DON'T FORGET THE FAMILIES OF THE DRAFFED MEN -- Winter is here in earnest; and we would therefore urge the citizens of the different townships of the county to take steps at once to secure the families of those who have gone from their midst to aid in crushing the wicked rebellion, against want. Many poor persons have cases we commend to the consideration of the benevolent and patriotic. The wives and chil-

dren of such men should not be permitted to suffer, but all their necessities, in the way either of food or clothing, be constantly supplied .-This is a duty devolved upon those who remain at home. Let it be faithfully performed. Our granaries are stocked full of the fruits of a rich harvest. Plenty blessed the labor of the farmer. Abundance smiled from every quarter, and now before want seizes and pinches the families of the soldiers, we trust that our friends in the county will organize and make arrangements for doing that which covereth not only a multitude of sins, but exalteth a man and enno

THE CURRENCY -SCARCITY OF SMALL CHANGE. -The scarcity of small change is seriously felt by the business men and others in this community. The business man loses many a sale which he might otherwise make, if he could change a dollar note, and the mechanic and laborer would save many pennies if the usual quantity of ⁸mall change was still affoat, as he is often compelled to buy more and unnecessary articles in order to enable him to procure that which he actually needs. This state of facts is almost unendurable in a city with a regular thousand souls, and many expedients are now mand of his popular fighting brigade, General being tried to remedy the evil. Numerous Burns having been assigned to a division in checks for Five, Ten, and Twenty-five cents are in circulation, printed in a most unworkmanlike manner, purporting to be payable at the York Bank, city of Wilmington, Reading, &c., signed by various names, which of a necessity have a large circulation, and yet the receiver of this miserable printed paper is not aware whether the signer of the check is actually in existence or whether he is worth a single farthing to revolunteered, and many have been drafted, whose Others have adopted a plan of cutting a one deem the slip of paper circulating as money.dollar note into two pieces, and circulating them for fifty cents. All this kind of paper money ought to be discarded by the community, and we advise every business man to keep his goods rather than aid in circulating worthless paper. assist dishonest men to defraud the honest laborer and mechanic, and who will be compelled tokeep this worthiess trash eventually on hand. By the kindness of the President of the City

Council, W. O. Hickok, Esq., we have been permitted to examine the various designs intended for the new issues of small note currency about to be adopted by our city, and it gives us pleasure to announce to the public that they are to be gotten up in a most beautiful manner. But the action of Council last night, unless it is re-considered, will frustrate the design of ble work, and if they succeed, the smoky city thus facilitating business and accommodating will be relieved of a great nuisance. We allude those who have already suffered so much from to their efforts to rid that city of those dens of the inconvenience and the dearth of change. The cost of the engraving and printing of these notes would be a small item in comparison to the economy which the plan is designed to produce. An hour's experience in our public markets is sufficient to sustain the claimand if this would not suffice, the testimony of every man in the city would at once establish the fury of the flames, and baffled the efforts the fact that the present scarcity of change is of the firemen. would be much more safe in the old regiments.

Let me give you an instance: The Governor of this State, in his usual kind attention to the suffering soldiers in the late battles in Marg-land, had a list of all the sick and wounded taken and a return made to the Surgeon General. That list shows the fact, that one unfortunate new regiment of brave men were cut to pieces. The casualties in that regiment by wounding, were more than happened in three

MR EDITOR :- Your remarks in regard to the late order prohibiting the sale of articles in the camps, contained in this morning's Terr-GRAPH, are appropriate. Many of our citizens who are contributing liberally to the comforts of the sick and wounded among us, will look for some good reason why the poor women and children of this city, seeking to earn honest living by selling eatables, are forbidden to sell their articles in the camps. S. T.-1860-X. Intelligent persons and physicians can judge of the efficacy of the Plantation Bitters from the following partial formula.

CASCARILLA BARK Was known and used in Germany for Dyspepsia, Chronic Diarrhoea, Cholic, Dysentery, and diseases of the Stomach and Bowels, as early as

DANDELION,

For Inflammations of the Loins and Spicen in Dropsical Affections and Biliary Secretions. or Obstructions of the Abdominal Viscera.

CALISAYA, OR KING'S BARK, Was unknown to civilization until the middle of the 17th century. Humboldt makes favora-ble mention of the febrifuge qualities of this article as an Antido:e to Fever and Ague, Intermittent and Malarious Fevers, in his exten sive South American travels. The Countess wife of the Viceroy of Peru, having experience the beneficial effects of this Bark, sent it to Europe in 1640. It was sold by the Jesuita for the enormous sum of its own weight in silver, and was thus called Jesure' Powder. In 1658, Sir John Talbot employed it with great success in France, in the treatment of Fever and Ague, Dyspepsis, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhosa, &c., under the name of English Powders; and in 1679, he sold the secret of its origin to Louis XIV, by whom it was divulged. It is now a standard remedy in all Pharmacopoia, and is employed in preparing the Plantation Bitters.

Another ingredient of remarkable and won derful virtue used in the preparation of these Bitters, is a native of Brazil, and as yet un-known to the commerce of the world. A Spanish writer says:
