THESE elegant preparations combine the most desirable cleansing and astringent; qualities.

They render the Gums hard and healthy; neutralize the acid secretions of the mouth, (thereby removing the prime cause of decay). By their detersive proporties they preserve the natural color of the Teeth, without in the least degree injuring the enamel, while they impart to the breath a fragrance peculiarly aromatic and pleasant.

In fact they are THE BEST ARTICLES in use for the purposes named, as a fair trial will fully demonstrate; and as has been abundantly proved, by their extensive isale in this community during the last 14 years; and which, will be readily testified to by many who have repeatedly urged the Proprietor to still further extend their sale and usefulness. They are warranted to be free from those destrictive acids which so frequently contaminate many of the preparations of the present day. Among these troops were many boys fourteen and fifteen years of age. The Richmond bells were ringing all day, and there were abundant indications that the most feverish alarm prevailed in the city.

We took between four and five hundred prisoners, and lost about two hundred and fifty in killed and wounded; most of the latter at Meadow Bridge, where we had to cross the Chickshominy. We had to advance a quarter of a mile under heavy fire in front and on both flanks, without being able from the nature of the ground to deploy. The enemy, how ever, did notf fire very decirately, and our

None of the regular press correspondents or couriers have got through yet; to day, but several arrivals bring scraps and detached fragments of news, that must be taken for what they may seem worth.

The latest of these says that on Friday night Ggn: Hancock made andash on the remaining portion of the enemy's lines to seoure the eighteen guns which the rebels had bandoned, but which had been so mounted behind huge breast-works that under the rebel fire we had not been able to bring them

It is said that various indications lead to the belief in official circles, that Lee will be compelled to go towards Lynchburg rather than Richmond. One reason for this belief. is, that Lee's trains are understood to be found as having gone towards Charlottesville. Several tons of mail matter left Washington
