Daily Telearaph THE PEOPLE'S CHOICE FOR PRESIDENT, ABRAHAM LINCOLN.

HARRISBURG, PA. TUESDAY EVENING, APRIL 5, 1864.

Union State Central Committee. The members of the Union State Central Committee are requested to assemble at the Jones House, in the city of Harrisburg, on WEDNESDAY, the 6th day of April next, at 8 o'clock, P. M. Punctual attendance is requested.

WAYNE M'VEAGH, Chairman. GEO. W. HAMERSLY, | Secretaries. W. W. HAYS, March 31, 1864.

Removal of the State Capital.

Our city cotemporaries, that is our metropolitan cotemporaries on the Delaware river, continue to harp on the removal of the State Capital to Philadelphia. They have for awhile forgotten or given up the scheme of securing the location of the proposed new navy yard at League Island. They pass over the bugabo in the shape of a mammoth city railroad, which has of late been disturbing the dreams of their speculators, while the "waiter girl' question is entirely lost sight of, in the feverish anxiety with which the Capital removal enterprise is discussed. In alluding to the removal one of these cotemporaries gravely remarks, that the advantages of having the Legislature hold its sessions in the midst of a population such as gives energy and success to the business of Philadelphia, are great and paramount. We do not profess to be able entirely to comprehend these advantages, and yet there is a record of what "the population." of which our cotemporary so vainly boasts, has heretofore done. By means of this same "population of Philadelphia," the "buck-shot war" was provoked. At that time, the bullies and the blackguards who can always be readily organized in the purlieus, the thieves' dens and the gambling hells of Philadelphia, were precipitated on the Legislature, at a hundred miles distant from that city, with a fearfulness which many of the people of Harrisburg still remember. This "population" had the influence to provoke what was called the "Buck-shot War." Many times since then, the same "population" has exercised its fell influence on the course of legislation, but at no time more villainously than when a U. S. Senator was elected a year ago. Charles R. Buckalew owes his election to the U. S. Senate, alone upon the force of a Philadelphia mob, led by such scamps and rowdies as Bill McMullen. This mob came to Harrisburg with the avowed purpose of coeroing the Legislature. It was organized in Philadelphia to defeat Gen. Cameron. It was hired and paid to force legislators to vote for Charles R. Buckalew. And yet, in the face of these historical facts, we are told that it would be an advantage to locate the Capital of Pennsylvania in the midst of the same mobs, where the bully and the cut-throat could be used at any time to coerce legislation, and at a moment's warning, precipitated on the Legislature, as the interests or the ambition of the money greeds and the corrupt politicians of Philadelphia might dictate. Would our friends in the rural districts trust themselves, while legislating for the interests of the whole State, to the hospitalities of such a "population ?" New York Speculations. When the war was precipitated the first object which attracted the attention of what are called the "moneyed men of New York," was that embraced in a scheme of what could be made out of the war. "Was there any money in the damn thing ?" was a question which passed from lip to lip on 'Change and in the market of New York. Seeing that the first article which would naturally feel the "war pressure," was cotton goods, a New York. merchant busied himself patriotically in buying up and warehousing all the cotton goods in the Northern market, until he had filled many buildings with his collection, As soon as he had the market at his command, cotton goods began to rise in price, going up until muslin which had sold at 10@12c. per yard, readily brought 25@40. Of course this was right in the estimation of the speculating money greed who thus took advantage of the necessities of the people. Now we hear that another grand scheme is in preparation in the same city, by which the people are again to be robbed. All the tea is being "gobbled up," with a view to speculation. Already \$2,000,-000 worth has been purchased by the combination. A similar speculation is going on in | not exceeding thirty cents per copy. coffee, so that in the course of a few weeks the lovers of these beverages will suddenly discover that the price is up, doubled, to put money into the pockets of a few merchant princes in New York. If any complaints are made the people will be told by the Copperhead press that the high prices for these necessaries for living must be attributed to the mismanage-ment of the Government, while the men who engage in these plunderings will ease their consciences by purchasing and presenting brown-stone palaces to such heroes as George B. M'Clellan. TAE ATLANTIC TELEGRAPH CABLE is to be laid in the summer of 1865, by Messrs. Glass, Elliott & Co., whose proposition has been accepted by the company. It is largely estimated that the net revenue, when completed, will be annually £432,000 19s. and 111d.; or in the neighborhood of that sum. It has not been announced yet that "De Santy" is to report the transmission of the first message, and let the world know with what clock-like regularity it will and wont work.

