WE CHALLENGE THE WORLD, not only for the beauty of our ladies and bravery of our men, but we defy the competition of any other city of a like ability with Harrisburg, in the matter of the increase of population. LARGE RED BEETS .- Mrs. B. G. Peters received a few days since a barrel of the largest red beets that we have ever seen. They were raised by Mr. John G. Harner, near Marrietta, Lancaster county. The largest on the top in the barrel weighs eleven pounds, and the others are correspondingly large, the most of them averaging six pounds. The beets are perfectly solid, and of deepest red color. They are without doubt the largest ever exhibited in

ATTENDED DIVINE SERVICE.—Captain John F. Peck's company of drafted men attended divine service in a body in the United Brethren church, at Churchville, yesterday morning. They were in full uniform and presented a fine appearance. After service they were served with some refreshments by Mr. Hess, when they started on their way back to camp. The company was in charge of the Captain, John F. Peck, and First Lieutenant Jacob Mish, both of whom are from Swatara township. This was the first company of drafted men from Dauphin county taken

THE CAVALRYMEN AND THEIR HORSES .- We notice that several of the regiments of cavalry in comp in this vicinity have received their horses, and we notice also, that unless the city ordinance is enforced, some of the dashing cavalry officers will make a race course of the streets of Harrisburg. Yesterday about the time the different congregations were dismissed. and the street crossings were crowded with people, several of those brave cavaliers came dashing along Third street at regular Gilpin speed, rushing as if the rebels were behind them. This fast riding by the officers is emulated by the men. Since these cavalry regiments have received their horses, we have heard of several animals that have been seriously injured, and one horse was killed yesterday while being furiously ridden from camp

There is an order of the War Department against all such furious riding—and there is a city ordinance providing against the same offence. It is our duty to insist that both are enforced, and it is the sworn duty of the officers of the camps as well as the officers of the city. to see that this order and ordinance are not Washington city for less than a dollar. A HABBAS CORPUS CASE of considerable im portance to drafted men in the several counties of this State, is now pending before the President Judge of this Judicial District. The case has been postponed several times, and is to come up for a final hearing before his Honor to-morrow evening. It appears that the Commissioner of Lancaster county, under what he conceived to be his instructions, drafted a larger number of men than the ascertained quota of his county, the surplus to be substituted for any in the draft who might afterwards be exempted. One of the men thus substituted John Markley, was brought before the Judge on a writ of habeas corpus, and as the question will test the righ: of the Commissioner to draft more than the ascertained quota of his county, the decision of the court will be awaited with some interest. We understand that the decision will affect between three and four hundred men in Lancaster county alone.

THE REV. DR. LAGOOK, one of the three Episcopal clergymen arrested and sent north from New Orleans by Maj. Gen. Butler, preached two sold at 25 cents a large bottles. Two millions bottles admirable sermons yesterday in the Episcopal can easily be rold in a year when it is again known church in this city. The circumstances under which these gentlemen were arrested are as follows:—When Gen. Butler occupied New Orleans to avoid that offence of praying for the President of the Confederate States "on the one hand, and the necessity of the using the words President of the United States' on the other, they omitted entirely that part of the service of the church in which the prayer occurs, commencing morning prayer with the Litany. This plan was pursued for five months, when Gen. Butler demanded the use of the regular service, including of course the prayer for the President. Refusing to acknowledge military authority over Parochial affairs, the churches of these gentle men were closed, themselves arrested and sent north on parole. Our view of the case does not justify these clergymen in their course, for, having altered the service on the inadequate authority of a local convention, it should not have required military force to restore its use to the standard of the General Convention of the church, the only authority in the matter of alteration, and that which these gentlemen vowed solemnly to respect. Dr. Lacock's sermons yesterday were most eloquent and impressive. Any suspicion of the disloyalty of the preacher were satisfactorily removed by the distinctness and fervency in which his firm voice responded to the prayer above referred to, and to that invoking the Divine blessing on our soldiers who have gone forh at the call of our To insure the genuine, cut this out.

