HARRISBURG, PA. MONDAY. EVENING, DECEUBER 12 1864.

Pennsylvania Soldiers, late Prisoners in the South, Now at Annapolis. Gov. Curtin dispatched Surgeon General Phillips to Annapolis, on Saturday evening last, to look after the welfare and supply the wants of the Pennsylvania soldiers, late prisoners in the South, who have just been exchanged and returned within our lines. Surgeon Gen. Phillips was dispatched by Gov. Curtin to use his utmost endeavors in succoring the poor fellows who have suffered such barbarous treatment at the hands of the rebels, and to report at once to the State authorito promote the success of his mission. Those having relatives and friends among the released Union prisoners now at Annapolis may rest assured that whatever the authorities of

will be promptly and cheerfully performed. The Contest For the Certificate of Elec-tion in the Sixteenth Congressional Dis-trict.

Pennsylvania can do to relieve our heroes

Messrs. Koontz and Coffroth, the Union and the Copperhead candidates for Congress, in the XVIth Congressional District, appeared before Gov. Curtin this morning, for the purdose of discussing the right to the certificate of election in that district. Two returns having been made, it now depends upon prima facia evidence as to which is genuine. The Governor postponed his decision in the case until Wednesday next, and in the meantime the contestants have proceeded to take evidence as to the legality of the returns now on file in the State Department. There is no doubt, whatever, that the facts will prove the validity of the returns electing Gen. Koontz, in which event the Governor will of course embrace his name in the Proclamation declaring the election of Congressmen in this State.

Advertise. All seasons are appropriate to the merchant and manufacturer for advertising. If business is dull, the sensible man advertises. If business is buoyant and brisk, the only way to secure a profitable portion, is to advertise. The secret of every man's success in trade-all the great fortunes amassed in mercantile pursuits and mechanical enterprises, are directly due to the liberality with which such merchants and manufacturers advertised. Without the great advertising medium of the countrywithout the facilities afforded by the numerous journals now published, the business of the nation would soon dwindle and become utterly worthless. The intelligent business man understands this fact, and exhibits his appreciation of its advantages by the extent of his advertising.

THE PENNSYLVANIA TELEGRAPH is now the dium outside the two great cities flourishing on the Western and Eastern border of the State. Its morning and evening editions reach a class of people whose patronage is worth seeking, and whose disbursements for domestic and general business purposes, can easily be commanded by those willing to advertise. Our morning edition, alone, as it is circulated in the adjoining and counties beyond, is equal to almost any of the local papers published in such localities-and when it is considered that this is a daily issue, it will at once be seen that the advertiser who seeks our columns, is sure of deriving the largest bene-

fit from their use. We mention these facts for the benefit of our local tradesmen, as well as for the information of the merchants of New York, Philadelphia and Baltimore. Our morning edition now circulates largely in all the towns along the Pennsylvania, the Labanon Valley, the Northern Central and the Cumberland Valley railroads. These roads in this vicinity, traverse the richest portion of the State. Business men would do well to remember these facts. At this season, particularly, the great firms of the commercial cities, desirous of securing the retail trade of the localities traversed by these roads, should take advantage of the facilities to do so afforded by the TELEGRAPH: while the retail traders, who seek a fair share of the business of the holidays, can 'only realize their desires by liberally advertising.

All advertisements appear in both editions This alone is an important fact.

OUR ALLUSION to the pitiful apology for the utter repudiation and defeat of the copperheads at the late election, put forth in an address by C. L. Ward, the chairman of the treason-sympathizing, dough-face State Central Committee, has excited the rancor and the spite of one of the slowly expiring organs of that faction. Of course we were not astonished that such should have been the effect of our article. It is as much the business of that decaying sheet to vituperate its opponents as it is the peculiar faculty of Mr. C. L. Ward to falsify all he touches. These qualities are as peculiar to the journal and the individual in question as stench to manure. As for Mr. Ward, we owe him no malice and seek to visit him with no resentment. If he makes an ass of himself in his old days, it is the firing was heard in the direction of Savannah fault of his nature and not of his education. He knows that he is doing wrong, but he that Savannah must fall. ean't help it. His great master, Buchanan, endeavored once to place him in a position, by accrediting him as a minister to a foreign court, (the one-horse government of Nica rauga,) but Ward's propensity for falsifying so disgusted old Buck, that he closed his blind eve with such utter disgust as to force a tear from its lids, as he bitterly exclaimed, "Well," Ward is a denn liar, and the truth is not in him." With this endorsement from Buchan. an, why should any tory organ go into convul-~ sions over any allusions of ours to Ward?

