GLAD NEWS FOR THE UNFORTUNATE!

THE LONG-SOUGHT-FOR

DISCOVERED AT LAST.

Cherokee Remedy,

AND

CHEROKEE INJECTION!

COMPOUNDED FROM ROOTS, BARKS AND LEAVES.

CHEROKEEE REMEDY, the great Indian Diuretic, cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonnorhea, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

☞ It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day.

☞ It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all of its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY and should be used in conjunction with that medicine in all cases of *Gonorrhea, Gleet, Fulor Albus or Whites.* Its effects are *healing, soothing and demulcent;* removing all scalding, heat, chordee and pain, instead of the burning and almost unendurable pain that is experienced with nearly all the *cheap quack Injections.*

☞ By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

☞ For full particulars, get our pamphlet from any drug store in the country, or write us, and we will mail free, to any address, a full treatise.

☞ Price, CHEROKEE REMEDY, $2 per bottle, or three bottles for $5.

☞ Price, CHEROKEE INJECTION, $2 per bottle, or three bottles for $5.

☞ Sent by express to any address on receipt of price.

☞ Sold by all druggists everywhere.

BY GEORGE BERGNER. HARRISBURG, PA., THURSDAY EVENING, APRIL 28, 1864. PRICE TWO CENTS.

MEDICAL.

DR. JOHNSON,

BALTIMORE

LOCK HOSPITAL,

HAS discovered the most certain, speedy and effectual remedies in the world for

DISEASES OF IMPRUDENCE.

RELIEF IN SIX TO TWELVE HOURS.

NO MERCURY OR NOXIOUS DRUGS.

A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Langnor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Tremblings, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ecstasy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS

immediately cured, and full vigor restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms, to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

OFFICE No. 7, SOUTH FREDERICK STREET,

Left hand side going from Baltimore street, a few doors from the corner. Fail not to observe name and number.

Letters must be paid and contain a stamp. The Doctor's Diplomas hang in his office.

DR. JOHNSON,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind were cured immediately.

TAKE PARTICULAR NOTICE.

These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, symptoms of consumption, &c.

MENTALLY.—The fearful effects on the mind are much to be dreaded—loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature and indulging in a certain secret habit. Such persons must, before contemplating

MARRIAGE,

Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, too often happens that an ultimed sense of shame or the dread of discovery deters him from applying to those who from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, rich his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptoms of this terrible disease, such as affections of the Head, Throat, Nose, Skin, etc., progressing with frightful rapidity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.

INDORSEMENT OF THE PRESS.

The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the *Sun, Clipper*, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

A POSITIVE AND SPECIFIC REMEDY

FOR DISEASES OF THE

BLADDER, KIDNEYS, GRAVEL

AND DROPSICAL SWELLINGS.

THIS Medicine increases the power of Digestion, and excites the ABSORBENTS into healthy action, by which the WATERY or CALCEROUS depositions, and all UNNATURAL ENLARGEMENTS are reduced, as well as pain and inflammation, and is good for MEN, WOMEN or CHILDREN.

HELMBOLD'S EXTRACT BUCHU,

FOR WEAKNESSES

Arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuse,

ATTENDED WITH THE FOLLOWING SYMPTOMS.

Indisposition to Exertion,	Dryness of the Skin,
Loss of Memory,	Loss of Power,
Weak Nerves,	Difficulty of Breathing,
Horror of Disease,	Trembling,
Dimness of Vision,	Wakefulness,
Universal Lassitude of the Muscular System,	Pain in the Back,
Hot Hands,	Flushing of the Body,
	Eruptions on the Face,
	Pallid Countenance,

These symptoms, if allowed to go on, which this medicine invariably removes, soon follow

IMPOTENCY, FATUITY, EPILEPTIC FITS,

In one of which the patient may expire. Who can say that they are not frequently followed by those "direful diseases,"?

INSANITY AND CONSUMPTION.

Many are aware of the cause of their sufferings, but none will confess. The records of the insane asylums and the melancholy deaths by Consumption, bear ample witness to the truth of the assertion.

THE CONSTITUTION, ONCE AFFECTED WITH ORGANIC WEAKNESS,

Requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Buchu invariably does. A trial will convince the most skeptical.

FEMALES—FEMALES—FEMALES,

OR YOUNG, SINGLE, MARRIED, OR CONTEMPLATING MARRIAGE

In many affections peculiar to females the Extract Buchu is unequalled by any other remedy, as in Chlorosis or Retention, Irregularity, Painfulness, or suppression of the customary Evacuations, Ulcerated or Schirrous state of the Uterus; Leucorrhea or Whites, Sterility, and for all complaints incident to the sex, whether arising from Indiscretion, Habits of Dissipation or in the

It causes frequent desire, and gives strength to Urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling Poisonous, Diseased, and Wornout Matter. Thousands upon thousands who have been the victims of quacks, and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "Poison" has by the use of "powerful Astringents," been dried up in the system, to break out in an aggravated form, and perhaps after marriage.

Use HELMBOLD'S EXTRACT BUCHU for all Affections and Diseases of the Urinary Organs, whether existing in Male or Female, from whatever cause originating, and no matter of how long standing. Diseases, of these Organs require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the Great Diuretic, and it is certain to have the desired effect in all Diseases for which it is recommended.

OPTICIAN,

BEGS to inform the inhabitants of Harrisburg and vicinity that he has removed to No. 29 North Second street, two doors from Walnut. Thankful for the confidence and patronege bestowed on me during my stay on Market Square, I hope to merit a continuance of the same at my new stand.

PARTICULAR ATTENTION is called to the CELEBRATED TINTED PARABOLE SPECTACLES, for which I claim the undermentioned advantages:

1st. That from the peculiar construction of the Glasses, they assist and preserve the sight, rendering frequent change quite unnecessary.

2d. That they confer a brilliancy and distinctness of vision, with an amount of ease and comfort not hitherto enjoyed by spectacle wearers.

3d. That the material from which the Lenses are ground is manufactured specially for optical purposes, and is PURE, HARD AND BRILLIANT, and not lisble to become scratched.

4th. That the frames in which they are set, whether in gold, silver or steel, are of the finest quality and finish, and GUARANTEED PERFECT in every respect.

5th. That, from their peculiar color, they prevent a superfluity of light affecting the retina, and therefore strengthning the optic nerve and rendering it less liable to Amaurosis.

Constantly on hand, a large assortment of Achromatic Microscopes, Spy Glasses, Opera, Marine and Field Glasses; Stereoscopes and Views, Magic Lanterns, Barometers Thermometers, Magnets, &c., &c.

Remember that Roscrale's Institute will be permanent at No. 29 North Second street, five doors from the Buehler House. ap7-daw3m

ELECTRICITY.

DRS. WYETH and CREAMER, Eclectic and Electropathic physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro-Magnetism, the Swedish method of Localized movement cure, a few Eclectic medicines when deemed necessary, and in fact all the natural curative agents that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ in the treatment of disease far superior to those generally employed by physicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this, and the fact that they confine themselves to no particular *pathy* or *system*, they attribute their success in controlling disease.

The principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomena and powerful in its effects for good or ill. It is an ever present, all-pervading principle, governing all things, from rolling worlds down to the invisible particles of gasseous matter. We see it in the lightning's flash and hear the manifestations of its power in the muttering thunder. It is the cause of all decomposition, recomposition and transformation. It excites all motion. It is the exciting cause of life, growth, decay and death. It causes secretion, excretion, digestion. It lays hold of the crude food in the stomach, converts it into a state of fluidity, transmutes it into arterial blood, and sends it on its important office of supplying nutriment according to the necessities of the body. It is the nerve vital fluid, the great agent through which the mind acts upon the body. It is the cause of all causes except the first great cause, the Infinite Mind which created it and brought it into use. These may appear like mere *assertions*, but they are facts admitting of strong and irresistible proof. Is it then, to be wondered at that an agent so wonderful in its phenomena, so powerful in its manifestations and so intimately connected with all the operations of the human system, should be almost absolute in its power of controlling disease? Certainly not. It is a natural sequence and follows as surely as day follows night.

Among the diseases which are found to yield readily to Electricity, in conjunction with proper adjunct treatment, may be mentioned the following; Incipient Consumption, Paralysis, Epilliptic, Hysteric and other Convulsions; Neuralgia, in its worst forms, Rhuematism, inflammatory and chronic; all diseases of the nervous system; Dyspepsia cured in a few treatments; all diseases of the urinary and genital organs; Female Diseases, Asthma, Piles and Prolapsus Ani; Amaurosis and all kindred affections of the eye; Aurelus, Strictures, all skin diseases, &c.

Persons calling will be told whether they can be benefitted and no case taken where some relief cannot be afforded. *Consultation free.* Office, South Second street, below Chestnut, Harrisburg, Pa. Office hours from 8 to 12 A. M., 1½ to 5 and 7 to 9 P. M.

EVENING EDITION.

The Pennsylvania Militia.

Improbability of their being Called into Service

It is not probable that there will be a call made on Gov. Curtin for the militia of the State, at this time. We understand, however, that the militia of the Western States were tendered and accepted by the President, to protect Cincinnati, Cairo, Paducah, Columbus, and exposed points on the Mississippi river. The militia of New York are to garrison the fortifications in New York harbor, and the New England militia are to perform the same service in the fortifications of Boston harbor, and along the eastern coast.

Governor Curtin tendered militia before the battle of Chancellorsville, to garrison the fortifications around Washington city, and he has ever since been in readiness to furnish troops when needed by the national authorities. If the militia were taken from the State now, to be of service to the Government, it would be necessary for such forces to go to Virginia; and the points there are too important and too much exposed to be garrisoned by green troops; and in case of invasion, the military force of the State would be thus exhausted, and our border left at the mercy of the invader. We are happy to have it in our power to announce that the most cordial and reciprocal feeling exists between the national and State authorities, and that in any emergency which may occur, there is a perfect understanding to control and give force to their combined action.

