Sunday School publications will be supplied at publishers' rices. MARKIT.—There is nothing new to report concerning this institution. The attendance and supply, this morning, was larger than on siturday last, but prices remained as high recept in a few instances. A few conscientions men sold their butter at from 45 to 50 cents, but others held a similar article at 60 cents. Poultry was beyond the reach of poor

people. THE "COLD SPELL"-No one at all converant with matters and things generally will deny that a decidedly "cold spell" has set in; and experience has taught most people, paricularly house keepers, the great incon-renience and annoyance of bursted water pipes and frozen hydrants. A little precau-tion will in a great degree prevent these things accurring. Water in the houses should be carefully turned off at night, and where the pipe is exposed to the air, it should be wrap-red with old carpet or woolen rags. Hytrants should be well covered with straw or ,eld carpet. A little time spent in this way will save much annoyance, to say nothing of expense.

THERE was another very large audience at Brant's Hall, last night, to see the beautiful tragedienne, Miss Fanny B. Price, in her amous character of Camille. Never did she appear to better advantage, and frequent apvause greeted her. This evening the thril-ing play entitled EAST LYNNE, or THE ELOPE-MENT, will be performed, with Miss Price as Lady Isabel and Madame Vine; and Mr. Hanchett as Archibald Carlisle. This is a play that has been instrumental in accomplishing a great amount of good, and should be witnessed by everybody. The entertainment will conclude with the side splitting afterpiece entitled Our Gal. in which Miss Fanny Denham will sustain the leading characters, and

ing a number of songs. The engagement of Miss Price will close with the present week. All who have not yet vitnessed her beautiful delineations of the bading characters in the great plays produced at the Theatre, should go to Brant's Hall at

Secured seats can be purchased at Bann ant's drug store.

WHO BEARS THE BURDEN ?-- This is an interesting inquiry. Everybody complains of taxation; but who bears it? Does the manufacturer? No; when he is taxed five per cent., he adds at least that much on his products. The merchant buys his goods at the advance; but does he suffer the loss? Everybody knows that he does not; he adds it on the customer, and the person that uses the article taxed, pays the taxation. In April next, as we are nformed, the tax on real estate is to be levied.

ANOTHER ADVANCE.-We see that the New Daily Telegraph York newspapers, which advanced their prices from two cents to four, contemplate a further advance of prices on the 1st of January next.

MRS. H. A. WEIR, Treasurer of the Union Benevolent Society, of Harrisburg, acknowl-edges the receipt of *Fifty dollars*, from L., for the benefit of the poor. The increasing wants of the poor, with the high prices of coal and provisions, make donations very acceptable. ----

WE believe that no definite understanding has been arrived at with reference to the ob-servance of Christmas. That notable day falls on Sunday, this year. Our neighbors of Lancaster intend to observe Monday, (the day following Christmas.) Business will be en-tirely suspended. If there is to be a general "closing up" here, we pre-ume the necessary arrangements will be made by our business

NATIONAL BANKS .-- It has been currently reported that no new National Banks will be authorized. This report is premature, as will be seen from the following official communi-

"TREASURY DEPARTMENT, OFFICE COMPTROLLER OF THE CUBBENCY

WASHINGTON, December 3, 1864.

To the Editors of the Evening Post: "I notice in the financial article of the evening Post of the 1st instant, the following item: The Comptroller of the Currency gives notice that no more new National banks will be authorized, but that old State banks can be still converted into National banks. The Comptroller has given no such notice. In view of the facts that State banks are being rapidly organized under the National Curreney Act, and that in Eastern States there is, no deficiency, but rather an excess of .banking capital, he has considered it to be his duty to discourage, in many instances, new organiza-tions, and in more instances the increase of the capital of those already in existence. It is the aim of the Comptroller to introduce the National bank note circulation without adding to the present inflation, but it is not in his power to prevent new organizantions, nor is it his desire to do so in places where the legitimate business of the country seems to require additional banking facilities. H. McCULLOCH."

indeed; they will throw their burthen upon the tenants, and, on the principle that the last keeps all," the poor tenant will pay that tax also. In fact there is no doubt that truthtully speaking, the poor, who are least able to ally speaking, the poor, who are least able to do it, are obliged to pay the bulk of the taxa-tion. This, all will acknowledge, is not right; but where is the remedy? Through all the ramifications of trade and business, this is the the observed, even down to the box of matches with its penny stamp.
