A Cure Warranted in Two Days.

No Mercury or Nauscous Drugs.

Dr. Johnson,

Member of the Royal College of surgeons, London, Graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cared immediately.

Take Particular Notice.

Dr. J. addresses all those who have lajared themselves by improper indulgs Co and solvary habits, which roin buth tooky and mind, unfitting them for either business, study, solvely or marriage.

These are some of the sad and melancholly effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Paintiation of the heart, Dyspepsy, Nervous Irratibility, Derangement of the Digestive Functions, General Debihty, Symptoms of Consumption, 45.

MENTALLY.—The fearful effects on the mind are much Mgrrally.—The fearful effects on the mind are much to be draaded—loss of Memory, Confusion of ideas, Depression of Spirits, avi Forocolings, Avers on to Scotety, Sof Distrust, love of solitude, Timidity, &c., are some of the evils produced.

TROUGRAINS of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emacated, haying a singular appearance about the eyes, cough and symptoms of consumption.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of acture and indulging in a certain nearest habit. Such persons MUST, before contem-

reflect that a sound mind and bedy are the most necessary requirites to promote countrial happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view the mind becomes shadowed with despair and filled with the meliacebolly rad citou that the happiness of another the metanoholly refl ction that the happiness of anothe becomes blighted with our own.

It is a melanchally fact that thousands fall victims to this terrible disease, owing to the unskillulness of ignoatt pretenders, who by the use of that Deadly Potsom, Microscy, ruin the constitution and make the residue o lite miserable.

The Constitution. EDITOR OF THE TELEGRAPH :- When I hear nisuamed Democrats talk about the Constitution, it reminds me of the devil quoting scrip-ture, and so far as the mere letter goes, his quotations were much more to the point than those Democratic quotations of the Constitution by men who never read the instrument they profess to venerate so much. A certain man residing near Chestnut street, whe, I believe, can neither read nor write, holds the soubloquet of "Vallandigham," of which he is amazingly proud—a name the present leaders of the Breck-inridge wing so much venerate. When this Mr. Valandigham talks about this Constitution, (he never reads,) he puts Daniel Webster into the shade; not a glimpse of Daniel remains he contends in effect that that so much abused instrument protects tresson and traitors from punishment; authorizes the extension of slavery over all the States, and saves to their southern friends from the confiscation of their southern friends from the confiscation of their slave property; allows the separation of the states; allows the robbing of our Costom Houses and Mints; the seising of our forts, and, incomparated by the South. I asked this Mr. Valiandigham what a Constitution was, and what the object was in framing such an instrument? "Oh!" said he, "everybody knows that every Democrat does." I gave him my views, and said it was simply an agreement formed by all the States that they would enter into a co-partnership for the purpose of carrying on the bu-siness of governing the States, that certain things were to be done, and some left undone, and that this agreement should remain in force until a majority of the States agreed to alter or annul the same. Now this agreement or Constitution has been violated by the South, after
