Dr. Johnson,

Dr. Johnson,
Member of the Royal College of surgeons, London, Graduate from one of the most eminent Colleges in the United States, and the greater part of whose life has been spent in the bospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing dures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousnass, being alarmed at sudden sounds, washfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

Take Particular Notice. Dr. J. addresses all those who have injured themsely by improper indulge ce and solitary habits, which re onth body and mind, unlitting them for esther pustness

These are some of the said and melancholly effects produced by early habits of youth, viz: Waskness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the heart, Dyspepsy, Nervous Irratibitty, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, MENTALLY.—The fearful effects on the mind are much

MERCALLY.—The fearful effects on the mind are much to be dreaded—loss of Memory, Contusion of Ideas, Depression of Spirits, Avil Forbodings, Avers on to Society, Self Distrust, Love of solitude, Timidity, &c., are some of the evils produced.

Thousance of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

Young Men

Who have injured themselves by a certain practice in dulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and it not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prespects and enjoyments of life, by the consequence of deviating from the path of nature and indusing in a certain secret habit. Such persons guest, before contemplating

plating

Marriage,
reflect that a sound mind and body are the most necessary requisites to promote conhubial happiness. Indeed, without these, the jearney through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with depair and filled with the melanchedjy ref. citon that the happiness of another becomes blighted with our own. Disease of Imprudence.

Disease of Imprudence.

When the mi-guided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often hapens that an ill-timed sense of shame or dread of discovery, deters him from applying to those who, from e jucation and respectability, can alone befriend him, delaying till the constitutional symptoms on this hort of disease make their appearance, such as all cerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, dealness, nodes on the whin bones and arms, blothes on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the most her the bones of the nose fall is, and the victim of this awful disease become a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that Urdiscovvered Country from whence no traveler returns."

It is a metascholly fact that thousands fall victims to this terrible disease, owing to the unstillfuliness of ignorant protenders, who by the use of that Deadly Poison, Mercery, ruin the constitution and make the residue of life miserable.

Strangers.

Strangers.

Trust not your lives, or health, to the care of the many Unicarned and Worthless Pretenders, destitute of knowledge, name or characler, who copy Dr. Johnson's adververtisements, or style themselves in the newspapers, regularly Educated Physicians incapable of Curing, they keep you trifling month after moath taking their filthy and poisonousn'ss compounds, or as long as the smallest see can be obtained, and in despair, leave you with ruined health to sigh over your galling disappointment. Dr. Johnson is the only Physician advertising. His credential or diplomas always hangs in his office. His remedies or treatment are unknown to all others, prepayed from a life spent in the great heaptlais of Euprepayed from a life spent in the great hospitals of Ru rope, the first in the country and a more extensive Pri yate Practice than any other Physician in the world.

Indorsement of the Press. Industrient of the Fress.

The many thousands cured at this institution year after year, and the numerous important Surgical Operations performed by Dr. Johnson, witnessed by the reporters of the "Sun," "Clipper," and many other pars, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarrantee such and filtered.
