

DAUPHIN COUNTY UNION CONVENTION—General Cameron.

The Union men of Dauphin county met in Convention yesterday, for the purpose of selecting conferees to meet in conference delegates from the other counties of this Congressional District, to elect a Representative delegate to the National Union Convention to be held in Baltimore in June next.

It is due to all parties that we write a word in reference to the resolution instructing the conferees to secure a delegate to the Baltimore Convention friendly to the nomination of General Cameron for the Vice Presidency.

While General Cameron is not a candidate for any of the honors or the positions to be derived from the triumph of the great political contests to be fought in October and November next, his position will, nevertheless, constrain him to take an active part in those great struggles.

While General Cameron is not a candidate for any of the honors or the positions to be derived from the triumph of the great political contests to be fought in October and November next, his position will, nevertheless, constrain him to take an active part in those great struggles.

What we are fighting for. The copperhead press of the country, as we have frequently insisted, are in a sad quandary. The conductors of these sheets, and those who peruse and believe what they disseminate, are put to their wits' ends on all occasions, to provide ways and means for the defence and preservation of slavery.

Served the Sneaks Right. During the progress of the bloody fights in Virginia, that have covered our arms with glory and vindicated the full power of the Government to maintain its just authority, a large number of officers found their way to the rear, and eventually reached Washington city in safety.

gained. It matters not to these men whether that safety is achieved through the sacrifice of millions of life and money, or whether it is preserved by a disgraceful compromise.

A Gigantic Enterprise. Among the vast amount of legislation at the last session of the Legislature, that incorporating a company formed under the name of the "Anthracite Coal and Iron Company," with large powers, may be regarded as very important to the people of the north-western portion of the State.

Those at the head of this great enterprise are men of wealth, intelligence and energy; the directors being J. H. Whallon, G. W. Whallon, H. James, J. W. Douglass, Jno. Blood and Geo. W. McClintock—the last two gentlemen alone being abundantly able to father the whole enterprise.

It is worthy of note that the object of this company, and the very ground over which it proposes to operate with extensive dock accommodations, were years ago advocated and urged upon the capitalists of the north-west by a citizen of Harrisburg, Col. James Worrall, as an enterprise which guaranteed the largest investment.

Col. Woodward. The account purporting to give the death of "Col. Woodward" has been considerably mixed, and a great deal of puerile sympathy manufactured for parties who were supposed to be related to the deceased.

Gen. Palmer in Command at Newbern. A letter from North Carolina states that the enemy are sending all their available forces from that State to Virginia, and the rebel troops from the South are continually passing over the North Carolina railroads to the relief of Lee.
