Two years ago ahs had an attack of acute rheams-tism, from which ahs was confined to her bed for two weeks and subsequently from a rolepse for four more. She has been well since then till last fattir day, while engaged in house cleaning, abs took cold, had pain in her back, fail could, hot had no dedided chill. Two days later her ankies be-gan as swell, which was followed by swelling of the kness joints and of the hands. She has now dull pain in her shoulders, and her knuckles are very tender, red and painful; both hands are affected, but the right is most so. This, then, is a case of acute rheamatism, or, at it is new fashionably called, rheamatic ferer. It is a well remarked typical case We will carefully watch the case, and from time to time call your attaction to the vari-ous symptoms which present themselves. My chief object in bringing her before you now, is to call attention to a remedy which has recently been recommended in the treatment of rheumatism. Im an propylamine. Dr. Awenarius, of St. Petersburg, recommends it in the highest terms, having derived great usenefit from its use in 260 cases which came under his care. Various com-mendatory testimonials respecting it have appeared in our journais, and I propose therefore to give it a another worth of new remedies, which are vanited as specifies; but this comes to us recommended is a highly, that we are bound to give it a trial.
