9 o'clock. COLLLAPSE OF THE BOUNTY BROKEBAGE.-Bogus Recruiting Officers under the Surveillauce Two hundred and fifty "veteran" horses of the Military Authorities-Red Tape Relaxing will be sold at Altoona, on Thursday of this for Stern Action.-For many weeks we have appealed to the War Department to relieve this post of the incubus in the shape of an incompetent or derelict officer, who was retarding the successful progress of the public business. These appeals were unheeded, and in the meantime neglect grew into frauds, until the business connected with the recruiting of soldiers at this post became a sort of "Peter Funk" trade, by the operation of which gallant men were shamefully cheated, a noble service outrageously defrauded, and a confiding government wofully disgraced. On Saturday last we called the attention of the authorities to facts at once revolting, a case in which the State authorities were actually compelled to interpose for the protection of the soldiers of the national government. The action of Adjutant Gen. Russell, in promptly confronting the rogue Hammer, and compelling him to disgorge his ill-gotten gains, it seems, put to blush the commandant of the post, Col. Bomford, and we now learn that Bomford has issued an order suppressing these military "Funks," so that at least in the future the service will be protected from the pilferings of these cheats. But why did not Bomford issue such an order months ago? Why did he postpone his action until the volunteers had been robbed of thousands of dollars? Six months ago prominent officers at the post urged upon Bomford to issue an order suppressing the speculators who were pilfering the bounties of the volunteers-and months ago we appealed to him on the same subject. But he was stoical and indifferent, and seemed determined to wait until the very life-blood had been sucked from the volunteers before he could be induced to act. All the time that we were urging Bomford to act on this subject, clerks in his office were engaged in frauds of which we complained, charging exa great variety of plays, songs, &c., of the best tra for services for which they were handsomely rewarded by the government. We do not assert that Bomford was cognizant of these facts, but we do insist that his ignorance on the subject of frauds being perpetrated in an office of which he has charge, is the best evidence of his utter unfitness for the transaction of the business of this post. Indeed. Bomford only acted because he was driven by public indignation to do his duty.
