

Daily Telegraph

HARRISBURG, PA.

FRIDAY EVENING, MARCH 25, 1884.

NOTICE TO ADVERTISERS.—All Advertisements, Business Notices, Marriages, Deaths, &c., to secure insertion in the TELEGRAPH, must invariably be accompanied with the CASH.

Advertisements ordered in the regular Evening Edition are inserted in the Morning Edition without extra charge.

CITY ITEMS.

TAKE NOTICE.—Committees and persons who have in charge the filling of quotas for sub-districts can obtain the most reliable assistance, at moderate rates, at the law office of **EUGENE SNYDER,** near the Provost Marshal's Office, Harrisburg, Pa. mar17-2w

BANNATT'S Bronchial Troches for hoarseness and throat diseases, for sale at Dr. Miles' Drug store, corner Third and North streets, and Dr. Wm. H. Eggle's Drug store, Ridge Avenue. jaz30-df

The celebrated crystal spectacles properly adjusted to the eye; microscopes from 100 to 700 diameter; lower telescopes, field glasses, defining an object from five to ten miles, and all kinds of optical, mathematical and philosophical instruments at Rosendale's Optical Institute, 8 Market Square. Artificial eyes inserted. Send for a circular! jan8df

TOWN AND COUNTRY.

WANTED IMMEDIATELY.—Four Good Compositors. The highest wages paid.

WANTED.—A gentleman and wife desire boarding in a private family, where there are no other boarders. A house kept by a widow lady preferred. Apply at THIS OFFICE. mar24-df

What is wrong with the "town clock"? It has been about two hours too fast to-day.

For want of room, we are compelled to omit a variety of interesting reading matter to-day.

A child of John Lawall, of Butler, Pa., was accidentally burned to death in its father's house on Sunday evening.

To-day is Good Friday. The Catholic and Episcopal Churches held their usual services suitable to the day, this forenoon.

SPRINTZING.—Mr. W. D. Wharton, of Philadelphia, will lecture in Exchange Hall, Sunday, 27th inst., at 10 1/2 o'clock, a. m., and 7 p. m. mar25-df

Several soldiers, seated in a hack, drove down Market street, at a furious rate, last evening. They ought to have been "stopped in their mad career."

A bogus lieutenant named Wood, was arrested yesterday, by direction of Capt. Opdyke, and the shoulder straps removed. Served him right. Are there any other bogus officers loafing around our hotels?

LECTURE ON THE INCIDENTS OF THE THREE DAYS' FIGHT AT GETTYSBURG.—We notice that the hall of the House of Representatives has been tendered to Rev. John R. Warner, for the delivery of his now famous lecture upon the incidents of the three days' battle around Gettysburg. From all accounts, this lecture will prove very instructive and entertaining, and what is rare in such cases, there will be no charge for admission.

ROBBERY.—Last night one of the thieving fraternity entered the cedar ware shop of F. Trace, on Second street, and went up stairs, where he robbed one of the workmen of a pocket book containing about ten dollars. The entrance was effected by means of nippers, as the key bears marks of the instrument used. The gentleman who was robbed, had, fortunately, taken fifty dollars from his pocket-book yesterday. He changed a bill for some one, and believes that the thief was present and saw his money—hence the robbery.

THE UNION SABBATH SCHOOL, for colored persons, will be held at the Masonic Hall, in Tanner's alley, every Sabbath, commencing at 1 1/2 o'clock and closing at 3 o'clock in the afternoon. Adults, men and women, are invited to attend the school, arrangements being made for their exercises and instructions adapted to them. Also, at the same place, from 3 o'clock to 5 o'clock in the afternoon of every Sabbath, instruction will be given to such adults, especially to those desirous of learning to read.

