HARRISBURG, PA. Wednesday Afternoon, October 29, 1862.

MILITARY BUSINESS, Of all kinds attended to. EUGENE SNYDER, Attorney at Law.

COME DOWN.—The Patriot, this morning, acknowledges that it misrepresented the facts in the late stable g case, and hence spoils the sensation which it imagined it started for those of its cotemporaries who are always ready to gobble up anything horrible on the nigger question.

NEW FRAUD.—Five dollar bills, purporting to be issued by the Clinton Bank of Pennsylvania, are in circulation. The notes are altered from the broken Clinton Bank of Maryland, and are engraved and have a railroad train on upper centre. There is no bank of that name in Pennsylvania.

SHOWING POTATOES.—As many of our farmers and gardeners are now stowing away their winter supply of potatoes, the following hints on the subject from a correspondent of the Scientific American may prove of use. The writer says he has tried it four years and that it has proved a sovereign remedy, not having lost a bushel in that time after they were harvested, though in some cases they were half diseased when taken out of the ground. The receipt is as follows: "Dust over the floor of the bin with lime and put about six or seven inches deep of potatoes and dust with lime as before. Put in six or seven inches more of potatoes, and lime again; repeating the operation till all are stowed in that way. One bushel of lime will do forty bushels of potatoes, though more will not hurt them—the lime rather improving the flavor than otherwise."

A COURTING EXPEDITION.—Two young men from the Derrys, this county, started on a courting expedition to Lancaster county, last Sunday. While returning home late in the night, in the "wee small hours," they accidentally drove their blind horse into a cellar, which was in course of construction, upsetting the carriage and throwing the lovers into the mud. They sustained no personal injury, further than the damaging of their "Sunday clothes," and a few slight scratches. Considerable trouble, however, was experienced in extricating the horse and buggy from the cellar—they having to tear down a portion of the wall before the object could be effected. The next time the boys go a courting they had better supply themselves with a lantern, or a pair of bright damsel eyes to light them on the road. A blind horse and a driver "blind in love" are bad companions to travel with on a dark night. We hope to hear a better account from the "b'boys" the next time.

THE TIME for furnishing substitutes expired yesterday, and thus the market in that business is closed. Some of the sharp ones made a profitable enterprise of the matter of furnishing substitutes. We heard of a case rather interesting, the names of the parties to which we are not allowed to divulge. It is to this effect: Two young men both attached to the same lady, and strange to relate, knew of each other's falling and respected it like men. One was drafted and the other escaped. They both met at the house of their lady love, who offered to arrange the difficulty of their love, if they pledged themselves mutually to abide by the decision. An agreement was promptly and honestly made, when the young lady arranged to marry the man who had been drafted, provided the other would offer himself as a substitute. The agreement was accepted. The substitute offered—and the marriage celebrated within twenty-four hours from the time the lady made the proposition. The parties to this affair will not object to this notice, while those who are not cognizant of the romance, may at once commence inquiry for the names of the heroes and heroine. This incident is not the strangest which has been produced by the force of war, and yet we must call it a freak of love.

THE OIL CREEK RAILROAD.—The history of this road gives a remarkable specimen of enterprise and "go-aheadativeness." The road was projected and determined on by the owners of the oil wells about the middle of the spring of this year. No time was lost. The capital was at once subscribed, and the work entrusted to Dr. Streater, well known from his connection with the Atlantic and Great Western Railway. Work was commenced in May, and by the 1st of the present month the road, twenty-seven miles long, was completed and turned over to the proprietors. We doubt if a parallel to this in dispatch can be found in the history of railroads. The road was commenced in the midst of a wood, and none of the usual conveniences for building railroads branching from other lines existed in this instance. It was a new road, in the midst of a forest, with which connection has since been made with other lines. The road runs from Corry to Titusville, a distance of twenty-seven miles, running to and along Oil Creek, terminating at the above named town. At Corry it connects with the Philadelphia and Erie railroad for Erie and the west, and also with the Atlantic and Great Western railroad from New York direct. One passenger and one freight train will run daily at present, but from present appearances the business of the road will speedily demand an increase of freight trains. The wells on Oil Creek are now producing and preparing for market over five thousand barrels of oil daily, and most or all this will probably seek a market over the Oil Creek Railroad. By means of this road the great oil regions can be reached without the difficulty and unpleasantness hitherto experienced.

