This distrossing affection—which renders life misorable and marriage impossible—is the penalty paid by the vio-tims of improper indulgence. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that under-stands the subject will pretend to deny that the power of procreation is lost sconer by those falling into improper habits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and de-atructive symptoms to both body and mind arise. The system becomes deraaged, the physical and mental functions weakened, loss of procreative power, nervous irritsbilly, dyspepsia, palpitation of the beart, indigestion, constitutional debility, a westing of the frame, wough, con-sumption, decay and death.
