GREAT REMEDY CONSTITUTION, AND THE ONLY KNOWN REMEDY

LABETES, and DISEASES of the KIDNEYS and BLADDER.

CONSTITUTION WATER

CONSTITUTION WATER

Has been pronounced by the Medical Faculty and the public, to be the most wonderful remedy for the permanent cure of all diseases of the STOMACH_LIVER, KIDNEYS and BLAIDER that has ever been offered.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emanated, and we now say let no man doubt, when a sligle bottle has been known to cure diseases which the best medical talent in this country has failed to relieve.

A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it, now used by the most scientific practitioners in this city; it is only second class physicians that cry down popular remedies, while the better skilled make use of every means to accomplish a cure, and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while othere fail in the attempt. Science is attailed with the truth.

Give Constitution Water a fair trial—we mean you who are under some specualists care from year to year, and we particularly allude to ladies who are constantly resorting to local treatment, and all sorts of local applications for diseases, with as much chance of success as there would be trum local applications to the throat for diseases of the brain.

We have been always careful to use language in our

be from local applications to the throat for diseases of the brain.

We have been always careful to use language in our circular that could not shock the most delicate organization, but we receive so many communications from persons for which Constitution Water is adapted, and of whose diseases no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter what the disease may be, it should be made known. The medicine is put up for the proble, and there should be no exceptions.

We would say, Constitution Water is not like a gilded pill, made to suit the eye and taste; it is a medicine in every sense of the term, placed in the hands of the people for their relief, and if taken according to the directions it will, in every case, produce a radical cure. We would say that the directions in regard to diet, etc., relate only to the disease under which they occur.

DIABETES

is a discase of the stomach and liver, acting through the kidneys, and is, without doubt, the most obstinate disease, except consumption, that affects the human constitution. We have no space for discussing causes, but will sixte that the effect of the disease is the conversion of the starchy principle (or vegetable portion of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many porsons suffer from this disease who are algorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to lifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which, when the discuse is fully established, is intolerable—the patient drinks constantly without being satisfied; also dryness of the mouth, crucking of the lips, a sweet breath, in the more advanced cases, and finally loss of appetite, emaciation, and the patient gradually sake from exhaustion

Constitution Water is, without doubt, the only known comedy for Diabets, and we have as much confidence that it is a specific as we have that oplum will produce sleep, and truthfully say that it has cured every case in which it has been used.

For these diseases it is urily a sovereign remody, and too much cannot be said in its praise. A single dose has been known to relieve the most argent symptoms.
Are you troubled with that distressing pain in the Small of the back and through the hips? A tenspoenful a day of the Constitution Water will relieve you like magin.

PHYSICIANS Have long since given up the use of buchu, cubebs and juniper in the treatment of those diseases, and only us them for the want of a better remedy.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the city of diseases for which it has been found so eminently successful for curing, and we trust that; we shall be rewarded for our eithrits in piacing, so whather simple is remedy in a form to meet the requirements of purious and physician. DASVILLE, Ph., June 2, 1862.—Dr. Wm. H. Gregg—
Dear Str.: In Fobruary, 1861. Flwas affected with suguidabates, and for five months I passed more than two
gations of water in twenty-tent bours. I was obtiged to
get up as often as ten or tweive times during the night,
and in five months I lost about fitty pounds in weight.
During the month o. July, 1861, I procured two bottlee
of Constitution Water, and in two days after using it I experisanced relief, and after taking two bottles I was entirely cared, soon after regaining my usual good health

perisuced relief, and after taking two bottles I was untrely cared, soon after regaining my usual goods health Yours truly.

Bosron Coeners, N. 1., Dec. 27, 1861.—Wm H. Gregg & Ca.—Gents: I freely give you liberty to make use of the following certificate of the value of Constitution Water which I can recommend in the highest manuer: My will was attacked with pain in the shoulders, whole length of the back, and in her timbs, with Patpitation of the Heart and Irritation of the Bladder. I called a physician, which attended her about three months, when he left her worse than he had found her I then employed one of the best physicians I could find, who attended her for about nine mouths, and while she was under his care she did not surfar quite as much pain. He thally gave her up, and said of the countries are not incurable. For, 'said he, 'the has such a combination of complaints that medicine given for one operates spants some other of her difficulties." About the lines she commoniced the use of Constitution. Water, and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superinteness entirely ber domestic affairs. She has not aken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WETHERSFIELD, Conn., March 2, 1863.—Dr. W. H. Gregg—Lear Sir.—Having seen your advertisement of Constitution Water, 'recommended for inflammation of the Eddeys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary rolled. I was induced to try your medicine. I procured one boutle of your agents at Harrford, Messar, Lee, Sisson & Co., and when I have used two bottles of it, and am where I here expected to be in my life; well, and is good sprints. I cannot express my gratitude for it; I feel that it is all and more than you recommend it to be. May the blessing of God ever attend you in your labors o
