LAST evening the colored people of this city held a meeting to elect delegates to the National Convention, which meets in Syracuse, N. Y., on the 4th of October. The following persons were chosen delegates, viz: Thomas Chester, O. C. Hughes, and Rev. J. A. Nelson.

The decline in gold has caused prices to fall to some extent. Some of our merchants offer the best calicoes at 25 cents, per yard, with a corresponding decrease in other cotton goods. At market, this morning, butter was freely offered at 35 cents, eggs at 20 to 25c., &c. Fine apples were sold at 80c. per bushel.

CANCELLED STAMPS .- The Deputy Commis- Alex Woodward. sioner in the Internal Revenue Department. at Washington, says, in answer to an inquiry, stamps which may have been cancelled by mistake or otherwise, without having been used, can be exchanged by sending them to the office of Internal Revenue. But, if dated and cancelled for one instrument, they can-not be removed and affixed to another instrument, although the former instrument may not have been used.

THE Philadelphia papers announce the arrival there of the 187th Pennsylvania regiment, which has been in service on the line of the Weldon Railroad. The 187th has seen hard service, and will doubtless be placed on provost duty, for which service it was re-cruited. The regiment has been ordered to Camp Cadwalader. The Bulletin says that as the regiment passed Eleventh and Chestnut streets, the men caught sight of they Demoeratic Committee Headquarters, and shouted John Roth, "played out!" after which they John Berry,... gave cheer on cheer for Lincoln and John-

While nearly all the hundreds of miscellaneous stocks sold in the New York market have been declining for several weeks, (in many instances twenty-five per cent.) While the Government leeds the people's money, and pays for it liberally, it offers the highest possible consideration besides and that is carful to besides and that is carful. erally, it offers the highest possible considera-tion besides, and that is, safety.

These was another large audience at Brant's Hall last evening, when the great drama, PEEP O' DAY, was repeated. To say that all were delighted would but faintly convey an idea of the satisfaction rendered. Every part was truly rendered, and the scenery, costumes and original music—all tended to add to the interest of the occasion. To-night the same-play will be repeated for the third and last time. We would advise all who have not been present this week, to go this evening. Pro-edre tickets for reserved seats at Banavart's John W Swartz, susce

THE SUBSTITUTE BROKERAGE BUSINESS. The draft has given an impetus to the brokerage business and already accounts of the most nefarious frauds have been communicated to us. The substitute brokers in this city have entered into certain fraudulent contracts with men who are willing to go into the army, and whom these sharks hope to run up on citizens; wanting substitutes. If this business was fair and legitimate, if the substitute thus held, as it were, for barter and sale, received even the half of the money paid for his sub-stitution, we would not write or print a word of complaint. The facts of the case, however, are so utterly disgraceful, and the robberies committed in this connection so boldly criminal, that we are compelled, in justice to the interests of the poor man, and the cause of will address the people of Harrisburg, on the great issues involved in the struggle to put down the Slave-holder's rebellion, those desiring to go as substitutes for those drafted, are, in seven cases out of ten, receiving the largest share of the money involved in such transactions. These fellows, as we have already written, have made agreements with substitutes whom they hope to rob, while they also hope to impose villainously

upon drafted men.
We are not aware that the commandant of this post has any power to interpose in this business, but we desire, as far as we can, to protect the men who want to go as substitutes. All such need not go very far to find those who desire their services for themselves, and who will pay them in full instead of dividing the amount of money involved in such substitution: The man who perils his life deserves all the money paid for such a transaction. Let these them who want substitutes tion. Let those, then, who want substitutes, go into the market with the money in their bands, and let those who desire to offer for substitution keep their rayes open to the frauds of the brokers, and the business of these sharks will soon be broken up. In the meantime, however, we do hope that some steps will be taken to prevent. Harrisburg from being disgraced by this substitute brokerage business in the future as it was in the A Edwir John

COPPERHEAD VANDALISM.—The Republican says that the long talked of draft resistance was inaugurated on Tuesday evening last in Whitely township, Greene county. The employees of the Government went to that township and served some notices on Thursday ship and served some notices on Thursday and put up for the night at Mr. Lisbon Stag-gers'. During the night some cowardly pol-troons and miscreants stole their horses from the stable, cut their saddles and bridles into shreds and mutilated the horses in a most barbarous and shocking manner, shaving their main, and cutting their ears and tails off. This, then, is the kind of warfare for which they have made such great preparations and of which they have boasted so much—a warfare on dumb brutes—the work of cowards and dastards, too base and niggardly to be called vandalism. The assassin, the cut-throat and the land-pirate are gentlemen to these miserable wretches. Rebels in arms spurn to stoop to such mean, contemptible outrages. It is left for the copperhead sneaks to be guilty of perpetrating this crowning deed of infamy. And yet they are good McClellan men! Loyal peace shriek-"Constitutional" Democrats!

In a Bad Fix. - Under this head the Read ing Journal gives the following account of a scene that transpired on the railroad between

Reading and Harrisburg: In the passenger train coming down from Harrisburg the other day, two men got into the cars at one of the stations. One of them was for McClellan—the other for Lincoln. In the course of an argument, Mac's man abus-ed President Lincoln, and said he was a worse traitor that Jeff. Davis. There happened to be a squad of Union soldiers aboard, who fired up at once. One of them, acting as spokesmen for the rest, approached the Cop. and said, "Sir, you must leave this car. We won't travel with such a traitor." They were for putting him out instanter, but the Conduc tor coming along said, "this man has paid his fare to a station or two further on, and although I hold him in the same contempt that you do, I requestthat you will let him proceed to his destination." The soldiers perceiving the justice of the appeal, consented on condition that the Cop. should hold his tongue for the balance of the trip. This he did, and he left the cars a wiser, if not a more patriotic man than when he entered them.

BILLY PORTER, Business Agent. U. S. 7-30 LOAN. THE Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15th, 1864, with semi-annual interest

at the rate of seven and three-tenths pertent, per annum—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple of fifty

dollars. The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be prepared.

As the notes draw interest from August 16, persons making deposits subsequent to that date must pay the interest accrued from that of note to date of deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will, be allowed a commission of one

quarter of one per cent. Special Advantages of this Lean. It is a National Savings Bank, offering a higher rate of interest than any other; and the best security. Any savings bank which pays its depositors in U. S. Notes, considers that it is paying in the best circulating medium of the country, and it cannot pay in anything batter, for its own assets are either in government securities of in notes or bonds payable in government paper.

ernment paper.

It is equally convenient as a temporary or permanent investment. The notes can always be sold for within a fraction of their face and accumulated inferest, and are the best security with banks as collaterals for dis-

There is crected on the premises a is not less than nine per cent. premium, and be fore the war the premium on six per cent. U S. stocks was over twenty per cent. Its Exemption from State or Municipal Taxation.
But aside from all the advantages we have

enumerated, a special act of Congress sciences all bonds and Treasury notes from local toxistion. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the county. It is believed that no securities offer so great inducements to lenders as those issued great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of payate parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most

liberal terms for its loans, it believes that the very strongest appeal will be to the loyalty and patriotism of the people. Up to the 24th of September, the subscrip-tions to this loan amounted to over
