The principal agent they employ in the treatment of disease, namely, Electricity, is an agent wonderful in its phenomena and powerful in its effects for good or ill. Weakness of the Back, Affections of the Kidneys and Biadder, Involuntary Discharges, Impotency, General Debility, Nervousness, Depopsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity Tremblings, Dismoss of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver Lungs, Stomach or Bowels—those terrible disorders arising from the Solitary Habits of Youth—those secret and solitary practices more fatal to thoir victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN Especially, who have become the victims of Solltary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, 'who might otherwise have entranced listening Senates with the thunders of eloquence or waked to ectasy the living lyre, may call with full confidence.

MARRIAGE. MARKHAUF.

Married persons, or Young Men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may re ligiously confide in his honor as a gentleman, and confidently rely upon his skill as a Physician. ORGANIC WEAKNESS

mmediately cured, and full vigor restored.

This distressing affection—which renders life miscrable and marriage impossible—is the penakly paid by the victims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspensia, palpitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, consumption, decay and death.

DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds he has imbited the seeds of this painful disease, too often happens that an illtimed sense of shame or the dread of discovery deters him from applying to those who from education and respectability, can alone befriend him He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despair leave him with ruined health to sigh over hisgalling disappointment, the smallest fee can be obtained, and in despair leave him with ruined health to sigh over his galling disappointment, or, by the use of the deadly poison, Mercury, hasten the constitutional symptem softhis terrible disease, such as affections of the Head.
