THE BRECKENEIDGE meeting held in Gettys burg on Friday evening last, was one characteristic of that party. Miller, the candidate for Congress, had nothing to say against the rebels, but all against the government and the abolitionists. Purdy was present, but the tellow was cut short in his speech, by the arrival of the night train. ' There were not over one hundred Democrats present, excluding others. Three rousing cheers were given for the rebel Breckenridge during the meeting. This meeting was a miserable failure. It disgusted some who would have voted the whole Breckenridge ticket, but who were cured by the lies and misrepresentations.

SEMI-ANNUAL MEETING .- The Homospathic Medical Society of Chester, Delaware and Lan- Miss Reamshart, caster counties, held its eighth semi-annual meeting in Lancaster city on Tuesday last. The following officers were elected for the en-

CENTS. —This kind of coin, says a Philadelphia cotemporary, at one time was looked upor with disdain, and in many cases, parties who received large amounts had to sell them at a discount. At present cents are in demand and bring a good premium. Considering the large quantity coined at the Mint, it becomes an interesting question as to the whereabouts of impurity of the blood, that she is prepared to the numerous cents which have been distributed furnish Mrs. Westhoven's German Vegetable by the Government. The Mint in Philadelphia on hand a quantity of invaluable Salves for coins daily from one to two thousand of them, Sore Eyes, Frozen Feet and Piles. References all of which are distributed as soon as made; but still they are scarce. It was thought that speculation in them could be prevented by giving only five dollars' worth to each applicant; but the effort was a failure, as some persons employed a number of boys to wait their turn, and thus accumulate quite a pile, which can afterwards be sold at a premium. A large number of the cents made at present go out of the city, to fill orders received some time since. As word through the press in its behalf. My medicines are prepared with great care, expressly tion, it is their interest to send them in large for family use, and are admirably calculated to quantities; therefore these orders are kept back preserve health and remove disease. I can therefore recommend them with the greatest until a sufficient number is received to justify the payment of the cost.

FATAL ACCIDENT.—On Saturday last an accident occurred on the river opposite Northumberland, resulting in the death of a young man named Theodore P. Barker. It appears, from what we can learn, that two brothers of the name of Barker, who had been soldiers in M'Clellan's army, and wishing to come to their homes, at Candor, near Oswego, New York, had deserted, and somewhere along the canal procured passage on a boat to Wilkesbarre.

As the boat was crossing the river at Northumberland, another one was coming towards them, and Theodore cast off the line, but in so doing berland, another one was coming towards them, and Theodore cast off the line, but in so doing lost his balance, and fell between the boats, crushing his head almost to pieces. Ayer's Cathartic Pills

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most periect purgative which is known to man. Innumerable proofs are shown that these Plush save virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly up in the esteem of all men. They are sate and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate stuggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished dozes, the safet and best physic that can be employed for children. Being sugarcosted, they are pleasant to take; and being purely veg etable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exatted position and character as the form and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent me the assurance of their conviction that our Preparations contribute immensely te the reliability of our remedies, while others have sent me the assurance of their conviction for my afflicted, suffering fellow-men.
