

speculator is oppressing and almost starving labor—and while licentiousness and riot fill the land. Rome to fiddling Nero did not present a more frightful picture, than do the States, that are loyal as well as the States that are rebellious, exhibit, to the world. When all this will end, or how it will end, God only knows, and we can only say, God save the Republic!

The Removal of the Capital.

We continue the publication of extracts from journals averse to the removal of the capital from Harrisburg to Philadelphia. In addition to these extracts, we notice that remonstrances on the subject are being presented in both houses of the Legislature. It behooves the people, everywhere, throughout the Commonwealth, to move in this matter, and at once pour their remonstrances into the Legislature, warning their representatives against the consummation of this foul wrong.

REMOVAL OF THE CAPITAL.

A very determined effort is being made to remove the State capital from Harrisburg to Philadelphia, the latter city, through her councils, having elected the ground upon which to erect the public buildings, and also one million of dollars for their erection. The first resolution, foreshadowing the removal of the capital, passed the Senate on Friday last, by a vote of nineteen to ten, and the subject postponed until this (Thursday) morning.

THE ARMY OF THE POTOMAC—WILL LEE BE ABLE TO ESCAPE THE VIGILANCE OF GRANT AND INVADE THE NORTH?

We are fast approaching the crisis in the progress of this war. A collision between the Army of the Potomac and that led by Gen. Lee, must decide, not merely the process of our soldiers and the skill of their commanders, but it will settle the destiny of the nation. It is useless to disguise the fact, that communities have now contributed that amount in men and money, which leave them on the verge where patience ceases to be a virtue, and where great changes take place for better or for worse. Hence we must succeed with the arms now in the field, or THE WAR WILL RESOLVE ITSELF INTO ONE OF VAST TURBULENCE, COMPELLING EVERY MAN TO ENTRENCH HIMSELF IN HIS OWN HOME, THERE TO DEFEND OR PERISH WITH HIS FAMILY.

REMOVAL OF THE STATE CAPITAL.

It is now being made to have the Capital of the State removed from Harrisburg to Philadelphia. We see no good reason for the removal, as it is central and easy of access to persons from all portions of the State. The people are satisfied with the location, and we think the legislators of Pennsylvania were elected to change the location of the State Capital. Let the Legislature attend to apportioning the State, passing the appropriation bills, &c., and adjourn, and the people will be satisfied.

REMOVAL OF OUR STATE CAPITAL.

There is a removal on foot to remove the State Capital to Philadelphia. Appearances indicate that there is a majority of our legislators in favor of the mad project. We look upon it as outrage, and hope that our members will oppose it with all their powers.

Pennsylvania Legislature.

REMOVED EXPRESSLY FOR THE TELEGRAPH. SENATE. FRIDAY, April 15, 1864. The Senate convened at 10 o'clock. Mr. FIFMING presented a remonstrance of citizens of Lebanon county, numerously signed, against the removal of the capital to Philadelphia.

ELECTRICITY.

DRS. WYETH and CREAMER, Eclectic and Electrotherapeutic physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of acute and chronic forms of disease.

The Swedish means they employ in the treatment of disease consist of the application of the electric current, the Russian method of Localized movement cure, a few Electric medicines when deemed necessary, and in fact all the natural causes of life that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ, in the treatment of disease, are far superior to those generally employed by physicians, on the fact that they act in perfect harmony with the laws governing and controlling the human system, and the fact that they confine themselves to no particular path or system, they attribute their success to controlling disease.

The principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomena and powerful in its effects. It is the cause of all life, and it is the cause of all disease. It is the cause of all the manifestations of life, and it is the cause of all the manifestations of disease. It is the cause of all the manifestations of life, and it is the cause of all the manifestations of disease.
