This distressing affection—which renders life miscratic and marriage impossible—is the penalty pand by the victims of improper indulgence. Reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, with-out these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another be-comes blighted with our own.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbibled the seeds of this painful disease, too often happens that an illtimed sense of shame or the dread of discovery deters him from applying to those who from education and respectability, can alone betriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, litch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly poison, hercury, masten the constitutional symptoms of this terrible disease, such a saffections of the Head, Throat, Nose, Skin, etc., progressing with frightful rapidity till death puts a period to hid dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.

The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, winnessed by the reporters of the Sian, Clipper, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.
