A REVOLUTION IN MEDICINE.

What may seem almost incredible, is, that many diseases hitherto considered hopelessly incurable are frequently cured in a few days or weeks, and we cheerfully havite the investigations of the liberal minded and scientific to cures which have no parallel at the present day. Our medicine is peculiar; by it the seat of any disease is directly reached, and the equilibrium restored. Those who have suffered long from painful and obstinate diseases, those who have vainly sought relief from advertised medicines, those who cannot be cured by ether physicians—

physicians— ARE INVITED TO USE CONTTITUTION LIFE SYRUP. During the past five years we have contended with ob-acles and overcome opposition as herculean as were ever recontered by any Reformers.

Some say, "Your cures are too quick," while others doubt their permanence, and think that disease can only be cured by the "slow recuperative process of Nature." In health, the headen the

be cared by the "slow recuperative process is related."

This is our reply:

In health, the body, like a well-balanced scale, is in a state of Equilibrium. But when from any cause down goes one side of the scale, we have the effects of disease.

What is requisite is, to restore the normal balance of the

ELECTRICITY.

ELECTRICITY.

DRS. WYETH and CREAMER, Eclectic and Electropathic physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro-Magnetism, the Swedish method of Localized movement cure, a few Electic medicines when deemed necessary, and in fact all the natural carative agents that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ in the treatment of disease far superior to these generally employed by hysicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this and the fact that they confine themselves to no par icular pathy or system, they attribute their success i controlling disease.

The principal agent they employ in the treatment of disease, annely, Electricity, is an agent wonderful in its

controlling disease.

The principal agent they employ in the treatment of lisease, namely, Electricity, is an agent wonderful in its chenomena and powerful in its effects for good or ill. It phenomena and powertural in the energy of the control of an ever present, all-perveding principle, governing all things, from rolling worlds down to the invisible particles of gaseous matter. We see it in the lightning's fisak and hear the manifestations of its power in the muttering thunder. It is the cause of all decomposition, recomposition and transformation. It excites all motion. It is the exciting cause of life, growth, decay and death. It causes secretion, exerction, digestion, it lays hold of the crude food in the stomach, converts it into a state of fluidity, transmutes it into arterial blood, and sends it on ite important office of supplying nutriment according to the necessities of the body. It is the nerve vital fluid, the great agent through which the mind acts upon the bodys it is the cause of all causes except the first great cause, the infinite Mind which created it and brought it into are These may appear like mere assertions, but they as, facts admitting of strong and irresistible proof. Is it then, to be wondered at that an agent so wonderful in its phenomena, so powerful in its manifestations and so intimately connected with all the operations of the human system, should be almost absolute in its power of controlling disease? Certainly not. It is a natural sequence and follows as surely as day follows night.

Among the diseases which are found to yield readily to Electricity, in conjunction with proper adjunct treatment, may be menationed the following; Incipient Consumption, Paralysis, Elpiliptic, Hysteric and other Convulsions; Neuralgia, in its worst forms, Rhuematism, inflammatory and chronic; all diseases of the nervous system; hyspersia cured in a few treatments; all diseases of the urinary and genital organs; Female Diseases, Athms, Piles and Prolapsus Ani; Amaurosis and all kindred affections of the eye; Auretus, Strictures, all skin diseases, &c.

Persons calling will be told whether they can be benefitted and no case taken where some relief cannot be afforded. Consultation free. Counterfeits

As Kunkel's Bitter Wine of Iron is the only sure and effectual remedy in the known world for the permanent cure of Dypperis and Debtity, and as there are a number of imitations offered to the public, we would caution the community to purchase none but the genuine article, manufactured by S. A. Kunkel & Bro., and has their stamp on the top of the oork of every bottle. The very fact that others are attempting to imitate this valuable remedy, proves its worth and speaks volumes in its favor.

The Bitter Wine of Iron is put up in 75 cent and \$1 00 bottles, and sold by all respectable draggists throughout the country. Be particular that every bottle bears the se simile of the proprietor's signature.

This Wine includes the most agreeable and efficient Salt of Iron we possess; Citrate of Magnetic Oxide combined, with the most energetic of vegetable tonics, Yellow Feruvian bark. The effect in many cases of debility, loss of appetite, and general prostration, of an efficient Salt of Iron, combined with our valuable Nerve Tonic, is most happy. It angments the appetite, raises the pulse, takes off musculor flabbiness, removes the paller of debility, and gives a forid vigor to the countenance.

YOUNG MEN Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have outranced listening Senates with the thundren of the property of ders of eloquence or waked to ectasy the living lyre, may call with full confidence.

MARRIAGE. Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic dehilty, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide in his bonor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIO WEAKNESS mmediately cured, and full vigor restored. This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pratend to deny that the power of procreation is lost soomer by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, docay and death. wantinate.

Heffect that a sound mind and ody are the most necessary requisities to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pillarimage; the prospect hourly darkens to the view; the dual becomes shadowed with despair and filled with the nelancholy reflective that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, too often happens that an illtimed sense of shame or the dread of discovery deters him from applying to those who from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, flich his pecuniary substance, keep him trifling month after month, or as long as stance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with rained health to sigh over hisgailing disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptomes of this terrible diseases, such as affections of the Head, Throat, Nose, Skin, etc., progressing, with rightful rapidity till death puts a period to his dreadful sufferings by sending him to that undiscovered country from whence no traveler returns.
