THE LONG-SOUGHT-FOR
DISCOVERED AT LAST.

Cherokee Remedy,

AND
CHEROKEE INJECTION!

DISCOVERED FROM ROOTS, BARKS AND LEAVES.
CHEROKEE REMEDY, the great Indian Diuretic,
cures all diseases of the urinary organs, such as Inflammation of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gleet, Gonorrhoea, and is especially recommended in those cases of Pleuritis (or Whites in females) where all the old-fashioned medicines have failed.

It is prepared in a highly concentrated form, the only one being from one to two teaspoonfuls three times per day.

It is diuretic and alterative in its action; purifying the blood, causing it to flow in all its original purity and vigor; thus removing from the system all poisonous causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY and should be used in conjunction with that medicine in all cases of Gonorrhoea, Gleet, Pleuritis or Whites. Its effects are heating, tonic and demulcent; removing all scalding, heat, chills and pain, instead of the burning and almost unbearable pain that is experienced with nearly all the other quick injections.

By the use of the CHEROKEE REMEDY and CHEROKEE INJECTION—the two medicines at the same time—all impurities are removed, and the weak and diseased organs are speedily restored to full vigor and strength.

For full particulars, get our pamphlet from any drug store in the country, or write us, and we will mail free to any address, a full treatise.

EVENING EDITION.

Our Congressional District.
HARRISBURG, June 23, 1864.

EDITOR PENN'A TELEGRAPH—Dear Sir—In your editorial of June 8th you call the attention of the people of this county and Congressional district to the importance of selecting the best men possible to represent us in the coming Congress and Legislature, in terms which deserve the thanks of all considerate and loyal men.

Concurring with you fully, in the opinion that in this crisis it is a matter of life and death with the people, to look into the proceedings of every nominating body, and insist that the candidates to be put forth shall be men of moral integrity, personal ability and patriotic purity, and that the district which is represented in the next Congress by a mere schemer, or abject corruptionist, will be eternally disgraced, I cordially commend that article to the serious consideration of all good citizens, and hope you will repeat the admonition frequently, and arouse a degree of vigilance that will insure to our representatives equal to the great and pressing necessities of the country.

As usual we will not doubt have numerous self-constituted candidates, who are willing to serve their country for the amount of pay that will accrue to them fairly or otherwise. What we want at this time, are candidates actuated by noble motives, pure patriots, such, however, are generally ready to offer themselves, and are averse to the trickery sometimes resorted to in obtaining nominations.

To obtain them, therefore, we must draw them forth through the press, and with that view, (after consulting with a number of influential citizens,) I take the liberty of suggesting the name of Leander N. Ott, Esq., of Conestoga township, as a proper person for the nomination as a candidate for Congress, knowing him to possess all the qualities you designate.

Through an active political life of nearly thirty years, to my certain knowledge, Mr. Ott has made great sacrifices of business interests in advocating the right, without the most distant prospect of reward—influenced solely by a desire to promote the best interest of his country, and do his part in the work of regenerating it and perpetuating our free institutions for the benefit of posterity.

I trust this suggestion will meet your approval, and that of all good Union men throughout the district, and, if fortunate, we shall have the satisfaction of seeing him elected, the people of this district will not have occasion to blush on account of their representative.

NEWS FROM THE FRONT.
CANNONING HEARD.
FIGHTING GOING ON.
SIEGE OF FORT DARLING COMMENCED.
Suffering of Our Wounded.
Heavy Losses Admitted by the Rebels.

WASHINGTON, June 23.
The steamer Thomas Corwin arrived at noon today from City Point. She reports that considerable fighting has been going on in the direction of Petersburg since Monday, and when she left City Point, at 11 o'clock yesterday morning, heavy cannoning was heard there.

Passengers report that the siege of Fort Darling commenced on Monday afternoon at four o'clock.

We have no confirmation of this reported commencement of siege operations at Fort Darling, owing to the fact that only two corps, the 6th and 3d, have succeeded in erecting their hospital tents.

There is much suffering among our wounded, but the authorities are making every exertion to remedy the evil as speedily as possible.

The road from the front to City Point is a rough one at present, and the jolting of the ambulance is not at all pleasant for our wounded.

Rebel papers of the 18th inst. admit heavy casualties on their side.

MIX, THE SANITARY FAIR BANK ROBBER.
HE PLEADS GUILTY, AND IS SENTENCED TO SIX YEARS' IMPRISONMENT.

