The Twentieth District-A Serious Diffi culty.

A bill is now before the Legislature, for the purpose of separating Juniata county from the Ninth Judicial and attaching it to the Twentieth District. The controversy involved in this proposal, has elicited many, very many grave facts in justification of the change. One of the main reasons, as a matter of ecomony to session. But he is not only an honest and those interested, is the fact that Graham, President Judge of the Ninth District, resides in Carlisle, a locality remote from Mifflintown -so distant, in fact, as always to preclude the possibility of the Judge to arrive on the first day of each court week. The delays attending such failures have long been a source of vexatious embarrassment and heavy expense, throwing the county into great costs and compelling plaintiffs and defendants to incur an outlay which has in more than one case proven actually disastrous to the course of justice. If Juniata county were attached to the Twentieth Judicial District, all these expenditures delays and embarrassments would be avoided. Judge Woods, of the Twentieth District, lives at Lewistown, which is but twelve miles from Mifflintown-a vast difference between the distance from Carlisle.

While the people of Juniata county base their claims to a change in the Judicial district on considerations of economy and facility in the proceedings in their courts, they allege other and weighty reasons in justification of the change. All who are acquainted with Judge Graham know him to be a partizan of that he has issued a writ of habeas corpus in the most malignant stamp—a bitter, unrelenting and persistent adherent of the most debased school of copperheads—who has not hesitated to insult loyal men appearing before him for justice, and whose partizanism has been carried to such a distance, as to compel many of the citizens of Juniata county to incur | by his hard declarations against the monster, great loss, before they will trust the adjudication of their claims or the settlement of their rights to his judgment. This is certainly a woeful condition of affairs. There is nothing like it in the history of the judiciary of the the afinals of Porchard. The Union Mayor Commonwealth. It cries aloud not only for amelioration to the citizens of Juniata county, but it suggests that a Judge so forgetful of candidate in the city has been elected by an his honor and oath, should be forced to come down from the bench which he degrades-surrender the ermine which he has soiled, and take his place where he belongs, among the pot-house politicians of the party in whose fealty he thus sacrifices all that is dignified, pure and impartial.

-The whole subject is now before the Legislature. While it is being considered in that body, we have ventured thus to call public attention to the facts involved, not that we desire to interfere with what appears to be an entirely local difficulty, but that we might President's Autograph Copy of the Proclamawrite a word in favor of our suffering friends | tion of Freedom. There was a fitness about in Juniata county. So far as the principle this turn of the wheel which made everybody involved is concerned, it interests all men that | glad. the Judiciary should be preserved pure, and that our Judicial districts be so organized, geographically, as to meet the wants of all the people. We repeat, then, that we trust the change thus asked for will be speedily and Mayor, Aldermen, &c., all through. gracefully authorized by the Legislature.

Europe's Danger and Our Security. Latest advices from over the water represen a bitter conflict in progress in the British Parliament, upon the subject of the Danish and German war. There is a considerable party in England anxious for the British Government to take a hand in the continental strife, by affording material aid to Denmark. The leader of this party is the brilliant and headstrong D'Israeli, who in a recent speech in Parliament accused the British Government of timidity, if not of a dishonorable backwardness in coming to the rescue of the hardpressed Danes. The latter have unquestion. ably relied upon assistance from England, in entering an unequal contest with powers so vastly their superior as Prussia and Austria. and beyond question a majority of the English people feel inclined to come to their help. A strong bond of affection has recently been established between Denmark and England, by the marriage of England's prospective King, the Prince of Wales, with a Danish. Princess.

With a strong influence for intervention from that quarter, backed up by a popular enfrom that quarter, backed up by a popular en-have thus become an almost insuperable thusiasm, and a natural sympathy for the hindrance in the way of a board of controlweaker power in a conflict, it may prove a very difficult matter for the British Government to prevent drifting into the breakers of war. There is no government in the world, they can to keep down the common schools. save that of the United States, which is so inasmuch as the proper development of these farmished the Housewas very maccurate. The much controlled by nonular impulse, as that would soon render their own establishments resolution was agreed to and the Clerk was of Great Britian, and should the war flood, which is manifestly rising, come to the full tide, Queen, Ministers and all must give way before its billows.

There are indications to which the American public cannot be insensible. Under ordinary circumstances a war in Europe would be to us a matter of indifference, save as it affected the demand for the save as it who oppose the proper carrying out of the affected the demand for the products of our law. soil, and appealed to our feelings of humanity. It would be prinicially a question of dollars and cents with us. Now, it is vastly more of the taxes for such a purpose? Surely, not than that. Many of our citizens are Affairs must be looked upon as a God-send.