A NEW COUNTERFEIT.—A counterfeit five dollar note on the Farmer's and Mechanic's Bank of Kent county, Md., has been recently put in circulation, and is so well executed that it may deceive the unwary. The centre cut represents the interior of a blacksmith shop, with the smith working at the anvil. Two horses are being led into the door. In the right corner there is a vignette of a female, and in the left a representation of a sailor holding a sextant. Quite a number of them, we understand, have been circulated.

DRAFTED COMMON SCHOOL TEACHERS.—The Governor has received authority from the War Department to discharge County Superintendents and teachers from the draft, and has authorized the State Superintendent, (Common Schools) to give notice that if any teachers have been drafted they will be discharged on forwarding to the Department of Common Schools a certificate signed by the president and secretary, or a majority of the members of the board of directors, stating the fact that their withdrawal from their schools at the present time would be injurious to the cause of education. An advertisement, in another column of today's paper, contains full instructions how to proceed to obtain a discharge, to which we refer all who may be interested.

THE UMBRELLA.—This article, which has been allowed to slumber in quiet nooks for a long time, was brought out Sunday and displayed on our streets in profusion. Speaking of the umbrella, being in search of an item for a dull day, we have been led to investigate the history of this strange article, and find that it has been used from a very remote antiquity, as is evident from carvings and representations found among ancient ruins of Persia, Arabia and China. Nevertheless it was not used by men in England until during the last century, and it is said that Jonas Hanway, who died in 1786, was the first person who used an umbrella in the streets of London. Even at that late period, a man carrying an umbrella was an object of ridicule, and excited the jeers of the people by his "effeminacy." Previous to the introduction of umbrellas, the hackney-coach was the shelter of unfortunate pedestrians who happened to be caught in a shower; but it was customary, after their introduction, to keep a single umbrella at each of the coffee-houses, which, in cases of emergency, was lent, together with a boy to carry it.

THE JEWELRY BUSINESS.—It may seem strange to some of our readers that a few of those employments whose success would seem to depend rather upon luxury than comfort or necessity should at present be flourishing. Among these employments may be mentioned the jewelry business. To be sure, some of the artisans in this branch have turned their attention to other pursuits, and workmen who once manufactured jewel cases and other articles of a like type, have modified their trades to something more suitable to this war-like era. Still, jewelers, some of them at least, are doing a business, and the fact may in part be accounted for as follows: The government work has employed a very great number of poor people, most of whom are women or young girls. These belong to a class which proverbially spends as fast as it gets. They are more fond of show than of humble and homely comforts, and think, foolishly, it is true, that a glittering bauble is worth intrinsically more than a thick shawl or stout shoes. Consequently, with their usual improvidence, they have made a rush for trinkets. Rings, brooches, ear-rings, have been in demand, and, we presume, nose jewels would also be in the market were uncivilized fashions permissible. We would not have it inferred, however, that the poorer classes have been the only patrons of gold and gems. Another class exists, which would bemoan the dearth of pearls and rubies as much as its menials would miss cast-off clothes and other perquisites. The beauty has no thought of foregoing the bracelet or the necklace, the diamond ring or the turquoise oisp. All classes thus influence and interwork with each other. It is necessary that this should be so, and though extravagance is to be deprecated equally, in both rich and poor, still there is in these expenditures, as in all human actions, a certain law, which must be followed, and which, in the end, equalizes the actions of each individual with those of every other.

LADIES' UNION RELIEF ASSOCIATION.—The ladies named will send to the reception room, (Dr. Bailey's) by 10 1/2 o'clock, On Thursday October 30—Stewed chicken. Mrs. A. G. Curtin, Mrs. W. M. Kerr, "Levi Wolfinger, "E. O. Williams, "W. Hommel, "David Mumma, "Reuben Hale, "Elias McCormick, "R. F. Keller, "A. Bombardier, "Martha Bonifort, "I. M. Keller, "J. C. Kunkel.

