ORGANIO WEAKNESS nuncdiately cured, and full vigor restored. This distressing affaction—which renders life miserable and marriage impossible—is the penalty paid by the vic-tims of improper indulgence. Young persons are too apu to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that under-stands the subject will pretend to deny that the power of procreation is lost sconer by those falling into improper labits than by the prudent. Besides being deprived the pleasures of healthy offspring, the most serious and de-structive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous pritability, dyspepsic, paphitation of the heart, indigestion, constitutional debility, a wasting of the trane, cough, con-sumption, doway and death.
