TRIAL OF HOME REBELS. Conviction and Sentence of Three Con-

We have heretofore alluded to the trial nov in progress of the several persons charged with obstructing the operations of the Government in Columbia county, but in order to avoid the charge of attempting to influence the minds of those who were charged with the important duty of trying a fellow being, we refrained from noticing the affair, while our neighbor was constantly harping about the innocence of these home rebels. The trial of three has now been concluded. Their case has been impartially examined by an hon est and upright tribunal. They have been de fended by such counsel as they desired, who exhausted all the legal ingenuity at their comexhausted all the legal ingenuity at their demmand to produce a different result; but the evidence produced was so strong that no honest minded man could come to a different of the first specification of the first charge, not guilty; of the third specification of the first charge, not guilty; of the first charge, guilty; of the specification of the second charge, guilty; in manner and form as they stood "Guilty in manner and form as they stood indicted."

gether. CONDITION OF PRISONERS. While most of the prioners seem to be intel ligent men, yet it is evident that they have been led astray by the copperhead press and political demagogues who have taught them to resist the Government that afforded them protection from their infancy, and when they o'clock with resounding cheers for the Kearwere courageous enough to obey the mandates issued by them they were the first to desert them in the hour of need. The eminent Co lumbia county lawyers were not to be found when their presence was desirable. No, not even a drop of sympathy has been received by the prisoners from those who taught them to be rebels to the Government. We pity their condition.

Important Rumor from Washington.

MOVEMENTS OF GEN, SHERMAN'S ARMY Report of a Prisoner Escaped from Georgia.

The Prisoners Removed from Andersonville to r o w Miller, Georgia.

THE ROAD FROM ATLANTA TO SAVANNAH

WASHINGTON, Nov. 15. The city is much excited this afternoon by ramors from the West, in the reneate General Sherman's late myster edge up transports.

The fall in gold to day may be connected

with these reports. It is stated that Sherman had moved direct-

y east and had occupied Augusta. If this be so, it would appear that Charleston is probably his destination.

WASHINGTOS, Nov. (15.—Alfred Onderkirk, of the 1st D. C. Cavalry (Col. Baker's,) who was captured in the vicinity of Richmond and Danville Railroad, on the 13th of May, has made his escape and crived in the site. made his escape and arrived in this city. He was confined at Andersonville, Georgia, until Sherman took Atlanta, when the prisoners at Andersonville were transferred to Savannah, Charleston, and other points.
Onderkirk was sent to Sayannah and kept

Undersite was sent to Sayannah and kept there until news was received that Hood was operating in the rear of Sherman, when the rebels took courage, and transferred the prisoners at Sayannah to Miller, Georgia, which, as being equidistant from Sayannah, Milledge, ville and Augusta, and a point on the leading railroad connections, has been selected as the

main quarters for Union prisoners, and some twenty-five thousand have been placed there. When about eleven miles from Savannah, on the way to Miller, Onderkirk jumped from the cars and succeeded in making his way on foot through two hundred and seventy-eight miles of hostile country, to Sherman's lines at Atlants. He says Savannah was so scantily guarded by Confederate troops that every third night details of Marines from the confederate vessels in Savannah harbor, were obliged to go on shore to do guard duty over the Union soldiers. The defences of Savannah are mostly on the coast side, and on the northwest or land side, the defences are not only very slight, but the flat country affords no defensible points. The roads generally are good from Atlanta in the direction of Savannah, and the country for the most part level. The streams also are easily fordable, with low banks for the most part. The simplies of sweet potatoes, corn and peas in the fields would be abundant for the temporary support of a large army in passing through that country.

Miller, Georgia, is on the direct line of rail-

road connection between Atlanta and Savan-

Harrisburg Gas Works.

HARRISBURG, Nov. 12, 1864.

N AND after the first day of December this company will be under the necessity of increasing the price of Gas to \$3 50 per 1,000 cubic feet. There are many reasons which compel this company to make the increase; and in order to inform the public of the cause which compels them to do so, we beg leave to mention the following facts, viz:

Coal; the article most extensively used for the manufacture of Gas, was formerly purchased for \$3 85 per ton now the same article costs \$9 45. Lime, another item, was formerly purchased at 9 cents per bushel; now we pay 20 cants.

formerly purchased at 2% cents extensively used were formerly purchased at 2% cents per pound; now we pay 6

merly purchased at 2% cents per pound; now we pay 6 cents.

Pipe of every description has increased in price more than one hundred per cent.

Pire brick, meters, roain, &c., have advanced more than two hundred per cent.

Labor and everything connected with the manufacture of Gas has increased more than one hundred per cent, and the company is therefore reluctantly compelled to add 50 cents to the price of Gas per 1,000 cubic feet, on and after the above mentioned day. In addition to the above enormous increase of materials and labor, the company pays a tax of 20 cents on every 1,000 feet of Gas manufactured, to the United States Government, in addition to the usual license. The last Legislature has also laid a tax of tense Fer cent in addition to the taxes heretofore paid on capital stock and dividends. These increased taxations on capital stock and dividends. These increased taxations alone amount to more than one half of the increase per 1,000 feet.