PHILADELPHIA, June 23.
This morning in the Quarter Sessions, Geo. H. Mix, alias Marshall, being arraigned pleaded guilty to two bills of indictment, charging the stealing of \$7,000, the money of the Sanitary Fair, and a pistol the property of Mr. Caldwell, and was sentenced by Judge Allison to an imprisonment of six years in the county prison.

Death of Isabel Cubas.
NEWARK, N. J., June 22.
Isabel Cubas, the popular danseuse, died here, after a long and painful illness. Her disease was consumption. She retained her consciousness almost to the last, and made her will, in legal form, during the afternoon. Cubas was born at Valencia del Oid, in Spain, in the year 1837. At an early age Cubas displayed extraordinary skill as a dancer, and soon appeared before the public, travelling through Russia, Turkey, Austria and France. In 1860, Nixon, the manager, brought Cubas to this country. Her last engagement was at Philadelphia, we believe, where she was taken seriously ill. She leaves a daughter aged about six years.

ARMY OF THE POTOMAC.

MISCELLANEOUS.
THE EIGHTEENTH ARMY CORPS.

The 18th corps, Gen. Smith has returned to Bermuda Hundred, having been relieved from its position in front of Petersburg. General Smith has issued the following order: To the Eighteenth Army Corps:

The General Commanding desires to express to his command his appreciation of the soldierly qualities, we have been displayed during the campaign of the last seven months.

Within that time they have been called upon to undergo all the hardships of a soldier's life and been exposed to all of its dangers.

Marches under a hot sun have ended in severe battles; after the battles, watchful nights in the trenches taken from the enemy.

But the crowning point of the honor they are entitled to receive has been since the 15th instant, when a series of earthworks, in most commanding positions and of most formidable strength have been carried, with all the guns and material of war of the enemy, including prisoners and colors. The works have all been held and the trophies remain in our hands. The victory is all the more important to us, as the troops have never been regularly organized in camp, where time has been spent in learning the discipline necessary to a well organized corps d'armee, but they have been hastily concentrated and suddenly summoned to take part in the trying campaign of our country's being.

Such honor as they have won will remain imperishable.

To the colored troops comprising the division of General Hinks the general commanding would call the attention of his command. With the veterans of the Eighteenth Corps they have stormed the works of the enemy and carried them, taking guns and prisoners, and in the whole affair they have displayed all the qualities of good soldiers. By command of
MAJOR GENERAL SMITH.

WM. RU SELL, JR., A. A. G.
MAJOR GENERAL GILLMORE RELIEVED AT HIS OWN REQUEST.

Major General Gillmore, with his personal staff, Major Brooks and Captain Briggs, and Frothingham, has arrived at Washington, where he is to report to the Adjutant General of the Army in pursuance of the following order:

HEADQUARTERS OF THE UNITED STATES,
CITY POINT, Va., June 17, 1864.
SPECIAL ORDERS—No. 36.

Major Gen. Q. A. Gillmore, United States volunteers, is, at his own request, hereby relieved from the command of the 10th army corps, serving in the Department of Virginia and North Carolina, to take effect on and date from June 14th inst., and will proceed to Washington, D. C., and report to the Adjutant General of the Army for orders. His personal staff has permission to accompany him.

By command of Lieut. Gen. GBANT,
T. S. BOWEN, Ass't Adj. General.

General Gillmore has been accused by the Commanding General of the rebels, who has been serving of disobedience of duty, and of having failed to perform his duty in the recent attack on Petersburg, whereby the operation of capturing the place failed. So Gen. Butler reported to the Secretary of War, and threw the entire blame of the failure on Gen. Gillmore. Gen. Grant, in a communication to Gen. Butler, in reply to a letter from him, suggested that he should probably apply for a court of inquiry to investigate his conduct while serving in this department.

General Butler immediately relieved General Gillmore of his command, and ordered him down to Fortress Monroe until the court of inquiry could meet. On General Grant's arrival General Butler's order sending General Gillmore to Fortress Monroe was practically annulled, and at General Gillmore's request, Gen. Grant relieved him from the corps command and sent him to Washington, where the whole affair will be examined into.