Pennsylvania Legislature.

REPORTED EXPRESSLY FOR THE TELEGRAPH.

SENATE.

AFTERNOON SESSION.

WEDNESDAY, April 27, 1864.

The Senate met at 3 P. M.

The appropriation bill was taken up and discussed till 6 P. M. Adjourned.

EVENING SESSION.

The Senate considered the revenue bill until a very late hour, when it adjourned till 10 A. M. to-morrow.

HOUSE OF REPRESENTATIVES.

AFTERNOON SESSION.

WEDNESDAY, April 27, 1864.

The select committee, to whom was referred so much of the Governor's message as relates to the history of our State military organizations, and preparing an appropriate testimony of the services of Generals Meade and Reynolds, report that the subject of the history of the State military organizations is provided for in House bill No. 928, reported by the Committee on Military Affairs, and is now on the files of the House.

Upon the other subject referred to them the committee submit the accompanying paper, and recommend the adoption of the following resolution, viz:

Resolved, (if the Senate concur,) That said paper be signed by the Speakers of both houses of the Legislature as a testimony of the graditude of this Commonwealth to Major General John F. Reynolds and his surviving commander, Major General George G. Meade, and that the Governor be requested to place the same amongst the State archives, and forward a copy thereof to General Meade and the relatives of General Reynolds.

P. FRAZER SMITH,
N. MAYER,
J. W. HUSTON,
SAMUEL JOSEPHS,
WILLIAM HORTON.

From the beginning of the rebellion which has sought to destroy this nation, Pennsylvania has fairly stood by the Government of the country. The first sound from the assault of traitors led her sons to defend the Republic on the soil of other States. Thousands of them have given their lives in this holy duty. Mourning over them, she still feels that their loss was a sacrifice not too great for the occasion; the memory of their valor and devoted patriotism she claims as her own glory. Her own territory invaded by the same traitors, her sons met the mighty shock at Gettysburg, and after three days of terrific carnage, on the eve of the day which annually commemorates the Declaration of Independence of the nation showed that there was no irreverent presumption when their fathers announced their "firm reliance on the protection of Divine Providence" for the establishment and preservation of this Republic.

To the army of the Potomac, whose discipline and enduring bravery gained the victory, Pennsylvania has incurred a debt which, always solicitous to acknowledge, she cannot pay. She feels a just pride that one of her sons commanded that army at the battle of Gettysburg, and in sorrow for the death of another, she indulges a sad joy in knowing that in death, as in life, he honored himself and shed glory on his native State and his country.

Entertaining these sentiments, we, the Representatives of the people of Pennsylvania, do resolve: That the gratitude of the people of Pennsylvania is eminently due to Major General George G. Meade, for his gallantry as commander of the Army of the Potomac, at the battle of Gettysburg and for the consummate military ability with which, at that battle, he drove the invaders from Pennsylvania. We extend the thanks of the Commonwealth to him.

That Major General John F. Reynolds, who commanded the First Army Corps, and on the first of three bloody days closed a life illustrated by patriotism, heroism and self-sacrifice, lives in the affections and memory of the people of his native State. They will ever bear in mind that his life was a great part of the weighty price by which the preservation of a nation was secured. We tender to his relatives and friends the condolence of the people of this State.

The report was then laid on the table.

The bill providing for the re-organization of the militia force of this State was taken up and passed finally.

WESTERN PENITENTIARY.

The bill, an act regulating the appointment of inspectors of the Western penitentiary, passed finally.

CONNELLSVILLE AND SOUTHERN PENNSYLVANIA RAILROAD.

Mr. BIGHAM read in place and presented to the chair bill, entitled An act relating to the Connellsville and Southern Pennsylvania railroad company. The bill passed finally.

The House adjourned at 5 o'clock till half-past seven o'clock this evening.

EVENING SESSION.

The House met at 7½ o'clock.

XXXVIIIth Congress---First Session.

HOUSE OF REPRESENTATIVES.

WEDNESDAY, April 27, 1864.

The House went into committee of the whole on the internal tax bill.

An amendment was adopted requiring the commercial brokers to pay 25 dollars for local license, without regard to the amount of their transactions.

Mr. Morrill, (Vt.,) on behalf of the Committee on Ways and Means, moved an amendment on brown and Muscovado sugar, not above No. 12, Dutch standard, in color, produced directly from the sugar cane, and not from sorghum or Imphee, other than those produced by the refiner, a duty of 2 cents per pound.

Mr. Morrill explained that the duty is now two cents per pound, and the Committee on Ways and Means, on re-consideration, came to the conclusion that the rate should be preserved, instead of placing it at one cent, as originally reported.

Mr. Randall (Pa.) opposed the amendment. Rather than an increase, there should be a reduction in the rate of sugar. The amendment was adopted—yeas 59, nays 47.

The bill was further amended so as to provide a duty on all clarified or refined sugars above No. 12, produced directly from the cane, of three cents, and refined or clarified above No. 18 four cents.
