EXPLODED IN HIS POCKET .- A lot of torpetool exploded in a boy's pocket in the upper market house this morning, which fortunately allied no more serious damage than tearing the lad's pantaloons, and frightening him nearly out of his wite.

THE CITY SEWERS .- The ordinance recently passed by the City Council relative to sewers is almost a literal copy of one passed on the same sabject by the Borough Council in 1851. The passage of the new ordinance was entailing an unnecessary expense on the city, and consequently sent in his veto.

SISTERS OF CHARITY. - During the past week, quite a number of "Sisters of Charity" have passed through this place for the purpose o acting as nurses to our sick and wounded roldiers in the various hospitals. They attracted considerable attention with their large and snowy white hands. If there is a class of persons who live not for themselves, but for others, it is these same "Sisters of Charity."

ELECUTION CLASS.—We had the pleasure on Friday, in company with a number of our citizens, of witnes ing an exhibition of the class now under the tuition of Mr. Alfred Armstrong in the important art of elocution. The performance of the young gentlemen was exceedingly gratifying, and they displayed a proficiency which we would scarcely have expected in a class which have been only six weeks engaged. for an hour each day, in the study of the pleasing branch of elocution. The exhibition was a novelty to most of those present, illustrating, as it did, the elementary principles of correct speaking and gesticulation. Mr. Armstroug, in his system of instruction, goes to the root of the matter, and his aim is first to develop the voice and secure a proper intonation and articulation, and then to teach the pupil to accompany the delivery of his thoughts with appropriate and graceful gestures. In this, we adjoind song and chorus; "When first my think, he has succeeded admirably, and if his over beheld thee smile," and the "Tic tac present pupils will but remember and apply Aka" are among the new pieces of music the instruction they are receiving, it will prove recivid at Kuoche's Music Store, 93 Market of incalculable advantage to them if called in the future into the arena of public life. Not the least feature of the occasion, was the aspearance of BASE BALL CLUB.—A number of our leading the procession as it wended its way from the citizens met at the depot of the Pennsylvania College to the church, headed by the Harrisburg band, which discoursed most excellent music. To see sixty young ladies, uniformly draped in flowing white drapery, their eyes lighted up with the excitement of the hour, and their faces wreathed in smiles at relief from the thraldrom of school-life, or the prospective pleasures of vacation, is a sight not of ten witnessed, and may be better imagined than described. At the close of the exercises, the procession returned to the college, accom-panied by the band, who, after dining at the college, favored the students and visitors with several choice pieces of music, and returned to stlached to a train on the Pennsylvania Rail-road broke near Ninevah station on Sunday, pleased with their trip, and leaving a very facausing a good deal of alarm among the past variable impression, from their gentlemanly conduct, no less than the music they had fur-

Away from home, in our larges cities, the citizens can at once tell with nothing to engage their attention but from the fire bells-not only the direction, but, their own sufferings, their thoughts naturally by the greater or less rapidity of the stroke—

All this is well understood by every man tentry. They therefore see and feel a slight woman and reasoning child among us, and where none may have been intended. If you the question is naturally asked, why we are have anything to give, and cannot treat all daily inflicted by a violation of a custom so slike, it is better to give it to the nurse or sur- familliar to every one. CHLORIDE OF LIME AS AN INSECTIOIDS .- Dingler's Polytechnisches Journal says: "In scattering chloride of lime on a plank in a stable, all kinds of flies, but more especially biting flies, were quickly got rid of. Sprinkling beds of vegetables with even a weak solution of this salt, effectually preserves them from caterpillers, butterflies, mordello, sings, etc. It has the same effect when sprinkled on the foilage of fruit trees. A paste of one part of powdered chloride of lime, and one half part of some fatty matter, placed in a narrow band round the trunk of the tree, prevents insects from creeping up it. It has even been noticed that rats and mice quit places in which certain quantity of chloride of lime has been spread. This salt, dried and finely powered, can no doubt he employed for the same purpose as flour of sulphur, and be spread by the same means."

A Model Establishment.—Among the many mprovements lately made in our city, to which we can point with pride as an evidence of pros perity and as a determination on the part of our business men, no longer to remain behind the "light house," is the completion of Eby & Kunkle's large brick building at the corner of Market and Fifth streets, which is alike creditable to the owners and ornamental to that part of our city.

The building is not only one of the largest, devoted to the grocery business, outside of New For Waving, burns at once a Red, White and York, but the stock chillenges competion.— Without going into detail, we may safely say that the firm keep on hand everything usually kept in a grocery store, (liquors excepted,) and that they sell at very small profits. Their clerks are civil and accommodating, and have strict instructions under no circumstances what ever to misrepresent or take advantage of any customer. A general invitation is extended to the public to visit the new building and examine the extensive stock, whether they purchase

I have for several years been intimitely acquainted with the New. Thomas W. Cattell. He has had charge of two of my sons, and I can sailely say I have never knowns my one in whose fidelity and devotion to his pupils, I have equal confidence. He is a good scholer and a successful teacher. I know no one who has a greater facility in gaining the love of his scholars or who exerts over them a better influence.

I am aware of the responsibility in spe king in each terms of commendation of a teacher; but I am satisfied I am doing nothing but simple just to to an excellent man, in using the language which I have here employed.
