A TTORNEY-AT-TIAW.—Patriot and Union building, Harrisburg. Strict attention paid to all legal basiness. Military claims collected. DRS. WYETH and CREAMER, Eclectic and Electropathic physicians, respectfully offer their professional services in all the various branches of the profession, for the treatment of all actic and chronic learners of the profession. BALTIMORE the profession, for the treatment of all acute and chronic forms of disease.

The remedial means they employ in the treatment of disease consist of Magnetism, Galvanism, Electro-Magnetism, the Rwedish method of Localized movement cure, a few Eclectic medicines when deemed necessary, and in fact all the insiaral curative agents that may successfully be brought to bear upon the disease.

They do not wish to be understeed as arrogating to themselves any superiority of professional skill, but they believe the remedies they employ in the treatment of disease far superior to those generally employed byphysicians, from the fact that they act in perfect harmony with the laws governing and controlling the human system. To this, and the fact that they confine themselves to no particular softsy or system, they styribute their success i controlling disease.

The principal agent they employ in the treatment of LOCK HOSPITAL Thomas C. MacDowell, orrigen THEO ST. BELOW PINE WHOLESALE AND RETAIL HAS discovered the most certain, speedy A LL manner of Military Claims promptly attended to, and claims collected against the General or State Governments, either in Congress, the Court of Claims at Washington city, or at Harrisburg, without unpaccessary delay, and on moderate terms. SMITH, NO MERCURY OR NOTIOUS DRUGS this, and the flact that they confine themselves to no particular safety or system, they strivite their success i controlling disease.

The principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomen and powerful in its affects for good or ill. It is an ever present, all-perviding principle, governing all things, from rolling worlds down to the invisible particles of gaseous matter. We see it in the lightning's flash and hear the manifestations of its power in the mutering thunder. It is the cause of all decomposition, recomposition and transformation. It excites all motion. It is the exciting cause of life, growth, decay and death. It causes secretion, exsected, digestion. It lays hold of the crude food in the stomatch, converts it into a state of fluctidity, transmutes is into ariserial blood, and sends it on its important office of supplying nutriment secording to the necessities of the body. It is the nerve vital fluid, the great agent through which the mind acts upon the bodys it is the cause of all causes except the first great cause, the Infinite Efind which created it and brought it into use These may appear like more assertions, but they as facts admitting of strong and irresistible proof, is it then, to be wondered at that an agent so wonderful in its phenomen, so powerful in its manifestations and so intimately connected with all the operations of the human system, should be almost absolute in its power of controlling disease? Certainly not. It is a, matural sequence and follows as surely as day follows night.

Among the diseases which are found to yield readily to Electricity, in conjunction with proper adjunct treatment, may be mentioned the following; Incipient Consumption, Paralysis, Ripilipito, Hysteric and other Convulsions; Neuralgia, in its worst forms, Rhuematism, inflammator, and chronic; all diseases of the arinary and genital organs; Female Diseases, Asthma, Piles and Frolspein Ami, Amarrosis and all kindered affections of the eye; A ATTORNEY-AT-LAW NO. 19 A Ours Warranted, or No Charge, in from One AS removed his Office from Third to Wal-nut street next to the Frison.
