ad the following testimonials from some

of our eminent clergymen:

HARRISBURG, Feb. 8th, 1864.

C. A. BANNVART—Dear Sir: I have used Brown's Bronchial Troches, Wistar's Lozenges and other preparations for hoarseness and throat troubles, and in comparison with them all, can cheerfully commend your own as a most admirable specific for public speakers and singers, in cases of hoarseness, coughs and colds. I have found them serving in time of need, most effectually.

Yours truly, T. H. ROBINSON,
Pastor of N. S. Presbyterian Church.

I agree with Mr. Robinson as to the W. C. CATTELL.

Late Pastor of O. S. Presbyterian Church. HARRISRIEG, Jan., 1.64.

To C. A. BANNVART-Dear Sir: In the habit of speaking very frequently, and in places where the vocal organs are very much taxed I have found the need of some gentle expectorant, and that want has been supplied in your excellent Troches. I consider them very far superior to any

Lozenges that I have ever used, in removing speedily that huskiness of the voice arising from its too frequent use, and impairing the effectiveness of the delivery of public at dresses. Yours, &c.,
JNO. WALKER JACKSON.

Pastor of the Locust St. Methodist Church.

To O. A. BANNVABT-Dear Sir: Having used your Troches, I am free to say they are the best I have ever tried and take great pleasure in recommending them to all persons afflicted with sore throat or huskiness of voice arising from public speaking or singing.

In June, 190,000 feet, The lumber is pronounced by the Baltimore Inspector to be the best delivered in that city this summer. The Blandy Engine has done well, and I can now say it is a perfect success. Yesterday, the 29th of June, we cut 16,000 feet Of cak.

\* \* I have sawed on my BLANDY MILL 1, 250, 300 feet of lumber in the last seven months, which included the winter months, often working only seven hours a day, and wholly foce out a part of the time. This is more lumber than any single mill has cut in the same time within a hundred miles of this place.

As we had never tried how much we could cut on it in a day, we concluded we would do so the last day we run it, prior to delivery to new owner. I measured it as if going to sell it, and found it was 12,104 feet, mostly cut from logs 8 to 12 feet long, small and very hard. The BLANDY MILL is the Mill for me, and everybody else that knows anylhing about them, in my opinion.
