YOUNG MEN Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of Young Men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senstes with the thunders of cloquence or waked to octasy the fiving lyra, may call with full confidence.

a OR GANIC WEAKNESS mmediately deried, and full vigor restored.

This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper, indillegence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sconer by those falling into improper habits than by the prudent. Essides being deprived the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous furthestiffly, dyspepsia, palpitation of the heart, indigestion, constitution decay and deeth.

MENTALLY.—The Certal effects on the mind are much to be dreaded—loss of memory, confusion of idear, depression of spirits, evil forebodings, strivision to society, self distrust, love of solitude, timidity, &c., are some of the evils produced.

Who have injured themselves by a certain practice in vided in when alone, a habit frequently learned from ovil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured renders marriage unpossible; and destroys both mind and be dy, shouldapply in mediately.

Indeed, without these, the joining through life becomes a weary pid grimage; the prospect hourly darkens to the view; the mind becomed shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

DISEASE OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds he has imblied the seeds of this painful disease, too often happens-that an illtimed sense of shame or the dread of discovery deters him from applying to those who from education and respectability, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, filch his pecuniary substance, keep him trifling month after month, or as long as the smallest fee can be obtained, and in despar leave him with ruined health to sigh over his galling disappointment, or by the use of the deadly poison. INDORSEMENT OF THE PRESS.

The many thousands cured at this institution year after year, and the numerous important surgical operations performed by Dr. Johnson, witnessed by the reporters of the Sun, Clipper, and many other papers, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.
