PROPOSALS for furnishing the Government with 250 tons of hay, at this post, will be re. ceived at the office of the Quartermaster of Department of the Susquehanna, until 12 o'clock on Saturday next.

Proposals will be addressed to Captain E. C. Reichenbach, Assistent Quartermaster Vols., Harrisburg, Pa., and will be endorsed, "Proposals to furnish Hay."

DISEASE IN CAMP.—It is rumored that small pox and spotted fever prevails to a consider-able extent in Camp Curtin, and that nu-merous deaths have occurred recently.—Tory

- We had determined to pass the above attempt to create a panic in this city at the expense of the recruiting service and the interest of our business men, with the contempt which it deserves, but on the solicitation of several respectable physicians and merchants we are induced to notice this fabrication. The Sanitary condition of Camp Curtin, at anied with the CASH. in Sanitary condition of Camp Curtin, at advertisements ordered in the regular no time since its organization, was never so favorable as the present. Not a single case of spotted fever has occurred there or in the city-hence the falsity of the statement quoted above. As we have already written, there is only one explanation for this faleshood put in circulation by the Tory Organ. The object is to arrest the enthusiasm with which men

are now volunteering. If the impression can be created over the State, that Camp Curtin is infected with fatal disease, men will not volunteer, because they know they must rendezvous at this camp before entering the army in the field. The wickedness of this falsehood is increased, when it is known that in proportion as the volunteer system is damaged so is the business of Harrisburg impaired. It is frightful to think, therefore, that the political prejudices and passions of men will impel them to the coinage and circulation of falsehoods so base and groundless.

THE LADY MANAGER of the Woman's Branch of the U.S. Sanitary Commission, for Dauphin county, Mrs. David Eyster, requests us to state that all articles designed as contributions from the people of this county to the Fair shortly to be held in Phiadelphia, must be marked with the donor's name, their value in money, and the county from which they come-so that the combined amount of the contributions from each county can be ascertained and published. The freight upon all such articles will be paid by the Commission as soon as received at No. 1307, Chestnut street, Philadelphia.

All donations to the Restaurant Department please direct thus: "For George C. Lewis, Restaurant Dep., care of A. R. M'Henry, Reception Committee of the Great Central Fair, Philadelphia, Pa."

All contributions to the Fair, (from Harrisburg,) if not sent directly to Philadelphia, should be sent to the residence of Judge Dock, Market street, where they will be packed and forwarded by a Committee of ladies appointed for that purpose.

It is the desire of both Mrs. Eyster and her associates of the Woman's Branch of the Sanitary Commission, to render the contributions of Dauphin county worthy the patriotism and the wealth of its citizens, and in order to accomplish this object they invoke the generous aid of all. The rich cannot give too much, while there are none too poor to be deprived of giving something.

MIDDLETOWN ELECTION. - We are had some a that there was no contest on election day, at Middletown. The two parties formed 'mixed tickets" in the different wards, and they were elected without opposition.

THERE is no foundation for the rumor that spotted fever had appeared at Camp Curtin. The report must have originated in the brain of those vile Copperheads who are continually seeking to damage the reputation of the Government and everything connected with it. -----

Our Common Shoots,---No. 9.

From the course of our remarks upon this subject thus far, we might seem to have implied that there was some necessary connection existing between the common schools of our city and the Academy. By all means there should be; unfortunately, there is not. Nor, unless there be a radical change in the administration of our educational affairs, both in the Academy and in the Board of Controllers, can there ever be such a connection be-tween these institutions as is manifestly contemplated by the law. We have been en-deavoring to point out where the errors lie, and the mode of correcting them. But what can a single voice avail in the face of old established usages and an apathy almost Le-thean? Ah, we take that back; it is not the single voice, alone-it is the voice and the

truth. Magna est veritas, el prevaleleil. Hear some testimonies in regard to the success of the carefully graded system, such as we have been ad-vocating. When Mr. Coburn was informed that it was openly alleged among us that this system, and especially the higher grades of it, had elsewhere proved a failure, he addressed some questions upon the subject to some of the leading educators in the States where it had been most thoroughly tested. Here is his answer from Henry Barnard, for many years at the head of the Public School Depart-ment in Connecticut, and at present the editor of the American Educator, and perhaps the highest authority in the country in matters of

this kind: "HARTFORD, Conn., 9th Feb., '64. Dear Sir:-1. It has been, now for nearly thirty years, a cardinal feature of my educaplans and labors, to establish a system tiona of graded schools in every village and district where there were children enough to have two teachers.

2. I do not know, or cannot recall, a single instance where parents, or the public, have gone back to the unclassified district schools, or to the "miscellaneous" condition of a pub-lic and private school, where they have had any experience of a graded public system. 3. The best state of education in this State,

and every other of which I have any knowl-edge, is in the towns and cities where the public schools are graded.

Yours truly, HENRY BARNARD."

The following is from the present efficient and widely known superintendent of com-mon schools of the same State:

OFFICE OF SUPERINTENDENT OF COMMON SCHOOLS. STATE OF CONNECTICUT.

NEW BRITAIN, Feb. 8, 1864. HON. C. R. COBUEN:-Dear Sir: Your letter of the 4th inst., is just received. I take pleasure in sending to you by to-day's mail our reports for 1860, 1861, 1862-and 1863. I sup-

reports for 1860, 1861, 1862 and 1863. I sup-pose that they had been forwarded each year. With regard to graded-schools in this State, the results are precisely opposite to what you have stated has been said to you. Fifteen years ago there were few or no thoroughly graded schools in this State. There are now nearly two hundred in the meiowith of which nearly two hundred, in the majority of which higher English branches and the Latin langrage is taught, and in some of them Greek, French: and German. Graded schools in Connecticut have been eminently successful, and I cannot now recall a single, instance of failure on account of the system. DR. WISHART'S PINE TREE TAR CORDIAL IS THE VITAL PRINCIPLE OF THE PINE TREE,

Obtained by a peculiar process in the distillation of the tar, by which its highest med-

tillation of the tar, by which its highest med-ical properties are retained. Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal disease, Consumption? Those who should be warned by these symptoms generally think -lightly of them until it is too late, From this fact, perhaps more than any other, arises the sad preva-lance and fatality of disease which sweeps to the grave at least "one-sixth" of death's victims. victims.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the the whole medical world has been impressed that there was a mysterious power and effi-ciency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine the medical pro-perties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of "Wishart's Pine Tree Tar Cor-dial."

Many, not only of the people, but physi-cians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of *Pulmonary Consumptian*?" My answer is this:

The invigoration of the digestive-organs-the strengthening of the debilitated system-the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cor-Cordial is the only safe and re-liable, remedy which has, ever been prepared from the juices of the pine tree." with Nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure. I ask all to read the following certificates. They are from men and women of unques-tionable worth and reputation:

My disease baffled the power of all medicines, and in a short time I must have gone to my grave, but thank God, my daughter-in-law would not rest until she went to your store, No. 10 N. Second street, and related my case to you, purchased one bothe of your Pine Tree Tar Cordial and I commenced to use it, and in one week I was much better, and after using three bottles I much better, and after using three bottles I am perfectly well, and a wonder to all my friends, for they all pronounced me past cure.