THE Missouri State Convention will assemble early in January. It is expected that it will decree immediate emancipation, prohibit "Sunday laws," and render foreigners eligible for the highest state offices.

The last Army and Navy Journal says that Sherman's column consists of four corps of infantry, two divisions of oavalry, four brigades of artillery, and two horse batteries The infantry is composed of the Fourteenth Corps, Brevet Major General Jeff. C. Davis; he Fifteenth, Brevet Major General Osterhaus; the Seventeenth, Major General Blair; and the Twentieth Major General Slocum. The cavalry consists of two strong divisions, under Kilpatrick. Finally, there is a full brigade of artillery for each corps, and one battery of horse artillery for the cavalry. The editor refrains from giving the numbers in his possession either of men or guns, but he says that the infantry corps are more than usually strong. The artillery force is organized on Gens. Barry and Hunt's new plan, prevailing

in the Army of the Potomac, consisting of an independent brigade of each corps. Each ties for whatever co-operation may be needed artillery carriage has eight horses, with twelve in reserve for each battery, all carefully picked for this march. The Quartermaster's Department in Sherman's army has always been a model for efficiency and good management. The whole force is divided into two wings, Gen. Howard commanding the right, and Gen. Slocum the left. The Richmond Enquirer of the 8th, says

that "either there is no news from Sherman, or it is not proper to make it known." If the rebel authorities knew anything to the prejudice of his expedition, they would be sure to blazon it to the world. The Examiner affects to discredit the accounts from this side, of the victory at Franklin, Tenn., over Hood.

PERSONAL AND POLITICAL.

THE Leavenworth Conservative states that the majority for Lincoln in Kansas is 9,810. The increase of the vote in the State is large. There were polled in 1862 15,418 votes; increase near 3,000, and this too in the face of the large number of soldiers now in the field. There were more votes cast for Governor than for the Presidential electors. For the former there will be near 18,000, for the latter, say 17,000, with all the counties in. This difference arose wholly from the refusal of a few German radical friends to vote for Presidential electors.

THE Panama Herald says that information has been received in San Francisco lately, to the effect that Dr. Gwin, formerly United States Senator from Calafornia, has obtained, through the influence of the Emperor Napoleon, and in his interest, a commission from Maximilian as Governor General of the State of Sonora, with authority to induce emigration and settle the country, and power to grant lands.

In the rebel House of Representatives, on motion of Mr. Chilton (Ala.) to proceed to consider the resolution concerning the disloyalty of Hon. Williamson R. W. Cobb, one of the witnesses against Mr. Cobb deposed that when the Yankee troops passed up the Chattanooga river, just before the Chattanooga he wanted to see the United States flag once more unfurled to the breeze. He took the flag and embraced and kissed it.

APPROACHING SAVANNAH.

Washington, Dec. 10. The Republican says: "it is reported in rea that in been received that Gen. Sherman's cavalry crossed the Ogechee canal, and appeared in the rear of Savannah at two points on Thurs day. It is reported that one portion of the force dashed into and captured Yamacraw while the other swept around on the south as far as Beulah. Yamacraw is just north of Savannah. Beulah, we believe, is on the Vernon river, a tributary to the Orsabaw sound. SHERMAN WITHIN SIX MILES OF SAVANNAH—LES

SENDING TROOPS TO GEORGIA. Washington, Dec. 10. -- It is reported direcfrom General Grant's army, that on Wednes day the rebels had information that Sherman's advance was within six miles of Savan At this point he had halted, and wa awaiting the arrival of certain portions of his command which had been sent in different directions for the purpose of misleading the enemy. Deserters who gave this information also state that there is great dissatisfaction in the rebel ranks, because correct information of Sherman's movements is withheld from

Especially is this so among the Georgia troops. They also report that many of our prisoners have escaped from their confinement, and joined Sherman. It was also evident from the conversation of these deserters, that Lee had detached troops from his army and sent them to Georgia to assist in arresting Sherman's advance. It is not too great an inference to draw from the above facts, that ere this Sherman has thundered at the gates of Savannah, and most probably with success

AN INCENDIARY SHOT.

