the whole of the loval United States. Canada, &c., and holds its deliberations in various parts of the country. The order is most flourishing, at and distressing disease, and at the same time present, in the States of Maine and Massachuguns made at the Fort Pitt Works in Pittsburg, pre-ent, in the States of Maine and Mussachu-and which some of our readers will remember to have seen described in the local columns of ration. At the time the passage of such a law quently to doctors of medicine, but they proved the TELEGRAPH, as they passed through this city in this State was agitated, the Sons of Temperance were flourishing here, but it has of state but barely "held its own."

The Order numbers in North America about 175,000 members in all.

During the year 1861 the sum of \$2.086 16 was paid into the Treasury of the National Division, and the total in the Treasury at the present time is something over \$600.

There are about 80 subordinate Divisions in operation in the State of Pennsylvania, the majority of which are located in Philadelphia. The eighteenth annual session of the National Division of the Order was held last June at Hamilton Canada West.

The Order numbers in this State, at present 3.679 members, and has in the Treasury, in cash on hand and moneys invested, about \$36.000.

In Massachusetts the total number is about 12,000, and in Maine. 9775.

CHAPLAINS .- We make no apology for allud ing to these important officers. Every hospital chaplain ought to know the spiritual condition of every patient who has been a week or more under his care. If we can but impress this

The Wash with the neglect of duty by most of the chaplains in the army and the hospitals, which is worth reproducing in the local columns of the TELEGRAPH. It is to this effect : A pious mother in New York, amid prayer

and tears, sent forth her darling boy to battle for his country. In the second battle of Bull Bun that boy received his death-wound. He was sent to one of our hospitals, where he lay lingering for a long time, with strong hopes of ecovery. But the fond mother at last received the sad intelligence that her boy was dying. She hastened from her distant home to his side. only to find that the dear boy breathed his Friends tendered their sympathies, but, alas! who can comfort in such an hour of deso solation. [Extract from a letter of the Battle Field.] a a a a a a

This battle (Antietam) has been the most sanguinary of the war, and the only one fought with visible design and upon military principles. The arrangement of our corps-the overlooking position of the commanding General-the sending into action of the right and the left division-the closing up of the centre, and final success—excites bewildering admiration, and carries the mind to the great fields of Austerlitz and Wagram, fought by Na oleon. Of all this have I spoken. The heart history of such a conflict, purchased by the life and blood of twenty th usand mer must be found in the hospitals. War has its glories-but it has its ten thousand demons in these human tortures, that make the eye alls ache-the heart bleed-the lips palsy, and the brain reel. The sight is at first positively unendurable. The life-blood of some is still trickling away in silent calmnesswhile the dissevered limbs and maniac brain of others give rise to sounds God grant I may not again witness.

ö

But ye mothers who here seek a son-or wives a husband-or sisters a brother-or sons a father-know and be consoled that even here the hand of mercy is watchful, and better care is bestowed upon your loved ones than might at first seem possible. It was in the hospital where rested the gallant Hooker, that I learned the history of those mythical words so often seen and so little understood, "S. T.—1860— X." Anything alleviating the sufferings and saving the lives of our soldiers, is a national blessing. I witnessed some astonishing results from this article

It is well known the effect of burnt gunpowder and excitement is thirst, which added to the of this Common wealth, as a day of soliem Prayer loss of blood in the wounded, creates the use and Thanksgiving to the Almighty :--Giving cessity of a reviving stimulant. I understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the

war, to which they made the following reply: NEW YORE, Jan. 16th, 1862. Mr.

Agent of, etc.: Dear Sir.-In reply to your communication, offering us "Fifty thousand dollars for the re-cipe and right to make the Plantation Bitters for your hospital purposes during the war,' we beg to say, your price is a liberal one, con-sidering it would cost us nothing to comply, tion, resp the abundant fruits of His mercy, and that otherwise we can derive no revenue from the Southern States ; but sir, our duties to our Government and our ideas of consistency would not allow us to entertain it, although it might please us to assuage the sufferings of your misguided followers.

We remain, Very respectfully yours, P. H. DRAKE & CO.

These gentleman give the history of certain ingredients to their article for over two hun dred years—showing that through all changes of the medical profession and its practitioners strength, composure and cheerfulness have been derived from these sources. Dr. Wood in the Washington Hospitals informed me that one patient was fast sinking and crazy, and had not slept an hour for two weeks, until the Plantation Bitters came to his knowledge when one day's trial gave him a night's rest and he was now fast recovering. I am sur prized our Government has not equalled Jeffer-son Davis in energy, and adopted this invalua-ble article in all our hospitals. The weak soldiers cling to it like a brother. As a lay member, I can bear witness it is "good to take," and affords more energy and life than anything I ever tried. Success to the Planta-'good t
