THE GREAT REMEDY

CONSTITUTION. AND THE ONLY KNOWN REMEDY

CONSTITUTION WATER.

IABETES, and DISEASES of the KIDNEYS and BLADDER.

CONSTITUTION WATER

Has been pronounced by the Medical Faculty and the public, to be the most wonderful remedy for the permanent cure of all diseases of the STOMACH, LIVER, RIDNEYS and BLADDER that has ever been offered.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emanated, and we now say let up o man doubt, when a single bottle has been known to cure diseases which the best medical taiont in this country has failed to relieve.

A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it now used by the most scientific practitioners in this city. It is only second chas physicians that city down popular remedies, while the better skilled make use of every means to accomplish a cure, and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while othere fail in the aftenue. Science is satisfied with the truth.

Give Constitution Water a fair trial—we mean you who are under some specialists care from year to year, and we particularly alfude to ladies who are constantly resorting to focal applications for diseases, with as much chance of success as there would be trum local applications to the throat for diseases of the brain.

We have been always careful to use language in our

be trum total applications to the throat for diseases of the brain.

We have been always careful to use language in our circular that could not shock the most delicate organization, but we receive so many communications from persons for which Constitution Water is adapted, and of whose diseases no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter what the disease may be, it should be made known. The medicine is put up for the public, and there should be no exceptions.

We would say, Constitution Water is not like a gilded pill, made to suit the eye and taste; it is a medicine in every sense of the term, placed in the hands of the people for their relief, and if taken according to the directions it will, in every case, produce a radical cure. We would say that the directions in regard to diet, etc., relate only to the disease under which they occur.

DIABETES

late only to the disease under which they occur.

DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is, without doubt, the most obstinate disease, except consumption, that affects the human constitution. We have no space for discussing causes, but will state that the effect of the disease is the conversion of the starchy principle (or vegetable portion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the disease is fully established, is intolerable—the patient drinks constantly without being satisfied; also dryness of the mouth, cracking of the lips, a sweet breath, in the more advanced cases, and finally loss of appetite, emacation, and the patient graduly sinks from exhaustion

Constitution Water is, without doubt, the only known

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most argent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoenful a day of the Constitution Water will relieve you like imagic.

PHYSICIANS Have long since given up the use of buchn, cubebs an jumper in the treatment of those diseases, and only us them for the want of a better remedy.

CONSTITUTION WATER has proved itself equal to the task that has devolve

irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the convoluou that it has no equal in relieving the class of diseases for which it has been found so eminently successful for our rule; and we trust that we shall be rewarded for our clottes in placing so valuable a rounedy in a form to meet the requirements of patient and physician.

their professional services in an the various oranizes of the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro Magnetism, the Swedish method of Localized movement cure, a few Edictic medicines when deemed necessary, and in fact all the natural curative against that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ in the treatment of disease far superior to those generally employed byphysicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this, and the fact that they confine themselves to no particular gathy or system, they attribute their success I controlling disease.

thus, and the fact that they confine themselves to no particular gathy or system, they attribute their success I controlling disease.

The principal agont they employ in the treatment of disease, asmely, Electricity, is an agent wonderful in its phenomena and powerful in its effects for good or if. It is an ever present, all-pervising principle, governing all things, from rolling worlds down to the mysishle particles of gasseous matter. We see it in the lightning's flash and hear the miniestations of its power in the muturing thinder. It is the cause of all decomposition, recomposition and transformation. It excites all motion. It is the exiting cause of life, growth, decay and death. It causes secretion, excretion, digestion, it lays hold of the crude food in the stomagin, converts it into a state of fluidity, transmutes it into arterial blood, and sends it on its important office of stomagin, converts it into a state of the important office of stomagin, converts it into a state of the important office of severe the first great cause, the infinite sind which created it and brought it into a cause of the cause of all causes sever the first great cause, the infinite sind which created it and brought it into a cause of the new casertions, but they as, tacts admitting of strong and irresistible proof. Is it then, to ewonderful at that an agent so wonderful in its minifestations and so intimately connected with all the operations of the human system, should be almost absolute in its power of controlling disease? Certainly not. It is a matural sequence and indows as gively as day follows night.

LOCK HOSPITAL,

Has discovered the most certain, speedy and effectual remedies in the world for

DISEASES OF IMPRUDENCE. RELIEF IN SIX TO TWELVE HOURS

NO MERCURY OR NOXIOUS DRUGS. A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back Affections of the Kinneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspeysts, Languor, Low Spirits, Courusion of Ideas, Palpitation of the Beart, Timulty Tremblungs, Dimness of Sight or Griddiness, Disease of the Head, Throat, Nuse or Skin, Affections of the Liver Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more faist to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, sc., impossible.

YOUNG MEN Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence or waked to estasy the living lyre, may call with full confidence.

MARRIAGE. Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedify cured.
He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS
mmediately cured, and tull vigor restored.
This distressing affection—which readers life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too agreement to commit expesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will protend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weaklened, loss of procreative power, nervous trutability, dyspepsia, pulpitation of the feart, indigestion, constitutional debility, a wasting of the frame, cough, consimption, decay and death. DR. JOHNSON,
Member of the Royal College of Surgeons, London, graduate from one of the most eminont-colleges in the United Sutes, and the greater part of whose life has been spent in the buspitals of London, Paris, Philadelphia and elsewhere, his effected some of the most assonishing cures that were ever known; many troubled with ringing in the nead, and cars, when saleep, great herrousness, being illumor at sudden sounds, bashfulness; with frequent olushing, attended sometimes with derangement of minds were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE.
These are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and timbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepein, nervous tritability, symptoms of consumption, ac.

MENTALLY.—The tearful effects on the mind are much to be dreaded—loss of memory, confusion of ideas, depression of spirits, evil foreteedings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced.

Who have injured themselves by a certain practice intulged in when alone, a habit frequently learned from wild companions, or at school, the effects of which are ightly left, even when asleep, and if not cured renders narriage a possible, and destroys both mind and body, shoulds ply in mediately.

Whata so that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of leviating from the path of nature and indusing in a sertain secret habit. Such persons must, before contemplating YOUNG MEN
