plating reflect that a sound mind and body are the most neces-ary requirities to promote concludint happiness. Indeed, without these, the journey through life becomes a weary pligrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despart and filled with the melanchoily refl cition that the happiness of another becomes blighted with our own.

He desires to be returned that he may aid in embarrassing the future efforts of our noble old commonwealth in assisting to redeem the land from rebellion by enforcing the laws and vindicating the federal authority. No patriot, no ory of "all glorious." brave, loyal lover of his country can vote for Dr. Heck.

> Freemen, remember that this is the record of Dr. Heck whilst he was in the Legislature. Let us now examine his action at a later period.

On the 7th day of August, 1862, the Democratic County Convention met at the Court House, in this city, for the purpose of nominating a ticket. Dr. LEWIS atterwards were forced to fall back from the PURDON'S DIGEST. HECK was a delegate to that Convention, and assisted in nominating himself as a candidate for the Legislature. We copy the following from the Patriot and Union of August 8, 1862, viz :

"Dr. HECK moved that the resolutions passed by the Democratic State Convention on the 4th of July be adopted by this Convention.

"The reading of the resolutions was called for, and after reading of which they were adopted amid applause."

The resolutions and nominations of that Convention have thus been fairly and openly approved by Dr. HECK, and we give him all due credit for his action in having them adopted. He stands therefore squarely up to the platform which the friends of the traitor John O. Breckenridge advocated in this State.

The candidates nominated by that convention are also the avowed enemies of the country. Isaac Slenker and James P. Barr, for Auditor and Surveyor General, are both on the record as the abettors of rebellion. Slenker seconded the efforts of Buchanan to steal or purchase Cuba-and he was also in fayor and would now es tablish, if he had the power, the slave trade in every port of the Union. Barr is known to have so far defended treason as to have incurred the wrath and run the dan-

ger of a halter at Pittsburg.

Such is the record and such the company in which we find Dr. Heck.

First, We find him voting against arming the State.

Second, We discover him in a Convention called to endorm the proceedings of hose who openly oppose the National Government.

Third, He refused to vote money to pay those who were willing to defend the