BURNING OF THE WHARF AT AQUA CREK.
On Saturday last, a large band of guerrillas made their appearance at Aqua creek, and set fire to the lower wharf, when the gunboats Cour de Lion, Primrose and Leslie opened fire on them and scattered them. Boats crews of the Primrose and Cour de Lion were sent on shore, and endeavored to stop the destruction; but on the 11th passing that place yesterday morning, the wharf was still burning.

FROM WASHINGTON, June 23.
WASHINGTON, June 23.
The steamer "State" sailed yesterday morning with wounded soldiers, directly from the front. She brings mostly severe and amputated cases. Some of her passengers left the front as late as Monday, at which time they heard heavy cannoning on our right, but they hardly think a general engagement was in progress.

They are of the opinion that Grant has some more important design in view, at present, than the capture of Richmond.

A large portion of the wounded brought here yesterday and to-day belong to the cavalry.

There was no fighting on Sunday, as you have been advised.

The steamer Connecticut was at City Point loading when they left. The 5th corps arrived at the front on Friday evening and immediately took part in the fight, and were engaged on the whole of Saturday. The rebels recognize them and manifested their surprise as well as terror by such a scallion as "Great God, here comes the 5th." This famous corps distinguished itself as usual, by their undaunted courage and coolness. The 2d corps has suffered much, and many of the wounded who are arriving belong to it.

Rebel News.
EXTRACTS FROM SAVANNAH PAPERS.
WASHINGTON, June 22.
The following extracts are from Savannah papers of June 11th, which have been received here:

"Stand Water, Chief of the Cherokee Nation, has recently been commissioned as a brigadier in the Confederate army. He is the first Indian who ever attained that rank.

"A company of boys, about forty strong, has been formed at Columbus, Georgia, to guard the railroad bridge at West Point. Their captain is Master Walter Gordon, brother of Major General Gordon, of Lee's army. Not a member of the company is over sixteen years of age."

The papers contain eulogies on Lieutenant General Polot, and suggest that his name be given to the "Water-Whisk" which he has bequeathed to the Confederacy, purchased with his heart's blood.

General Sheridan's Command.

FURTHER DETAILS OF THE RAID.
FORTRESS MONROE, June 21.

In my last I left the command of General Sheridan at Trevilian Station, on Sunday evening of the 19th. As before stated, during the morning General Custar had recovered nearly all his lost property, except the pack train and his personal baggage. From prisoners taken we had learned that we had fought all Wade Hampton's cavalry, including Fitz Lee's, Mosser's, Young's, Butler's and Lomax's commands. Rosser was severely wounded, losing a leg. Colonels McAlister, of the 4th South Carolina, and Aiken, of the 7th Georgia, were among the killed and wounded.

Our losses were chiefly in Torbert's division, the heaviest being in Merritt's brigade. Merritt lost: Officers, 15; Men, 251. Total, 267. Devins lost: Officers, 10; Men, 114. Total, 124.

Of these, one officer was killed and nine wounded; fourteen men killed and one hundred and five wounded.

On Sunday afternoon Dr. Rogers, of the 6th U. S. Cavalry, established a splendid corps hospital at the station in the railway work-house. To this point were removed all the most aggravated cases from the hospitals of the day previous, which would bear moving, and made as comfortable as possible on straw beds.

It should have been previously noted that Col. Anderson, of the 17th Pennsylvania, reported to the command on Saturday afternoon from the trip to the rebel hospital near Spotsylvania Court House, having traveled eighteen miles to find some one hundred and fifty rebel wounded and a few of our own, all unfit to be removed. Among our wounded in this hospital was Lieut. Lytle, of the 41st Pennsylvania, cousin to Gen. Lytle. Some brass-wackers fired into the party on their return, and wounded three men. They also found the body of a stranger from the Tenth New York, lying dead, with three stacks of oats beside him, probably killed by the same parties. A captain in the 1st Pennsylvania was also reported killed on the same day, Friday, while foraging.

Capt. Eric, of Gen. Gregg's staff, visited Louisa Court House on Sunday with the 1st Maine, where he found Col. Aiken, of the 7th Georgia, lying in a house, wounded, and also in hospital, E. A. Brunker, Company E, 6th Michigan, left there by the rebels in their flight of the day before. Gen. Gregg labored under severe indisposition all day on Sunday, but remained at the station in the vicinity of the train which a portion of his command were protecting.

Col. Gregg's brigade was in the rear. Gen. Davies, with his brigade, was the rear wing, while Torbert's division was reconnoitering in advance, left there by the rebels in their flight of the day before. Gen.
