Dr. Johnson,
Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequon blushing, attended sometimes with derangoment of mind were cured immediately.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by improper indulge-ce and solitary habits, which ruin both body and mind, unitting them for either business, study, scolety or marrisge.

These are some of the sad and metanchelly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Falvitation of the heart, Dyspepsy, Nervous Irratibility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, 20

What a pity that a young man, the hope of his country; the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons away, before contemplating

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often hapens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from a juestion and respectability, can alone befriend him, delaying till the constitutional symptoms on this horr of disease make their appearance, such as ulcorated sore throat, diseased nose, nocturnal pains in the shead and limbs, dimness of sight, desiness, nodes on the ship bones and arms, blotches on the head, face and artremittes, progressing with frightni rapidity, till at last the palate of the mouth or the bones of the nose fall lest the palate of the mouth or the bones of the nose fall is, and the victim of this awful disease become a norrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Urdissovvered Country from whence no traveler returns."

Our loss is given at eighty-four killed, three hundred and sixty-six wounded, and one hunired and twenty-four missing.
Our camp is now within range of the fire of our gunboats, and are in safe condition.

Entrenchments are being thrown up while ve await reinforcements. Gen. Benham's troops to the number of two thousand had arrived from Key West at James Island, but our forces must be largely reinforced

before operations can be resumed.

The rebels are constantly receiving additional troops and preparations for the defense of Charleston are being extensively made.

A letter from Beaufort states the loss of the Third New Hampshire, at six killed and wounded, and of the Eighth Michigan 300. The same latter asserts that Com. Dopont says he can take Charleston with five good gunboats. He will run by Fort Sumter, and the other fortifications without a loss of more than two of his toats, and with the others shell the city.
