MEDICAL.

DR. WYTHE and CREAMER, Electro-Bio-Electricians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro-Magnetism, the Swedish method of Localized movement cure, a few Electric modalities when deemed necessary, and in fact all the natural curative agents that may successfully be brought to bear upon the disease.

They do not wish to be understood as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ in the treatment of disease far superior to those generally employed by physicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system.

THE principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomena and powerful in its effects for good or ill. It is ever present, all-pervading principle, governing all life and animation, and it is the exciting cause of all the vital processes of the human system.

It causes secretion, excretion, digestion, it lays hold of the crude food in the stomach, converts it into a state of fluidity, transmits it into arterial blood, and sends it on its important office of supplying nutriment according to the necessities of the body.

It is the cause of all decomposition, decay and death. It causes secretion, excretion, digestion, it lays hold of the crude food in the stomach, converts it into a state of fluidity, transmits it into arterial blood, and sends it on its important office of supplying nutriment according to the necessities of the body.

Among the diseases which are found to yield readily to Electricity, in conjunction with proper adjunct treatment, may be mentioned the following: Incipient Consumption, Paralysis, Epilepsy, Hysteria and other Convulsions; Neurosis in its worst forms; Rheumatism, inflammatory and chronic; all diseases of the nervous system; lypessia cured in a few treatments; all diseases of the urinary and genital organs; Female Diseases, Asthma, Pleurisy and Bronchitis; all kinds of kindred affections of the eye; Auricular Strictures, all skin diseases, &c.

Persons calling will be told whether they can be benefited and no case taken where relief cannot be afforded. Consultation free. Office, South Second street, below Chestnut, Harrisburg, Pa. Office hours from 8 to 12 A. M., 1 1/2 to 6 and 7 to 9 P. M.

ALEX. R. WYTHE, M. D., DR. J. MILTON CREAMER.

MEDICAL.

DR. JOHNSON, BALTIMORE. LOCK HOSPITAL, HAS discovered the most certain, speedy and effectual remedies in the world for DISEASES OF IMPRUDENCE. RELIEF IN SIX TO TWELVE HOURS. NO MERCURY OR NOXIOUS DRUGS. A Cure Warranted, or No Charge, in from One to Two Days.

Weakness of the Back, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotence, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret solitary practices which destroy the victims than the song of Sirens to the Mariners of Ulysses, blight the most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN. Especially who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have enriched illustrious Senates with the treasures of eloquence or walked to ecstasy the living lyre, may call with full confidence.

MARRIAGE. Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured. He who places himself under the care of Dr. J. may rely on his honor as a gentleman, and confidently rely upon his skill as a Physician.

ORGANIC WEAKNESS. This distressing affection, which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to neglect the salutary means of restoring the system to its normal state, and the consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental faculties weakened, loss of precocious power, irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.
