Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an unimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ecstary the living lyre, may call with full confidence.

No Mercury or Nauseous Drugs,

Dr. Johnson,

Member of the Royal College of surgeons, London, Graduate from one of the most eminent Colleges in the Gnited States, and the greater part of whose lite has been spent in the bospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfuiness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

Take Particular Notice Dr. J. addresses all those who have injured themselves improper indules on and solvery habits, which resolves body and mindy uniting them for either business

Sell Districts, Love to control, standing and the evils produced.

Thousance of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emacasted, having a singular appearance about the eyes, cough and symptoms of consumption.

Who have injured themselves by a certain practice in duled in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatohed from all prespects and enjoyments of life, by the conequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

marriage,
reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the meianchoity refl cuton that the happiness of another becomes blighted with our own.
