MEDICAL.

ELECTRICITY.
DRS. WYETH and CREAMER, Eclectic
and Electro-physicians, respectfully offer
their professional services in all the various branches of
the profession, for the treatment of all acute and chronic
forms of disease.
The remedial means they employ in the treatment of
disease consist of Magnetism, Galvanism, Electro-Magnet-
ism, the Swedish method of Localized movement cure, a
few Eclectic medicines when deemed necessary, and in fact
all the natural curative agents that may successfully be
brought to bear upon the disease.
They do not wish to be understood as arrogating to
themselves any superiority of professional skill, but they
believe the remedies they employ in the treatment of dis-
ease far superior to those generally employed by physicians,
from the fact that they are in perfect harmony with the
laws governing and controlling the human system. To
this, and the fact that they combine themselves to no par-
ticular party or system, they attribute their success in
controlling disease.
The principle agent they employ in the treatment of
disease, namely, Electricity, is an agent wonderful in its
phenomena and powerful in its effects for good or ill. It
is an ever present, all-pervading principle, governing all
things, from rolling worlds down to the variable particles
of gaseous matter. We see it in the lightning's flash and
hear the manifestations of its power in the rattling thun-
der. It is the cause of all kindred affections, recomposi-
tion and transformation. It excites all motion. It is the
exciting cause of life, growth, decay and death. It
causes secretion, excretion, digestion. It lays hold of the
crude food in the stomach, converts it into a state of fluid-
ity, transmits it into arterial blood, and sends it on its
important office of supplying nutriment to the various
members of the body. It is the nerve vital fluid, the
great agent through which the mind acts upon the body.
It is the cause of all disease except the first great cause,
the infinite mind which created it and brought it into ex-
istence. These may appear like mere assertions, but they are
facts admitting of no denial. It is a fact, that as a
wonderful agent, it is a wonderful power in the human sys-
tem, should be almost absolute in its power of controlling
disease. Certainly not. It is a natural sequence and
follows as surely as day follows night.
Among the diseases which are found to yield readily to
Electricity, in conjunction with proper adjunct treatment,
may be mentioned the following: Incipient Consumption,
Paralysis, Epilepsy, Hysteria and other Convulsions;
Neuritis, in its worst form, Rheumatism; inflammatory
and chronic; all diseases of the nervous system; Typho-
id; all diseases of the urinary and genital organs; Female Diseases, Asthma, Piles and
hemorrhoids; all diseases of the skin, such as Scabies,
Eczema, etc. Persons calling will be told whether they can be
benefited and no case taken where some relief cannot be
afforded. Consultations, Free. Office, South Second street,
below Chestnut, Harrisburg, Pa. Office hours from 8 to
12 A. M., 1 1/2 to 6 and 7 to 9 P. M.
my10-4m-4d

DR. JOHN L. LYON'S
FRENCH PERIODICAL DROPS,
THE GREAT
FEMALE REGULATOR,
Are the only known remedy that will successfully and
necessarily regulate the female system, removing
all irregularities, and producing health, vigor and
strength.
Come to you as a blessing, for it is not prevention better than
cure?
If regularly taken, it is a certain preventive, and will
save you much pain and many hours of suffering.
Have you been afflicted for many years with complaints
incident to the sex, that have baffled the skill of physi-
cians, and are hurrying you on to an early grave?
my10-4m-4d

MEDICAL.

DR. JOHNSON,
BALTIMORE
LOCK HOSPITAL,
HAS discovered the most certain, speedy
and effectual remedies in the world for
DISEASES OF IMPUDENCE.
RELIEF IN SIX TO TWELVE HOURS.
NO MERCURY OR NOXIOUS DRUGS.
A Cure Warranted, or No Charge, in from One
to Two Days.

Weakness of the Back, Affections of the Kidneys and
Bladder, Involuntary Discharges, Impotency, General Be-
livity, Nervousness, Dyspepsia, Languor, Low Spirits,
Constipation of Ideas, Palpitation of the Heart, Trembling,
Trembling, Dimness of Sight or of the Head, Headache,
Head, Throat, Nose or Skin, Affections of the Liver,
Lungs, Stomach or Bowels—those terrible disorders
arising from the Solitary Habits of Youth—those secret
and solitary practices more fatal to their victims than the
saw of Syrene to the Mariners of Ulysses, blighting their
most brilliant hopes or anticipations, rendering marriage,
etc., impossible.

