full and strong, and shout 90.—He has now used propylamine for twenty-four hours.

This gentleman is what may be called a strictly typical case of coute rheumatism. There was exposure to cold and wet, and this exposure is followed by a feeling of coldness, severe articular pain, beginning, as it usually does, in the lower joints. There is lever and the profuse sweating, so generally attlendant on acute rheumatism. I did not bring this patient before you with the intention of giving you a lecture on all the points connected with rheumatiem, but to again give a triat to the new remedy we are testing, and to exhibit to you this typical case, as I have called it, than which there co uld not be a fairer opportunity for testing the medicine in question. We are, therefore, avoiding the use of all other medicines, even and lynes, that there may be no misgivings as to which was the efficient remedy. You shall see the case of a future clinic.

THE RESULT.

A FAVORABLE VERDICT.

JUNE 9, 1880.—The next of our convalencents is the case of acute rheumatism before you at our clinic of May 38th, which I then called a typical case, and which it was remarked was a fair opportunity for testing the worth of our new remedy. It was therefore stoadily given in three grain doses every two hours for four days. The patient has got along very nicely, and is now able to walk about, as you see. I do not besitate to say that I have neves seen as severe a case of acute rheumatism so soon restored to health as this man has been, and without being prepared to decide positive by as to the value of the remedy we have used, I feel bound to state that in the cases in which we have tried the Chloride o Propylamine, the patients have recaused their health much earlier than under the treatment ordinarily pursued. I wish gentlemen, you would yourselves try it, and report the results.

For a full report of which the above is a condense extract, see the Philadelphia Medical and Surgical Reporter. It is the report after a fair trial by the best medical authority in this country, and makes it unnecessary to give numerous certificates from astonished doctors and rejoicing patients.

AYER'S SARSAPARILLA FOR PURIFYING THE BLOOD.

AND for the speedy cure of the sub-Scrofula and Scrofulous Affection such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pastules, Blotches, Boils,

Blains, and all Skin Diseases. OAKIND, Ind, 6th June, 1859.

J. O. AYEE & Co., Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from a in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared as alternative (Sarsaparilae, for I knew from your reputation that anything you made must be good. I sent took it, as you advise, in small doses of a teasposific over a mouth, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off, my skin is now clear, and I know by my feelings that the discase has gone from my system you can well believe that I feel what I am saying when I tell you, that I hold you to be one of the a ostles of the age, and remain ever gratefully. Yours.

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Ervainelas. CARLAND, Ind, 6th June, 1859.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head Ringworm, Sore Eyes, Dropsy.

Dr. kohert M. Preble Writes irom Salem, N. Y., 12th Sep., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of Malignant krysipelas by large doses of the same says he cures the common Eruptions by it constantly. Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bot-tles of your Sarsaparilla cured me from a Gerras—a hid-sous swelling on the neck, which I had suffered from over two years." Leucerrhœa or Whites, Ovarian Tumor,

Uterine Olceration, Female Diseases. Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes; "most cheerfully comply with the respect of your agent to saying I have found your sursaparita a mo texcellent alternative in the numerous complaints for which we emission such a remedy, but especially in female Diseases of the Scrotulous diathesis. I have cured many inveterate cases of Leucorrhoss by it, and some where the complaint was caused by ulceration of the ulcrus. The diceration itself was soon cured. Nothing within my anowiedge equals. For those temale durangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous corrian tumor on one of the females in my lamily, which had defied all the remedies we could employ, has at length been completely cured by your extract of Sarsaparilla. Our physician thought nothing but extirpation could afford robef, but he advised the trial of your darsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease. NEW ORIEANS, 26th August, 1959.

NEW ORLEASS, 25th August, 1959.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your sarsaparila.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Veneral and Mercurial Discases. One of my patients had dyphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparills, steadily taken, cured him in dre week. Another was attacked by secondary symptoms in his nose, and the ulcers you had eaten away a considerable part of it, so that believe the disorder would soon each his brain and kill him. But it yielded to my administration of your Sarsaparills: the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so esansitive to the weather that on a damp day she suffered excruciating vain in her joints and bones. She, too, was cured entirely by your Sarsaparills in a few weeks. I know from its formula, which you agont gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkeble results with it have net surprised me.

Fraternally years,

G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

Rheumatism, Gout, Liver Complaint. INDEPENDENCE, Precton Co., Va., 6th July, 1859. DR. J. C. ATER: Str. I have been afflicted with a pain ful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spice of all the remedies Loudd fin., until i tried your Sarsaparilla.—One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

Jules Y. Getchell, of St. Louis. writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every ihing, and every thing failed to relieve me; and I have been a broken down man for some years from no ther cause than devangment of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarspaperfilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement. Ulceration, Caries and Exfoliation of

the Bones. A great variety of cases have been reported to use where ource of these formidable complaints have result-form the use of this remedy, but one space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia, Many remarkable cures of these affections have been made by the alternative power of this madicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral FOR THE RAPID CURE OF FOR PRESERVING AND REPEARING METAL Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients

in advanced Stages of the Disease of the Disease

This is a remedy so universally known to surpage any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for co. he and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth.—Few are the communities, or even families, ameng them who have not some personal experience of its effects.—some living trophy in their minust of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the contidence of mankind.
