OFFICE OF THE COMMITTEE ON LABOR

OFFICE OF THE COMMITTEE ON LABOR, INCOMES AND REVENUES.

NO. 118 SOUTH SEVENUE STREET, PHILADELPHIA, APPLICATING SHEET, PHILADELPHIA, APPLICATING SHEET, PHILADELPHIA, APPLICATING SHEET, PHILADELPHIA, APPLICATION WITH CO-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working mon and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the objects of the Fuir. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the contribution of a SINCLE DAY'S LABOR from all classes in the community. Many will contribute aday of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but, if attained, will be productive of immense results.

The success of the plan will depend upon the hearty cooperation of every cloment of influence within our limits, and we invite all, they guadians of the industrial interests, and all others, to take hold with us in furthering this great, work of particular with the following duty, to wit.

The Committee is charged with the following duty, to First—To obtain the contribution of "one day's labor?"

it: First—To obtain the contribution of "one day's labor,"

First—To obtain the contribution of "one day's labor," or carnings, from every artizan and laborer, foreman, operative and employee; president, cashier, teller and clerk of every incorporated and unincorporated company, 'railroad and express company, employing firm, bank, manu factory, iron works, oil works, mill, mine and public office; from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, innisher and artist; publisher, printer and mechanic; from every government officer, contractor and employee; grocer, butchet, baker and dealer; farmer, horticulturist and producer; from every mantua maker, milliner and female operative; every individual engaged in turning the soil, tending the loom, or in any way carning a livedihood, or building a fortune within the States of Pennsylvania; New Jersey and Delaware.

Second—To obtain the contribution of one day's "Revenue," from all the great employing stablishments firms, comparations companies milrogs and works.

SECOND—To obtain the contribution of one day's "Revenue," from all the great employing establishments firms, corporations, companies, railroads and works!

Tinn—To obtain the contribution of one day's income from every retired person, person of fortune—male and female—living upon their means, and from all clergymon, lawyers, physicians, dentists, editors, authors and figuressors; all other persons engaged in the learned or other professions.

professions.

Much of this work must be performed by the personal
influence and efforts of ladies and gentlemen associated,
or to be associated with the Committee in carrying out this

plan.

The Committee feel the responsibility of the work they.
have undertaken, which, to be successful, will require a
very perfect ramification of their plan, and they therefore
call upon all earnest people to assemble themselves to
cather in every town township and county, and form orgether in every town, township and county, and form or-ganizations o'i laddes and gentlement to co-operate with them in this great work and labor of love. In the manu-facturing counties, the coal and oil regions, and in the agri-cultural districts—especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the fatles of their country in the ar-mies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines.

and friends fighting the batles of their country in the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the miners, and of the ceal regions. A day's carnings of the miners, and a day's product of the mines, can be obtained where no other effort can be made for the Fair, as in the miners and a day's product of the mines, can be obtained, whose no portuble article could be product of the miners and a day's product of the mines, can be obtained, if organizations can be formed to reach them.

The Committee cannot close without urging upon all proprietors of establishments the duty of taking prompt and energetic action to secure the benefit of the day of labor from all within their control.

The Committee deem it unnecessary to do more, than thus to present the subject to the people of the three States named. In the coming campaigns of our armies, the labors of the "Sanitary Commission!" will be greatly augmented. By the first of June 700,000 men—one of the largest armies of modern times—will be operating in the field. So large a force; scattered over regions to which the men are unacclimated, miss incessarily carry along with it a large amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle field. These sufferings, it is our bounded duty as men, and Christians, to relieve. A great and enlightened people, enjoying the blessings of a government of their own making, cannot refuse assistance to men suffering to maintain its authority and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pennsylvania, New Jersey and Delaware, so afficient in all mineral, agricultural and industrial wealth, shall fall behind any similar effort which has yet, been made for the relief of the Nation's children.

As it, is desirable not to multiply circulars, no further, authority than this circular will be necessary for any employing firm or company, or any respectable committee of t

contactphia.

33 All needful helps in Circulars and Posters will be orwarded to parties applying for them. Direct to the chairman of the Committee as above.

DR. WISHART'S PINE TREE TAR CORDIAL

IS THE VITAL PRINCIPLE OF THE PINE TREE.

Obtained by a peculiar process in the distillation of the tar, by which its highest medical properties are retained.

Have you a lough? Have you sore Throat? Have you any of the premonitory symptoms of that most fatal disease, Consumption? Those who should be warned by these symptoms generally think lightly of them until it is too late, From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least "one-sixth" of death's victims.

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heat the lungs, but for more than two hundred years the whole medical world has been impressed that the whole medical world has been impressed that the whole medical world has been impressed that the medical world has been impressed that the medical world has been impressed that the medical world has been impressed to the me that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine the medical properties so as to heal the lungs had away here. perties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. I.. Q. C. WISHART, of Philadelphia, Pa., the proprietor of "Wishart's Pine Tree Tar Cor-dial."

dial."

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Pulmonary Consumption." My answer is this:

The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing inflammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

Dr. WISHART—Dear Sir.—I had a very dreadful cough and sore throat for one year, and my whole system was fast giving way, and I was prostrated on my bed with but little hope of recovering. My disease baffled the power of all medicines, and in a short time I must have gone to my grove but thank God. must have gone to my grave, but thank God, my daughter-in-law would not rest until she went to your store, No. 10 N. Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial and I commenced to use it, and in one week I was much better, and after using three bottles I was much better, and after using three bottles I am perfectly well, and a wonder to all my friends, for they all pronounced me past cura. Publish my case if you think proper.

Mr. WARD says: Dr. Wishart-Sir:-I had Bronchitis, Inflammation of the Lungs, Shortness of Breath, and Palpitation of the Heart in their worst forms; I had been treated by several of the most eminent physicians in Philadelphia, but they could not stop the rapid course of my disease, and I had despaired of ever being ra-stored to health. I was truly on the verge of the grave. Your Pine Tree Tar Cordial was highly recommended to me by a friend; I tried it, and am thankful to say that, after using four large, and one small, bottles, I was restored to perfect health. You can give reference to my house, No. 968 N. Second street, or at my office of Receiver of Taxes, from 9 A. M. to 2 P. M., corner of Chestnut and Sixth JOHN WARD.

Read the following from Utica: DR. WISHART—Dear Sir.—I take pleasure in informing you through this source that your Pine Tree Tar Cordial, which was recommended for my daughter by Dr. J. A. Hall, of mended for my daugnter by Dr. J. A. Hall, of this city, has cured her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best of medical aid without any benefit. I can cheerfully recommend it to the public as a safe and sure remedy for those similarly afflicted, as I know of many other cases besides that of my daughter that it has entirely cured of long standing coughs. Yours respectfully, JOHN V. PARKER, Daguerrean Artist.

cians and druggists who have prescribed and sold the Tar Cordial, saying that they have never used or sold a medicine which gave such universal satisfaction.