Nothing will prove so discouraging to the more intelligent Confederates, as the prospect from fifty to one hundred dollars to male and female private schools. press, in professing contempt for the dilatoriness of France and England in recognizing their rebel government, the dream of recognition has been one of the strongest stimulants to the Southern leaders. Indifference upon the subject would naturally be feigned to keep up the spirit of the masses, but the eaders are sharp enough to understand perfeetly the advantage such recognition would give them. Nor have our qwn rulers been blind to the fact. The Trent affair and the whole drift of Mr. Seward's policy has been shaped with a view to this aspect of the case. As the cloud thickens over Europe the sky grows clearer over America.

Personal and Political

In reference to one of the Philadelphia del egation in the House, the Germantown Tele graph says: When we saw that Mr. John D. Warson had been chosen to the Legislature from one of the city districts, there was not the least doubt upon our mind, knowing his integrity and honesty of purpose, that he would make a valuable member. This fact was demonstrated the first few weeks of the hard-working man, he is a ready and an eloqent debater, as is acknowledged by those most capable to judge. His speech on the of Common Schools, in trust for high school Raid Indemnity Bill, is characterized as one of candor, eloquence and power, and the ablest effort made in the House this session.

JOHN M. MURPHY, a former resident of Dalles, Oregon, recently eloped from Boise river with a Miss Cunningham, who is said, by a California paper, to be a daughter of Mrs. Cunningham, of "Burdell murder" notoriety. The Detroit Tribune, of Friday, says that Vallandigham left Windsor, opposite that city, a few days since, for the East, in company with a squad of runaways and deserters. For the Telegraph. Our Common Schools .-- No. 4.

In our remarks thus far we have taken it for granted that the establishment of one male and one female high school for the whole city, as is contemplated by the law, is an end pre-eminently desirable. We have long and anxiously wished to see it accomplished but thus far we have been sadly disappointed. And why has it not been done?
First, as we have already seen, the directors

of the two school districts have not cordially co-operated in this matter according to the spirit and intent of the law:
Secondly, many excellent citizens, seeing

that nothing was being done to furnish our community with suitable free schools for the older children, have felt themselves com-pelled to patronize private schools, which

Fourthly, it is feared that the formation of schools of a higher grade would largely increase the common schools at the These are among the reasons that have doubtless prevented our enjoying the full benefits of the common school law in our community. A few words in regard to the last and most important of them; if not the most im-

They say such schools would largely increase the tax. Suppose that were true

additional expense, than perhaps a slight in- tion of Senate bill providing for amendments

crease of their present school tax?

And should any of the poor object to it?

For, even if their taxes should be somewhat increased, their outlay would be a mere trifle compared with the largely increased advantages resulting from such an arrangement.

The only class in the community upon which such an increase, if necessary, would seem to rest heavily, are the rich, who have no longer any children to be educated, and who already complain that they ought not to who already compliant that they ought not to be taxed to educate other people's children! We cannot stop now to argue this point at length, but would be glad, Mr. Editor, if your pa-tionee holds out with us, to have an opportunity of showing that even the rich, yes, es pecially the rich, are benefitted by the eleva-tion of the masses in intelligence, and that no part of their perhaps enormous revenues is better expended than that which the law compels them to devote to the education of the common people, upon whom they rest, and BY WHOM THEY ARE PROTECTED IN THE POSSESSION AND USE OF THEIR PROPERTY!

But there need be no additional expense, or very little. For we, as a city, are just now so fortunately situated as to be able to avail ourselves of existing means and facilities, that will enable us to attain the desired result in a way that will oppress no one and yet largely benefit the entire community.

Let the people of the city request the trus tees of the Harrisburg Academy to fransfer their valuable property on the corner of Front and South streets, to the Board of Controllers purposes, and the thing is done!

Those Trustees have entire control of that

property; and the law provides for just such lisposition of it as we here indicate See act of the 11th of April, 1862, section sixteen, as follows: "That the trustees of any academy, or seminary, in this Commonwealth, which received money or land therefrom, for educational purposes, are hereby authorized and empowered to convey by deed of not less than two-thirds of their number, to be approved by the court of common pleas of the proper county, all the real estate, buildings and property and funds of, or belonging thereto, to the board of directors and their successors in office, of the common schools of the district in which the main building common school education therein, and for no other purpose, " to Now the present Trustees of the Harrisburg

Academy are gentlemen whose well estab-lished character will not suffer us for a nioment to doubt that they will at once pursue the plan we have suggested, so soon as they are convinced that by so doing they would best promote the public welfare. Something more about this Academ in our