LOOK OUT FOR FIRES.—The latter part of March and the beginning of April is the season most prolific of fires. The action of the sun and the winds upon the roofs of buildings render them as inflammable as tinder; and consequently the utmost care is necessary to prevent the destruction of property by fire. Persons should be very careful of the manner in which they make fires in their houses. The too free use of light wood may prove a calamity. Imperfect flues should be remedied, and the practice of running stove-pipes through ceilings, and even out of the roof, should be avoided. It will be well to look to this matter.

THE OLDEST ARMY CONTRACTOR IN THE COUNTRY.—John Noble, the present contractor for furnishing Carlisle barracks with beef, may be regarded as the oldest army contractor in the country, or as coming from a family of men who have filled contracts with the Government for many years. The father of Mr. Noble supplied Carlisle barracks with beef as early as 1811—and was the contractor for making up that portion of the commissary stores for the troops which went to the aid of the army then operating on the Canada border. John Noble succeeded his father, and is now, as we have mentioned, the beef contractor of the barracks. These facts indicate that the Noble family have been faithful in their dealings with the Government, or they would not thus long have remained in its employ.

PIANOS.—Read Prof. Knoche's advertisement in another column.

HITCHCOCK'S NATIONAL HALL, on Second street, will open on Monday evening, with a first-class company. This hall, which is entirely new, is fitted up with magnificent scenery. No doubt this new place of amusement will attract large crowds. See advertisement.

A SPLENDID OPENING FOR VETERAN VOLUNTEERS.—We direct attention to general orders No. 20, issued from the headquarters of the Department of the Susquehanna, as offering superior inducements to veteran volunteers to enter the "First Battalion Three Years' Pennsylvania Volunteers." It is an arm of the service affording rare opportunities for men who seek distinction and promotion.

"TAKE A CARE?"—Owing to the popularity of that very beautiful, interesting and instructive play, *The Factory Girl*, the management of Rouse's Star Combination Troupe have concluded to repeat it once more, this season. This evening it will be presented to our citizens for the last time. Miss Fanny Denham will appear as Martha Gibbs; Mr. Jennings as Stephen Plum; Mr. Rouse as Toby Twinkle, &c. It is unnecessary for us to say anything in recommendation of the Star Troupe, as it recommends itself. Do not fail to go to Brant's Hall to-night. The season may soon close, and you will regret missing a rich treat.

SANFORD'S OPERA HOUSE.—Notwithstanding the great success Sanford is meeting with, he stops at nothing, but is continually producing novelties. To-night another new member appears, and to-morrow (Saturday) the great show pantomime of *Mother Goose*, which will surpass anything ever gotten up in this city. Monday night Mr. Fredericks, a gentleman of this city, appears in several of his songs, &c. This combination of Sanford will certainly meet with great success. He is determined that as his place is the pioneer of amusements, it shall be the head and front in attraction.

CLOSING SERMON.—The *Middletown Journal* says: Rev. D. A. L. Laverty, pastor of the Bethel Church of this place, will preach his farewell sermon on next Sunday evening. He has been connected with this church, as its pastor, for three years, during which time he labored zealously and faithfully in the ministry, and was instrumental in leading many souls to Christ. He is a warm, extemporaneous speaker, possessed of many winning virtues, and has made hosts of friends in this place. He has been appointed to take charge of the Bethel congregation at Harrisburg, where he will no doubt soon become as popular and as highly esteemed as he is here.

ARTIST GOSPEL.—Madame Elena D'Angri, who sings here next week, at Gottschalk's concert, has amassed a fortune of \$150,000, in an operative career of twenty years. She has another fortune yet in her throat. Gottschalk himself must be now very wealthy. He has given in America at least ten thousand concerts, and cannot have made less than \$50,000. Besides this, he has been very fortunate in Wall street, between which and Descombes, he alternates his time while in New York.

His marriage with that beautiful and rich heiress in the Fifth Avenue, which we announced a short time ago, has, we learn, been indefinitely postponed. Gottschalk is too shy; he has been frightened by the premature announcement, and fears that the world will accuse him of marrying for money. He would thus nobly sacrifice his feelings, rather than the world should misjudge them.