TO VISIT THE HOSPITALS. Thursday, Friday and Saturday. Mrs. Dr. Fager, Mrs. A. H. Bigler, Mrs. Hamilton Alricks. TO SERVE AT RECEPTION ROOM AT 9 1/2 o'clock A. M. Thursday, Friday and Saturday. Wednesday and Thursday—Mrs. J. F. Seller. Friday and Saturday—Miss Martha Elder.

A MODEL ESTABLISHMENT.—Among the many improvements lately made in our city, to which we can point with pride as an evidence of prosperity and as a determination on the part of our business men, no longer to remain behind the "light house," is the completion of Eby & Kunkle's large brick building at the corner of Market and Fifth streets, which is alike creditable to the owners and ornamental to that part of our city. The building is not only one of the largest, devoted to the grocery business, outside of New York, but the stock challenges competition. Without going into detail, we may safely say that the firm keep on hand everything usually kept in a grocery store, (liquors excepted,) and that they sell at very small profits. Their clerks are civil and accommodating, and have strict instructions under no circumstances whatever to misrepresent or take advantage of any customer. A general invitation is extended to the public to visit the new building and examine the extensive stock, whether they purchase or not.

THE BOUNTY FUND.—The following reports, of the Auditing Committee on the part of the people, and of the Commissioners on the part of the county, present the evidence of the faithful disbursement of the amount of money placed in the hands of Rudolph F. Keller, Treasurer of the Bounty Relief Fund. The amount disbursed was very large, while the character of the receipts and disbursements at once required that care and attention which must accompany all financial operations to secure their success. In this Mr. Keller has been eminently successful. The adjustment of his account corroborates the high character he has ever borne as a man of integrity and business. In the name of the people of this city and county, therefore, we tender him the honorable acknowledgments which his patriotic and laborious services so justly deserve:

New Advertisements. In the Name and by the Authority OF THE COMMONWEALTH OF PENNSYLVANIA, ANDREW G. CURTIN, GOVERNOR OF THE SAID COMMONWEALTH. A PROCLAMATION. WHEREAS, It is a good thing to render thanks unto God for all His mercy and loving kindness: Therefore, I, ANDREW G. CURTIN, Governor of the Commonwealth of Pennsylvania, do recommend that THURSDAY, THE 27th DAY OF NOVEMBER NEXT, be set apart by the people of this Commonwealth, as a day of solemn Prayer and Thanksgiving to the Almighty.—Giving Him humble thanks that He has been graciously pleased to protect our free institutions and Government, and to keep us from sickness and pestilence—and to cause the earth to bring forth her increase, so that our garners are choiced with the harvest—and to look so favorably on the toil of His children, that industry has thriven among us and labor had its reward; and also that He has delivered us from the hands of our enemies—and filled our officers and men in the field with a loyal and intrepid spirit, and given them victory—and that He has poured out upon us (albeit unworthy) other great and manifold blessings:— Beseeching Him to help and govern us in His steadfast fear and love, and to put into our minds good desires, so that by His continual help we may have a right judgment in all things:— And especially praying Him to give to Christian churches grace to hate the thing which is evil, and to utter the teachings of truth and righteousness, declaring openly the whole counsel of God:— And most heartily entreating Him to bestow upon our civil rulers, wisdom and earnestness in council, and upon our military leaders, zeal and vigor in action, that the fires of rebellion may be quenched—that we, being armed with His defence, may be preserved from all perils, and that hereafter our people, living in peace and quietness, may, from generation to generation, reap the abundant fruits of His mercy, and with joy and thankfulness praise and magnify His holy name. Given under my hand and the great seal of the State, at Harrisburg, this Twentieth day of October, in the year of our Lord one thousand eight hundred and sixty-two, and of the Commonwealth the eighty-seventh. A. G. CURTIN, ELI SLIFER, Secretary of the Commonwealth.
