were oured immediately.

Take Particular Notice.

Dr. J. addresses all those who have injured themselves by impropor indulge co and solitary habits, which roin both body and mind, untitug them for either business, study, society or marriage.

These are some of the sad and melancholly effects produced by carly habits of youth, vis: Weakness of the Back and Limbs, Palus in the Head, Dimness of Sight, Loss of Muscular Power, Paiplitation of the heart, Dyspepsy, Nervous Irratibility, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, 80°.

Who have injured themselves by a certain practice in duged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asienp, and if not cured render; marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be matched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

reflect that a sound mind and body are the most necessary requisites to promote controllal happiness. Indeed without these, the journey through life becomes a wearpligrimage; the prospect hourly darkons to the view the mind becomes shadowed with despair and filled with the melancholly reflection that the happiness of another becomes blighted with our own.

This are as of I... Disease of Imprudence.

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds that he has imbibled the seeds of this painful disease, it too often hapens that an til-timed sense of shame or dread of discovery, deters him from applying to those who, from elucation and respectability, can alone befriend him, delaying till the constitutional symptoms on this hort of disease make their appearance, such as ul cerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the shin homes and arms, blotches on the head, face and extremities, progressing with rightful rapidity, till at last the palate of the mouth or the hones of the nose fall in, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Undiscovvered-Country from whence no traveler returns."

It is a sectenchally fact that thousands fall victims to this terrible disease, owing to the unskilluliness of ignorant pretanders, who by the use of that Deadly Potion, Mercury, ruin the constitution and make the residue o life miserable.

Strangers.

Trust not your lives, or health, to the care of the many Unlearned and Worthless Pretenders, destitute of knowledge, name or character, who copy Dr. Johnson's advervortisements, or style themselves in the newspapers, regularly Educated Physicians incapable of Curing, they keep you trifling month after moath taking their fitthy and poisonousness compounds, or as long as the smallest fee can be obtained, and in despair, leave you with ruined health to sigh over your galling disappointment.