ARREST OF "BOUNTY JUMPERS."—Quite a stir has been created in certain circles, by the arrest of a party of bounty jumpers—or, in other words, men who enlisted apparently to serve their country, while their only object was to obtain the bounty money and then desert. The following persons have been taken in charge by the military authorities here, and will be properly dealt with, viz:

John Smith, of New York; John Billings, Philadelphia; James Chute, New Jersey; Wm. Green, New Jersey; James Sloan, New York; Joseph King, Pennsylvania; John Cass, Philadelphia; Charles Wiley, New Jersey; James Wiley, Philadelphia; Alex. Gildersleve, Philadelphia; Henry Keller, Pennsylvania; Alex. M'Shokey, Philadelphia; Richard Brown, Philadelphia; Thomas Woodruff, Philadelphia.

The manner in which these men operate, is to enlist, be mustered in, uniformed, and receive the government and local bounties; then at the first opportunity throw off the uniform and skedaddle, for the purpose of repeating the game elsewhere. It is hoped that they may all receive their just deserts.

GOTTSCHALK'S CONCERTS.—It is hardly necessary to remind our lovers of music that this great American pianist will give two concerts, on Monday and Wednesday evenings next, at the Court House. He is the genius of the piano, one of the very small number of those who possess all the divers elements which confer on the professor the sovereignty of that instrument; and we sincerely express the opinion given by Fiorintino, one of the most renowned French critics, that "after Gottschalk nothing remained to be desired." His compositions have a great charm in their high and positive originality. Every concert given by him to crowded houses only seems to enhance the value of his performances, and serves to kindle anew the enthusiasm of the dilettanti for his brilliant and inimitable entertainments. There has never been in this country a better sustained reputation than that of Mr. Gottschalk, as the master of the piano-forte; and yet it has been made by no pompous announcements, or well puffed charlatanism of any sort whatever. Mr. Gottschalk will be assisted on both nights by the great contralto, Madame D'Angri, and the highly successful and young violinist, Carlo Patti. The sale of reserved seats commences this morning, at Knoche's music store, and we expect to see the house as full as at his last concerts.

Deficiency of our Fire Department—Its Wants.

Mr. Editor.—It is very important for the protection of our property, that we should have a well organized and efficient fire department, fully supplied with the best apparatus that modern improvements have furnished. One of these is the steam fire-engine. It is true we have one already located in this city, (Friendship,) which rendered great and most efficient service at the late fire. During the conflagration it was fully manifested that the former glory of the hand engine is played out. Human muscle cannot compete with that mighty agent, steam, and that the usefulness and efficiency of the old hand engine are reduced far below the modern improvement, and our immediate urgent necessities.

The fact is well known by you, Mr. Editor, as well as by every other citizen, that the working firemen in this city are generally men who own no property. They were once ready and willing, nevertheless, to exert their work-shops at any hour in the day or night, cheerfully yielding up their time, and to endanger if not to sacrifice their health for the sole purpose of saving or rescuing from danger the property of their fellow-citizens from the devouring element, and this, too, without the "expectation of fee or hope of reward." But since the introduction of the steam engine, that class of men will not man the brakes of the hand engine, as they formerly did. They say let the citizens who own the property procure steamers in this city, as is done elsewhere. There is no longer any necessity for us to pull and tug at the brakes, and to become, as is generally the case, unfitted for work for several days after wards. This fact was fully demonstrated at the late fire in Strawberry alley, when the bleeding and intercessions of our citizens and officers of the several fire companies to the by-standers at that fire, the hand engines could not be sufficiently manned to render them as effective as they should have been, although there were great numbers of able bodied men there present. I am credibly informed that a committee from the Hope fire company No. 2, is now in Philadelphia with the view of purchasing a first class steam engine for this city. I am also informed that petitions are in circulation and being rapidly signed by our leading citizens, asking our Common Council to make an appropriation of money to cover the cost, or if not in funds, to issue city bonds for the amount required. I am satisfied that his Honor the Mayor, would once approve of such an undertaking. The immediate, united and energetic efforts to meet such emergency. None of us know or can tell how soon the torch of the incendiary may be applied to our own or neighbor's property; and therefore the necessity for immediate action. I do not believe that it is expedient to raise the money to pay for the steamer by rate subscription. Although I have no doubt that it could be done, as many of our citizens are proverbial for their liberality for all worthy projects, and this is certainly such an one, none more so. By an appropriation of the necessary sum by the City Council this money will come out of the City Treasury, and thus each property holder will pay his just and equal proportion of this absolutely necessary expenditure.

