

PEOPLE'S UNION STATE TICKET. AUDITOR GENERAL:

THOMAS E. COCHRAN. of York County.

SURVEYOR GENERAL: WILLIAM S. ROSS. of Luzerne County.

HARRISBURG, PA.

Friday Morning, August 8, 1862.

THE CURSE OF MODERN DEMOCRACY If the aggressive principle of modern Democracy, had worked no other evil than that which it produced by arming the mobs of the south, we could pass it by and almost forget that enormity. If it never had conceived any other mischief than that of imbuing the slaveholders of the south with treason, we might deem it still harmless for extensive corruption while it was incapable of doing good. The real danger of this principle of modern Democracy, is the corruption which it is working where all should be pure and patriotic. If it had not been for the influence of the Democratic leaders, the people of the free states would have power and the means at hand. The people were honestly anxious that treason should be wiped out, and the rebellion put down, but their unanimity was invaded, while schism, and dergoing the process of being released from doubt, and difference followed in steady succession, until on several occasions the government was placed more in peril by such influences than it was ever menaced by any of the powers or forces which traitors had been able to invoke or array against it. One of the latest instances of the working of this influence of modern Democracy, is contained in the conduct of the Democratic commissioners of Montgomery county. The people of that county had nobly rallied to sustain the cause of the Union. Its quota of volunteers was in a fair way of being raised, when those thus dedicating themselves to a good cause, only asked that they should be placed on a similar footing with the volunteers from other counties, and that the bounty insured in other localities be also voucheafed to the men of Montgomery county. In accordance with this feeling, the citizens of the county, with a unanimity which there was no mistaking, asked the commissioners that a sum be appropriated sufficient to pay the bounty raised by other counties in the Commonwealth. Nay, they offered to indemnify the commissioners from all personal responsibility, by placing an equal sum at their disposal to that which they were asked to appropriate to pay the bounty. This was flatly and emphatically refused by the Democratic commissioners of Mont gomery county. They denied all support to those who went forth to fight the battles of the Union-they rejected the appeal of some of their most respectable constituents, and intrenching themselves behind the mere pretext that they had no authority to make such an appropriation, they have left the wives and the children of those Court of the United States, in the state of Indi- urday, the rebel cavalry burned the station

THERE MUST BE NO DELAY in the performance of our duty when the country demands.-Now is the time to rally to the support of the in the ranks of the army. In such case, members FROM CAIICO, ILI Government. The rebels through a conscription act, have gathered their whole strength, for one great and tremendous effort to throw the war given in every instance upon the initiation of a sinter the North! It is the last struggle of the rebels. If they are defeated in their present purpose, the end of the war is near at hand.
Our army is ready to meet the enemy, but the rebels far outnumber them. The gallant fellows will dispute every inch of the way, and may succeed in checking the advance. But we want the order examined before us admit the binding succeed in checking the advance. But we want succeed in checking the advance. But we want force of the obligation and pretend to justify it as cor a line of fresh bayonets behind them, extending rect in principle. from Washington to Cairo. This is essential to try calls upon every man. No one can remain pregnant with meaning and danger : calm and idle and claim to be loyal. courteous and friendly expression such as have been delivered by the do-nothing ministers at the Court of St. Petersburg, who have, almost time out of name, represented the United States government there. It is the plain and firm, yet polished and clear statement of our national condition and sentiments, to our oldest national friend. And the task of expressing thos sentiments, for the caution of the other governments of Europe as well as the information of the Russian Emperor, was properly entrusted to General Cameron. He it was who had just succeeded in organizing the finest army the world ever seen, with a celerity and an efficiency never equalled. He had saved the national capital at a time when the boldest held his breath from apprehension of what the next day would bring forth, or the next tick of the tele graph announced. He had justified—fully and nobly—the trust reposed in him, and he was therefore the man-the war minister of this great nation, to be commissioned with the duty of announcing to Europe, from the shores of the Gulf of Finland, the position of our nation, and its ability to make good that position against the world.

The policy of Gen. Cameron's withdraws from the Secretaryship of War, and the reason of his present position, are now as plain and as apparent as the invendoes of his opponents and the assertion of a forced resignation, are seen crushed this rebellion long since. We had the to be unfounded. The points of this remarks ble state paper are chosen with great judgment, and expressed with wonderful tact. Russia and the United States, it says, are both unthe pressure of slavery ; the one by the wise and humane exertions of the present Emperor; the other under "the guidance of Divine Providence" and the force of the events of the ege. Next, an allusion is made to the duty of Russia and the United States to maintain their respective positions—the one in the old and the other in the new world-with the significant addition, that the perpetuity of the republican system in America is necessary to the best interests of the world. In other words, that the "Montoe Doctrine" is to be maintained .-The final and main announcement is, that though our system of government does not admit of large standing armies in time of peace, the United States government "will never want soldiers to maintain its domestic security or defend its national honor."

There it is, a plain proclamation to all whom it may concern: We will regulate our own affairs and institutions according to our own discretion. We will permit no disturbance of our American system on this continent. And Jeff Thompson Driven Back with if these principles and measures are unacceptable to any, we will maintain them by force, against the world, if need be-

Again, we would commend this able document to the careful perusal of the people. They will find it-in every line-to be pregnant with noble meaning. It is the voice of the nation, uttered almost at the extremity of the nation, uttered almost at the extremity of the under Jeff. Thompson. The latter was driven earth; but it will find a full response in every back with greatless. No particulars are given. patriotic heart in the universe.