DEATH OF FRANK SCHOTT.—The death of this Dauphin county soldier, elicited the following tribute from the pen of another Dauphin county

His place is vacant here; His face no more we'll see, Until the sweetest melody Of angels we shall hear.

A SKETCH. - We knew John Lindsey in our boyhood days. His family at that time lived in McClaysburg, now State street in the city of Harrisburg. John was known throughout the neighborhood as a boy of strict integrity, and had the heat wishes of all who knew him! His mother, the only parent living, was poor, and supported herself and son by washing. Years fled on—the boy became a man and married. The same upright conduct that characterized the boy continued in his manhood, and to-day we find him surrounded by wealth and all the luxury that money can obtain; but better far to him than money, is the proud consciousness of having ministered to that mother's comfort and happiness in the evening of her life, and within the last three years his whole family have been purchasing their dry goods at the cheap store of Trich & n242t

LYON'S KATHAIRON

This delightful article for preserving and beautifying the human bair is again put up by the original proprie tor, and is now made with the same skill, care and atten tion, which first created its immense and unprecedent sales of over one million bottles annually. It is still that the Kathairon is not only the most delightful hair dressing in the world, but that it cleanses the scalp of scurl and dandruff, gives the hair a lively, rich luxuriant growth, and prevents it from turning gray. These are considerations worth knowing. The Kathaire has been tested for over twelve years, and is warrante as described. Any lady who values a beautiful head of hair will use the Kathairon. It is finely perfumed cheap and valuable. It is sold by all respectable dealers throughout the world.

[Extract from a letter on the Battle Field.] 0 0 0 0 0 0

This battle (Antietam) has been the most sanguinary of the war, and the only one fought with visible design and upon military principles. The arrangement of our corpsthe overlooking position of the commanding General—the sending into action of the right and the left division—the closing up of the entre, and final success-excites bewildering admiration, and carries the mind to the gres fields of Austerlitz and Wagram, fought by Na oleon: Of all this have I spoken. The heart history of such a conflict, purchased by the life and blood of twenty thousand men, must be found in the hospitals. War has its glories—but it has its ten thousand demons in these human tortures, that make the eye-balls ache—the heart bleed—the lips palsy, and the brain reel. The sight is at first posi-tively unendurable. The life-blood of some is still trickling away in silent calmness— while the dissevered limbs and maniac brain of

purely asthmatic character has it failed to give immediate relief, and it has effected many permanent cures. Within the past two years this remedy has been used in thousands of cases with astonishing and uniform success. It contains no poisonous or injurious properties whatever; seem and so iittle understood, "S. T.—1860—X." Anything alleviating the sufferings and so infant may take it with perfect safety. saving the lives of our soldiers, is a national blessing. I witnessed some astonishing results

from this article.

It is well known the effect of burnt gunpowder and excitement is thirst, which added to the loss of blood in the wounded, creates the necessity of a reviving stimulant. In this particular hospital, the physician were allowing their patients to drink Plantation Bitters, otherwise called S. T.-1860-X, and although the wounded are most numerous here—this division having opened the fight at 5 in the morning—the men were mostly composed, and there was very little fainting. The article acts

upon the stomach and nerves in a most incomprehensible manner, superior to brandy, and without subsequent stupefying reaction. It originated in the West Indies, composed of the celebrated Callsaya Bark, Roots, Herbs, &c.; all preserved in St. Croix Rum—the S. T.—1860—X being a secret ingredient, not yet revealed to the public. It is principally recommended for want of appetite, disordered iver, intermittent fevers, stomachic difficulties,

&c. I understand it was somewhat known in the Southern States previous to the war, and it appears an agent of Jefferson Davis recently applied to the proprietors for the privilege to make it for hospital purposes during the war, to which they made the following reply:

NEW YORK, Jan. 16th, 1862.