KENTUCKY will have the benefit of Gen. Burnside's supervision in the enrollment of negroes, he having been appointed to that eminently important position, nor do we know one better qualified to discharge its duties. All who remember the effect of Order 38, and the firmness with which its provisions were carried out, will be satisfied that the law requiring the enrollment of negroes in Kentucky, will be faithfully and rigidly executed. This appointment is conclusive of that. it is the intention that the enlistment of

negroes shall go on, no matter what may be the consequences, or how many objections may be raised by those who do not wish to defend their own fields and firesids, but have not the slightest objection that they shall be defended, so that they and their human chattels are not called upon to participate in the effort-who would see the the Constitution trampled under foot, and every column of the once proud edifice crumbling in ruins, provided the privileges of the master are not interfered with, but protected intact and in full force.

ABOLITION IN BRAZIL -A Senator, Silvierra de Motta, has proposed in the Brazilian Senate, that "no foreigner residing in Brazil should be allowed to hold slaves, and those actually holding them should be obliged to sell them within a certain time." Also, that the convents and other monastic institutions should be obliged to sell their landed properties and slaves. It is becoming every day more evident that slavery is doomed in Brazil, and that ere long some measure will be taken, having for its ultimate object the entire suppression of the system. The present is the Era of Emancipation.

STEBBINS, Democratic member of the Comnittee on Ways and Means, favors large duties on foreign imports, even almost to prohibi tion, and an Internal Tax equal to all the demands of the Treasury for civil expenses, and interest on the public debt.

A copperhead paper in Ashland, Ohio, in order to mar the prospects of the Sanitary Fair, in Cleveland, an enterprise gotten up to aid the gallant defenders of their country, originated a report that there were over 1,300 cases of small pox in Cleveland. Such infamy is characteristic of copperheads, but otherwise unparalleled.

Connecticut.

The election, yesterday, in Connecticut, says the Tribune, was all on one side. There has been no so sweeping triumph for any party in that State for thirty years. The Copperheads tried the "still-hunt" dodge: but it was of no use. The people had made up their minds that the rebellion must be put down, and they voted as they thought would clearly indicate that determination. That is the whole story. There was good work on the right side, but not nearly so much of it as in 1860, when the Republicans carried the State by 1,000 majority, or last year, when the other Seymour was beaten by 2,599. Now, the Union majority on State ticket is probably something over 8,000, and the new Legislature as right as a book. The State is overwhelmingly for the Union cause and for the candidates who unconditionally uphold it. PENNSYLVANIA LEGISLATURE.

BEPORTED EXPRESSLY FOR THE TELEGRAPH SENATE.

VIEWS OF GEN. HOLT.

WASHINGTON April 5.

Gen. Holt has, in response to the request of the Senate Committee on Military Affairs, given his views on the House bill taking from the President the power to summarily dismiss army and navy officers, and substitute suspension of such officers in command. with trial by court martial. Judge Holt says from the foundation of the Government, the Presi-dent has been in the habit of, summarily dismissing officers in the land and naval service.

The power to do so seems to inhere to him under the Constitution as Commander-in-Chief of the army and navy. His action in this respect has been attended by no oppression or abuses, and its strict legality cannot be contested. The exercise, therefore, of this anthority, since the outbreak of this rebellion has nothing in it that savors of usurpation or nnovation, or that should excite alarm.

In the emergencies of military life, and especially during a period of active hostilities, the interest of the service often not only re-quire that officers shall be instantly dismissed, supplied. This bill makes such supply impracticable in the case of delinquent and suspected officers, because it contemplates no vacancy

Besides, Mr. Holt says there are many other things that the Government could not inves-tigate through courts martial. The hundreds of cases which this bill would bring up for trial will cause such a draft apon the officers of the army needed for active field service. as must greatly impair the efficiency of the campaign now about to open in every part of the theatre of the war.

The Senate Military Committee has reported adversely to the bill.

GEN. GRANT does not seem to fancy the luxurious style of living prevalent in the Army of the Potomac. He says he can maintain his physical integrity on pork and beans, as soldiers do out West, and believes it can be done by them here. Caterers to the delicate palates of our officers are in spasms at the report that the Lieutenant General is about to banish their wares from the lines,
