RENOVO has been selected as the site for the criten-sive abeps for building and repairing the rolling stock of the Philadelphia and Erie Railroad, of which the Penna. The town is beautifully stated on the margin of the west branch of the Susquehana river, in the county of Clinton, and is surrounled by romantic and altractive scenery. The Railroad Company are erecting an immerse Locomotive Round House, Repair Shops for Cars and Engines. Car Building shop, Iron and Brass Furnaces, and Dwellings for the Superintendent and other officera. A splendid Hotel, with which are connected arrangements for feeding passengers on the most extensive scale, has been commenced. All these buildings are of the most permanent and subclantial character, of brick and iron, and are in accordance with the immense business anticipated pn the completion of this great Railroad, so long anxiously looked for, and now an accomplished fact—the last rail connecting the Susquehanan river with Lake Erie having been lad on Saturday, July 24, 1864.
 A Company has been chartered by the Legialature for supplying the town with gas and water, and the water works are nearly completed. Churches will be erected immediately. The situation of RENOVO is entirely healthy, and as the dimensions of the town are limited by nature, the value of the lots must appreciate greatly in the course of a few years.
 EMPORIUM will certainly be the most important commercial point between Lock Haven and Warren, a distance of 166 miles. It is near the earter of the railroad, 47 miles west of Renove, 139 miles from Stubury and 149 miles from Strie. It is near the denier of the railroad, 57 miles of a few years.