ST. Louis, Dec. 10. Major Gregory, commanding the post at Franklin, Mo., reports that the rebels made an attempt last night to burn the Missly Bridge, on the scuthwest branch of the Pacific Railroad. When discovered by the guard, the incendiary was sitting on the bridge try-ing to kindle a fire with a brand. He had with him a man dressed in rebel uniform, who was unrecognizable by the citizens of the vi-cinity. Six balls passed through him, causing instant death.

The Latest from Tennessee.

NASHVILLE, Dec. 10.
The situation is unchanged in front of the the Fourth Corps. Not a shot was fired up to 2 o'clock to-day. Since then some slight skirmishing has occurred.

Owing to the slippery condition of the ground the men find it impossible to move about. The rebels can be plainly seen from the front of the Fourth Corps, standing about

their camp fires. Hostilities may be said to have ceased, on ccount of the weather.

Deserters who come in say that the rebels

have strong intrenchments.

Colonel Lewis Johnson, commanding the Fourty-fourth Colored Infantry, has received from the General commanding the highest praise for the manner in which he fought his troops at Mill Creek Station No. 2, having gallantly kept the enemy at bay for sixteen hours, and finally fought his way out and reached Nashville with a loss of one hundred and fifteen men killed and wounded. A Rebel General on Parole.

NEW YORK, Dec. 11. The Rebel General Beale has arrived in in this city and has reported to General Dix. He is released on parole from Fort Warren, to act in conjunction with the Union General Payne in the exchange of 1000 bales of cotton from the South for 30,000 blankets for Rebel prisoners in our hands.

SHERMAN.

Reports from Rebel Sources.

WASHINGTON, Dec. 12. A dispatch from City Point dated Dec. 11th, says that the latest news contained in the Richmond papers of yesterday (the 10th of Dec.) from Sherman, says that on the 7th he was east of the Oghechee, 25 miles from Savannah, moving on that place on the 6th. He had marched his army 18 miles.

Slaughter of Negroes by Rebels in Ambush.

A NUMBER OF COLORED MEN DROWNED.

Sr. Louis, Dec. 11. The Republican publishes a special dispatch from Cairo, which says that considerable excitement existed at Memphis on the 9th, in consequence of a report that Beauregerd was marching on Fort Pillow with a strong force and heavy guns, supposed to be used for the blockade of the river.

Osceola has been occupied by a small force A party of about 25 rebels recently appeared on the river bank opposite Memphis, waving their hats and hurralling for Jeff. Davis.

A force of about 150 negroes were sent en board a steamer, which landed about a mile lower down the river.

When they sailed out on shore the rebels broke and ran, apparently in great conster-nation, pursued by the negroes until they came to a thick bushy place, where the rebels had a large force secreted, who suddenly rose and fired on the negroes.

The latter fled hotly pursued and slaugh tered at a dreadful rate by the rebels. A numer rushed into the river and were drowned. One report says that only seven negroes re turned, while another says that none got oack.

Explosion and Destruction of a Vessel.

----Loss of Horses, Mules, &c.

Sr. Louis, Dec. 11. The steamer Maria, from St. Louis for Cairo, exploded at Carondolet, six miles below St. Louis, this morning.

The pilots, clerks and other employees of the boat say that she was lying without steam

in the boiler when the explosion took place

in the larboard side, the explosion going up-ward and making a hole in the boiler deck, through which several persons fellar They say the explosion may have been caused by a box of ammunition in the hold. There were 80 soldiers of the Third and Fourth Iowa and Tenth Wisconsin cavalry,

vith 187 horses and mules, on board. The soldiers positively say that the ex-plosion was caused by the insufficiency of water in the boiler which bursted. The boat was cast loose, grounded on the

bar and was entirely consumed by fire. All the horses and mules were lost. It is reported that 25 men were killed, 30 wounded and 12 missing. The soldiers lost everything. The boat was entirely new, and valued at

forty thousadd dollars.

It has been found invaluable for Fever and Ague, Rhomatism, Dyspepsia, &c. It operates rather slowly but sure, so that all kinds of Fevers and other diseases yield to its power in a few days.

This medicine is perfectly safe for infants or delicate

persons.

The great superiority of the medicine is that while cradicating diseases, it invigorates the system and creates new, rich and pure blood—a power possessed by no other remody. It has cured many cases of Consumption, Liver Complaints and Dyspepsia since it was introduced, as numbers will testify. Besides a number of diseased limbs, such rs feversores, white swellings, etc.

Warranted a sovereign remedy for croup. This medicine is a combination of Puro Barks and no Mineral Poisons about it.
