ELECTRICITY, DRS. WYETH and CREAMER, Electric and Electrostatic Physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro-Magnetism, the Swedish method of Localized movement, &c., a few Electric medicines when deemed necessary, and in fact all the natural and artificial agents that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedy they employ in the treatment of disease far superior to those generally employed by Physicians, from the fact that they act in perfect harmony with the laws governing the life and action of the system. To this, and the fact that they confine themselves to no particular party or system, they attribute their success.

The principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomena and powerful in its effects for good or ill. It is an ever present all-pervading principle, governing all things, from rolling worlds down to the invisible particles of gaseous matter. We see in the lightning's flash and the electric discharges of the power in the thundering clouds, the use of all decomposition, recombination and transformation. It excites all motion. It is the exciting cause of life, growth, decay and death. It causes secretion, excretion, &c., &c. It holds the crude food in the stomach, converts it into a state of fluidity, transmits it into arterial blood, and sends it on its journey through the system, according to the necessities of the body. It is the nerve fluid, the great agent through which the mind acts upon the body. It is the one and only cause of the first-fructification of the Infinite Mind which created it and brought it into use. These may appear like mere assertions, but they are facts admitting of strong and irrefragable proof. It is, in fact, to view it as a kind of power, as it is a power, so powerful in its manifestations and so intimately connected with all the operations of the human system, should be considered as the power of controlling disease? Certainly not. It is a natural sequence and follows as a matter of course.

Among the diseases which are found to yield readily to Electricity, in conjunction with proper adjunct treatment, may be mentioned the following: Lascivious Consumption, Paralysis, Epilepsy, Hysteria and other Convulsions; Neuralgia in its various forms, indigestion, indigestion and chronic; all diseases of the nervous system; Dyspepsia cured in a few treatments; all diseases of the urinary and genital organs cured according to the system of the Proprietary; Amnesia and all kindred affections of the eye; Auralia, Strabismus, all skin diseases, &c.

Persons calling will be consulted whether they can be benefited and no case taken where some relief cannot be afforded. Consultation Free. Office, South Second Street, below Chestnut, Harrisburg, Pa. Office hours from 8 to 12 A. M., 1 1/2 to 5 P. M.

ALEX. R. WYETH, M. D., DR. J. MILTON CREAMER.

DRUGGISTS, PHYSICIANS, STORE-KEEPERS AND CONSUMERS. We are daily adding to our assortment of goods all such articles as are desirable, and best respectively call your attention to the largest and best selected stock in this city.