I am (as you, Mr. Editor, well know) a pretty large tax payer, and go in, earnestly, anxiously go in, for the purchase of at least one more steam fire engine, as being absolutely indispensable for the protection of our property, if not the lives of our citizens. I believe all unnecessary delay or procrastination on this subject to be unwise. Delays, it is said, are always dangerous, and we can only can they be more so in this case. It is sufficient to say that the apparatus to meet the recurrence of the repeated incendiary fires with which we have been so recently scourged. Whilst we are hesitating about the propriety of acting, discussing its cost, &c., the incendiary torch may be applied, and in half an hour or an hour property may be consumed to the extent in value of at least ten thousand dollars of the cost of an efficient steam engine, which loss might, to a great extent, have been guarded against and prevented by timely, necessary and prudent action. Who that witnessed the late fire in Strawberry alley will deny, that if the night had been windy, property to a very large amount would have been destroyed? Calm, as the night fortunately happened to be, all unbiased, impartial men will admit, that a much greater destruction of property would have ensued but for the efficient setting of the only steam fire engine within the limits of the city.

Another reason why the steamer should at once be procured may be also properly referred to. That is the well known fact that a very large proportion of our gallant firemen are now serving under the flag of the Union, and consequently unable to render to us their efficient services. They have hitherto so cheerfully done. At this time, owing to the cause just mentioned, many of the companies have not the men necessary to work their hand engines. And that their places cannot be supplied when the danger is present, was most abundantly manifested at the last incendiary conflagration. Let all of us, fellow citizens, be warned in time. **TAX PAYER.** MARCH 21, 1884.

SELF-RESPECT.—The above text offers a fruitful field to sow and garner a large harvest in the economy of man's happiness and well being. Its force and influence is as patent, and will apply as well in the most humble walks of life as in the country halls of untold grandeur. A truthful adviser to the married, and those contemplating marriage, who entertain doubts of their physical condition. Sent free of postage to any address, on receipt of 15 cents in stamps or postal currency, by addressing Dr. LA CROIX, No. 31 Maiden Lane, Albany, N. Y. mar1-dw

MEDICAL.

DR. WISHART'S PINE TREE TAR CORDIAL

IS THE VITAL PRINCIPLE OF THE PINE TREE. Obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained.

Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal disease, Consumption? Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least "one-sixth" of death's victims.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine the medicinal properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of "Wishart's Pine Tree Tar Cordial."

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Pulmonary Consumption?" My answer is this:

The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alkaline (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

I ask all to read the following certificates. They are from men and women of unquestionable worth and reputation:

Dr. WISHART.—Dear Sir:—I had a very dreadful cough and sore throat for one year, and my whole system was fast giving way; and I was prostrated on my bed with but little hope of recovering. My disease baffled the power of all medicines, and in a short time I must have gone to my grave, but thank God, my daughter-in-law would not rest until she went to your store, No. 10 N. Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial and I commenced to use it, and in one week I was much better, and after using three bottles I am perfectly well, and I would like to tell all my friends, for they all pronounced me past cure. Publish my case if you think proper. REBECCA HAMILTON, No. 1321 Wylie street, Philadelphia.

Dr. Wishart's Pine Tree Tar Cordial is an infallible cure for Bronchitis, Bleeding of the Lungs, Sore Throat and Breast, Inflammation of the L