YOUNG MEN
Especially, who have become the victims of Solitary Vice,
that dreadful and destructive habit which annually sweeps
to an untimely grave thousands of Young Men of the
most exalted talents and brilliant intellects, who might
otherwise have entered listening Senators with the thun-
ders of eloquence or walked to ecstasy the living lyre, may
call with full confidence.

MARRIAGE.
Married persons, or Young Men contemplating marriage,
being aware of physical weakness, organic debility, deforma-
tion, etc., should be cured.
He who places himself under the care of Dr. J. may re-
ligiously confide in his honor as a gentleman, and con-
fidently rely upon his skill as a Physician.

ORGANIC WEAKNESS
Immediately cured, and full vigor restored.
This distressing affection—which renders life miserable
and marriage impossible—is the penalty paid by the
victim of improper indulgence. Young persons are too ap-
parently ignorant of the nature of this disease, and the con-
sequences that may ensue. Few, who understand the
subject will pretend to deny that the power of procrean-
tion is lessened by those falling into improper
habits than by the prudent. Besides being deprived the
pleasures of healthy offspring, the most serious and de-
structive symptoms to both body and mind arise.
The system becomes deranged, the physical and mental
functions weakened, loss of procreative power, nervous
irritability, dyspepsia, palpitation of the heart, indigestion,
constipation, debility, a wasting of the frame, cough, con-
sumption, decay and death.

DR. JOHNSON,
Member of the Royal College of Surgeons, London, gradu-
ate from one of the most eminent colleges in the United
States, and the greater part of whose life has been spent
in the hospitals of London, Paris, Philadelphia and else-
where, has effected cures of the most astonishing nature
that were ever known; many troubled with ringing in the
head and ears when asleep, great nervousness, being
alarmed at sudden sounds, bashfulness, with stammer-
ing, attended sometimes with derangement of mind were
cured immediately.

TAKE PARTICULAR NOTICE.
These are not the tales and melodious songs pro-
duced by early habits of youth, viz: weakness of the back
and limbs, pains in the head, dimness of sight, loss of
prospect and enjoyment of life, by the consequence of
grime; the prospect hourly darkens to the view; the
mind becomes shadowed with despair and filled with the
melancholy reflection that the happiness of another be-
comes blighted with their own.

YOUNG MEN
Who have injured themselves by a certain practice in-
dulged in when alone, a habit frequently learned from
evil companions, or at school, the effects of which are
nightly felt, even when asleep, and if not cured, renders
marriage impossible, and destroys both mind and body
shoulds, etc., immediately.

MARRIAGE.
Reflect that a sound mind and body are the most necessary
qualities to promote conjugal happiness. Indeed, with-
out these, the journey through life becomes a weary and
grimace; the prospect hourly darkens to the view; the
mind becomes shadowed with despair and filled with the
melancholy reflection that the happiness of another be-
comes blighted with their own.

DISEASE OF IMPUDENCE.
When the misguided and imprudent votary of pleasure
has indulged in the most shameful and disgraceful prac-
tices, and has incurred the most dangerous and distressing
disease, he often happens that an untimely sense of shame or
fear of discovery deters him from applying to those who
from education and respectability, can alone befriend him
in his distress, and he is left to the consequences of a
disease which he has incurred, and he is left to the conse-
quences of a disease which he has incurred, and he is left to
the consequences of a disease which he has incurred, and he
is left to the consequences of a disease which he has incur-
red, and he is left to the consequences of a disease which he
has incurred, and he is left to the consequences of a disease
which he has incurred, and he is left to the consequences of
a disease which he has incurred, and he is left to the con-
sequences of a disease which he has incurred, and he is left
to the consequences of a disease which he has incurred, and
he is left to the consequences of a disease which he has in-
curred, and he is left to the consequences of a disease which
he has incurred, and he is left to the consequences of a dis-
ease which he has incurred, and he is left to the conse-
quences of a disease which he has incurred, and he is left to
the consequences of a disease which he has incurred, and he
is left to the consequences of a disease which he has incur-
red, and he is left to the consequences of a disease which he
has incurred, and he is left to the consequences of a dis-
ease which he has incurred, and he is left to the conse-
quences of a disease which he has incurred, and he is left to
the consequences of a disease which he has incurred, and he
is left to the consequences of a disease which he has incur-
red, and he is left to the consequences of a disease which he
has incurred, and he is left to the consequences of a dis-
ease which he has incurred, and he is left to the conse-
quences of a disease which he has incurred, and he is left to
