HARRISBURG, PA. Wednesday Afternoon, October 8, 1862.

VOTERS OF DAUPHIN COUNTY, Beware of the Most Infamous Falsehoods.

The emissaries of the Breckenridge County Committee are flooding Dauphin county with extras printed at the Patriot and Union office, containing the most infamous falsehoods ever uttered by mortal man.

In one of the towns in the upper end of the county, these lying emissaries made a landlord believe that he would be obliged to pay a license of \$40 extra, if he kept a Bagatelle table on his premises.

We ask every candid man, in the county of Dauphin, whether persons who circulate such willful and malicious falsehoods against the Government, can be considered loyal citizens.

THE PLATFORM OF TREASON, As Prepared by the Leader of the Breckenridge Party in Pennsylvania.

The following is the resolution written by Mr. F. W. Hughes, Chairman of the Breckenridge Democratic State Committee, for the consideration of the State Democratic Convention.

Resolved, That Pennsylvania owes her growth in population, and the increase of capital and wealth of her citizens, chiefly to the advantages which the American Union has afforded to the development of her natural resources; and that her glory and paramount interests are identified with the continuance of that Union.

The Prospects of Next Tuesday.

From reliable information received from all the counties in this Congressional District, we feel gratified to assure our readers that the election of JOHN J. PATTERSON is beyond a question of doubt.

We have also full information from all parts of this county, and we can assure our readers at home and abroad that the whole Union ticket will be elected by respectable majorities.

Dr. Heck, for whom extraordinary efforts have been made, will not receive anything like the vote in the upper end of the county he received last year, when he was handomely beaten, and observing men all agree that his vote will be much less in the lower end.

We can, therefore, assure our readers that the whole ticket will be elected by handsome majorities, and that traitors and Tories will receive their proper reward in loyal Dauphin and the 14th Congressional district.

THE SICK AND WOUNDED.

In the midst of a bitter political campaign—when the secret and open foes of the government are striving with the most fearful tenacity to overthrow the civil power by diminishing its influence—to rob the army of its resources, by urging the people to repudiate the taxes made necessary to feed and clothe, and furnish with munition of war, those who are in the field—in the midst of all these fearful struggles on the part of loyal men, the country is suddenly startled with the announcement that the sick and wounded soldiers are neglected.

What will the civilized world think of the story of the wrongs committed in the hospitals of the American army? What will Christian governments think when the fact is known that these wrongs go on without redress?

We hope that when Congress meets, this whole subject will be thoroughly ventilated, and the guilty parties dragged before the country.—Money and stores have been lavishly contributed to the hospitals. It would not have cost more to have sent every wounded man to his home, and while there, paid his board and the fees of a private physician, than it has cost the government to support the wounded in our hospitals.

The MONTGOMERY AMERICAN of the 8th instant says that Hon. George Landon—the choice of the Republican party in that Congressional District—has withdrawn from the canvass, and Robert F. Clark, Esq., of Bloomsburg, has been nominated.

That every vote cast for the Breckenridge candidates for Assembly, HECK and ROUMFORD, is a vote cast for that arch demagogue FRANK HUGHES, who aspires to the United States Senate, and who would, no doubt, use all his influence to carry into practical effect his treasonable resolutions, by hitching our good old commonwealth to the Southern Confederacy.

ABOUT THE NATIONAL TAX.

While the Tory organ is using all its art of misrepresenting the truth and mistating facts to carry its treasonable points, it is refreshing to notice the tone of other journals on the same subject. The Germantown Telegraph, a neutral paper, but whose editor has always been an honest Democrat, thus refers to the taxes about to be levied by the Government. It says that some people who have yet suffered nothing from the rebellion—who have subscribed very little or no money to the volunteer bounty, military or refreshment funds, and perhaps made not a cent's worth of contributions to the sick and wounded soldiers in our hospitals—take special pains to show their lack of patriotism in grumbling about the taxes they will have to pay to sustain the Government in rescuing their country from its threatened destruction.

Without a country and a government, what are we? What, men of thought, is there worth living for? What security is there for property, the means of existence, or even life itself? We should remember that our all depends upon the maintenance of the union of the states and the government which this Union instituted.

This Nation and its government cannot be valued by dollars and cents. If they could be, we should next begin to estimate the value of Heaven by filthy lucre. It is too sacred to be thus desecrated.

THE BALTIMORE ELECTION. The city election for Mayor and Council is proceeding very quietly to-day, notwithstanding the anticipations of a difficulty between the friends of the regular and independent candidates.

SPEECH OF A UNION DEMOCRAT.

Yesterday we printed the letter of acceptance of Gen. Wadsworth, the Union candidate for Governor of New York. To-day we print the speech of acceptance of Hon. Lyman Tremain, the candidate on the same ticket for Lieut. Governor. He is a Union Democrat, and his speech is one of the most sensible, appropriate and patriotic we ever read, and we wish our could be made for it entire in our columns; but as this wish is impossible to gratify, we annex a paragraph or two, taken from the body of it, which we cannot refrain from printing.

"My own opinion was formed at an early period in this war, that the true course for parties to pursue in the present emergency was to ignore all political divisions. To me, it has seemed that the highest dictates of patriotism, the true interests of the nation, and the triumphant success of our Government, would be promoted in this time of our country's peril, if the people of this great State could all cooperate in their political action, present an undivided front upon the single platform of a vigorous prosecution of the war.

"I cast my eyes over the Southern Confederacy, and I find that, under the iron hand of Governmental despotism which prevails, the people are substantially united in supporting the miserable usurpation called a Government. I have longed earnestly to see the people of this State, by their own voluntary action, present a united front in sustaining our free institutions. To me it has appeared that the moral effect of such a sublime spectacle, both at home and abroad, could scarcely be estimated.

"I approved, therefore, of the action of the dominant political party in tendering the olive branch and inviting the Central Committee of the Democratic party to such a union a year ago, and it was with disappointment and regret I observed that the proposal was rejected, and that the Committee declined to call the Convention of the Democratic masses at a time and place designed to promote the consideration of the subject.

"My views of the expediency and necessity of a great Union party remain unchanged. They are strengthened by observation and experience."

Why does not the Tory organ print the resolutions of Frank Hughes, with which he proposed to switch Pennsylvania off the track of this Union, and run the state among the rebel traitors? Is it fearful of the truth of these resolutions, so far as the proof they afford of Democratic complicity with southern traitors is concerned? or is Frank Hughes' authority worthless? The people would like to know.

The Emancipation Proclamation

General Order Issued by Gen. McClellan. HEADQUARTERS ARMY OF THE POTOMAC, CAMP NEAR SHARPSBURG, October 7, 1862. GENERAL ORDER No. 163.

The attention of the officers and soldiers of the army of the Potomac is called to General Order No. 132, War Department, Sept. 24, 1862, publishing to the army the President's proclamation of Sept. 22d. A proclamation of such grave moment to the nation, officially communicated to the army, affords to the general commanding an opportunity of defining specifically to the officers and soldiers under his command, the relation borne by all persons in the military service of the United States towards the civil authorities of the Government.

The Constitution confides to the civil authorities, legislative, judicial, and executive, the power and duty of making, expounding, and executing the Federal laws. Armed forces are raised and supported simply to sustain the civil authorities, and are to be held in strict subordination thereto in all respects. This fundamental rule of our political system is essential to the security of our Republican institutions, and should be thoroughly understood and observed by every soldier.
