THE REGULAR MEETING of the Union Relief Association will be held on Saturday afternoon at 3 o'clock in the school house on the corner of Walnut street and Riveralley. Punctual attendance is requested.

M. S. BEATTY, Pres. E. A. BISHOP, Sec'y.

THE DEPARTMENT of Agriculture is in the receipt from Governor Doty, Indian Superintendent in Utah, of some four varieties of currants, which in size more nearly approach grapes than our common currants.

IN WASHINGTON CITY the foot pads who infest the suburbs resort to the garroting system in order to facilitate their pilfering. They steadily approach any luckless loiterer whom they see about to leave home during the small hours, and casting a machine constructed for the purpose over his head, roughly contract his windpipe and jugglers, while they gently extract whatever money or valuables he may have on his person.

PERSONAL.—Hon. Edward McPherson was in the State Capital to-day, looking as pleasant and as cheerful as though he had not suffered from the dejection and falsehoods which were used to defeat him at the late election, as a candidate for Congress in the Adams district.

CAPT. E. H. RAUCH was in our sanctum this morning, being en route for his command in the army of the Potomac. He looks well, after sojourning among his friends at home, Mauch Chunk, for a few days, and when back to his command, will doubtless give a good account of himself.

RENEWING CHARTERS.—The following banks give notice of their intention to apply to the next Legislature for a renewal of their charters: Exchange Bank of Pittsburg; Commercial Bank of Philadelphia; Bank of Chester county; Farmers' Bank of Bucks county; Bank of Delaware county, with right to increase capital; Lebanon Bank, Lebanon; the Miners' Bank of Fortville; Bank of Chambersburg; Lancaster County Bank; Harrisburg Bank; Wyoming Bank, at Wilkesbarre, with right to increase capital; Bank of Danville; Farmers' and Merchants' Bank of Easton.

THE PEOPLE of the SOUTH are practicing an economy in all things which would be advisable for the people of the north to imitate. Among other effects of the war, we notice that the genius of the people of that region is being developed by the necessities with which they are surrounded, and thus many articles are now produced in the south which would never have been thought of had that section been left in dependence on northern producers and manufacturers.

THE SYNOD of BALTIMORE adjourned yesterday morning about half-past eleven o'clock. After the adjournment a number of the delegates, by invitation of Dr. Curwen, visited and were shown through the State Lunatic Hospital. Very little business of public interest was transacted during the present session, with the exception of the consideration of a well written paper upon the state of the country, reported from a committee and adopted by the Synod in the form of a preamble and resolutions.

EDITOR OF THE TELEGRAPH.—I have just returned from Baltimore. Whilst there I fell in with a lady of well-known secession proclivities, who boasted of having brought away from Fort Mifflin, by permission of General Wool, four of the wounded prisoners lately transferred from Frederick. I inquired if they were in any of the Baltimore hospitals. "No; they are in the hands of our friends. A dozen ladies scrounged for them, but I had already promised them to others, and they are well cared for."

THIS WAS ONE of those healthy autumn days which inspire us with real love of life.

REBUILDING.—The Cumberland Valley R. R. Company, whose Depot, Engine House, Shops, &c., at Chambersburg, were destroyed by Stuart's Rebel Cavalry, is rebuilding the different structures, some of which will be larger and much improved.

TOO MUCH FUGIOITY cannot be given to the fact that the United States quarter master's department in this city is lamentably deficient in the article of blankets, and that great suffering may be avoided by each man supplying his own from home, far which he will be accredited by the government.

THE ENTERTAINMENTS nightly afforded at Sanford's Opera House, while not properly of a dramatic order, are still of that refined description which will justify the most fastidious in being present. The pieces selected are all calculated to please, while the actors themselves are ladies and gentlemen.

THE MILITARY HOSPITAL.—Our reference to the subject of the abuses in some of the branch military hospitals in this city, created some excitement among the nurses and physicians. A lady friend in one of the hospitals—this morning, says that the patients were informed that to talk or complain of the outrages to which they are subjected, is to incur the penalty of death.

WE are daily gathering facts in regard to the hospitals of this city. We have a number of such facts already, well attested, and at the proper time these shall be given to the public. If it is death for a wounded soldier to expose the wrongs to which he is subjected in the hospitals, we have never seen it laid down in the books that a reporter is liable to the same punishment for exposing petty tyranny, imposition and outrage.

A GOOD STORY TOLD, BUT GENEROSITY STILL IN THE ASCENDANT.—Our Lebanon friend, who gave us what he called facts in relation to the Coleman-draft substitution in that county, must have mixed his lager with a spirit not addicted to the truth, or his recollection must have been somewhat clouded by other influences.

LEBANON, Oct. 23, 1862. Correspondence of the Telegraph.—That was a huge cannon in your paper the other morning, about Robert W. Coleman of Cornwall, Lebanon county, having been drafted and giving his check for \$3,000, &c., &c. I am not certain whether his name was at all on the list; if it was he very fortunately escaped.

A PARTISAN QUESTION.—The question propounded by the writer of the following card, as well as the facts which he sets forth, are deserving the serious attention of the authorities and the people. Rev. Hay is a man of strong sympathies for justice, right and impartiality. He knows of what and why he writes, so that we rather feel proud to give his statement a place in our columns.

I inquired if they were in any of the Baltimore hospitals.

MUST REJOIN THEIR REGIMENTS.—Gen. McClellan has expressed the wish that the provost marshals will return to their respective regiments all the straggling officers they can pick up. Over two thousand of these worthies are absent without leave.

FATAL ACCIDENT.—A man by the name of Cyrus Knepper, of Quincy township, Franklin county, who appeared in Chambersburg on Tuesday as a substitute for another that had been drafted, was killed in Greencastle on the evening of that day, when he was, among others, on his way home.

AN ORDER HAS BEEN ISSUED by the Governor by which officers of volunteer organizations, now raising in various parts of the State, are warned that their commissions will be withheld and other punishment inflicted if proved guilty of defrauding the government of men and enriching themselves by accepting pay from drafted men for providing substitutes out of the ranks of men already enlisted by volunteering.

A MODEL ESTABLISHMENT.—Among the many improvements lately made in our city, to which we can point with pride as an evidence of prosperity and as a determination on the part of our business men, no longer to remain behind the "light house," is the completion of Eby & Kunkle's large brick building at the corner of Market and Fifth streets, which is alike creditable to the owners and ornamental to that part of our city.

TO THE AFFLICTED.—The undersigned would respectfully inform those who are afflicted with Rheumatism, Dyspepsia, Consumption of Liver and Kidney, Coughs, Fevers, and all diseases arising from impurity of the blood, that she is prepared to furnish a very moderate quantity of her Sore Eyes, Frozen Feet and Piles. References can be furnished as to their wonderful efficacy, whenever called upon.

SANFORD'S OPERA TROUPE.—We find the following complimentary notice of Sanford in the Philadelphia Bulletin of last evening: Sanford's Troupe at the new hall, Chestnut street, has become an institution already; the name of Sanford will always "draw," no matter where he may locate, and the entertainment given by the new company is of a superior character.

COMMUNICATED TO THE PUBLIC.—Curiosity, Inexperience and Prudence started out one day a shopping. Curiosity insisted upon visiting all the different places of business to see what was to be seen. Inexperience, with all the noble impulses of young life, was pleased and delighted with the gay colors and slightly goods, and disposed to purchase every thing that looked handsome.
