my10-dem-cod ELECTRICITY. DRS. WYETH and OREAMER, Eclectic and Electropathic physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all acute and chronic forms of disease.

The reinfedial means they employ in the treatment of disease to saids of hispattam, Galvanian, Electro-Magnetism, the Swelish method of Lecalized movement cure, a few Eciectic medicines when deemed necessary, and in floot all the natural curative agents that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional akill, but they believe the remedies they employ in the treatment of disease far superior to those generally employed hyphysicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this, and the fact that they confine themselves to no par tionlar gathy or system, they attribute their success i controlling disease. Thomas C. MacDowell, office in Third St., Below Pine.

229-46m from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this, and the fact that they confine themselves to no particular sathy or system, they attribute their success! controlling disease.

The principal agent they employ in the treatment of diseases; namely, flictricity, is an agent wonderful in its phenomena and powerful in its effects for good or ill. It is an ever present, all-perviding principle, governing all things, from rolling worlds down to the invisible particles of gasecons matter. We see it in the lightning's finash and hear the manifestations of its power in the muttering thunder. It is the cause of all decomposition, recomposition and transformation. It extites all motion. It is the crude food in the stomach, converts it into a state of fluidity, transmutes it into arterial blood, said sends it on its important office of shiplying nutrisent according to the necessition of the body. It is the nerve vital fluid, the great agent through which the mind acts upon the bodys it is the cause of all causes except the first great cause, the Infinite Mind which created it and brought it into use these may appear like mere assertions, that they as facts admitting of strong and irresignible proof. Is it then, to be wondered at that an agent so wonderful in its phenomena, so powerful in its manifestations and so intimate by connected with all the operations of the human system, should be almost absolute in its power of controlling disease? Certainly not. It is a natural sequence and follows as surely as day following; incipient Consumption, Paralysis, Epilipite, Hysteric and other Convulsions, Neuralgia, in its worst forms, Rhuematism, inflammatory and chronic; all diseases of the nervous system. Dyspepesta cured in a few treatments; all diseases of the urinary and genital organis; Formale Diseases, Asthma, Piles and Prolapsus Am; Amaurosis and all kindred affections of the eye; Auretus, Strictures, all skin diseases, &c.
