I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended to these Bitters knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Hitters is intended to benefit the sefficieted, and is "not a runs drink." Yours truly.

Although not disposed to favor or recommend Patent Mehicines in general, through district of their ingredients and effects, I yes know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofand's Germán Bitters, prepared by Br. C. M. Jackson, of this city because I was prejudiced against them for many years, under the impression that they were chiefly an alcohold mixture. I am indebted to my friend, Robert Shoemsker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by wrident relief and "estoration to a degree of beddly and mental vigor which I had not for six months before, and had almost despaired of regaining. I therefore thank God and my friend for the difference of them.
