I, ELIZABETH BRANSON, of Brandywine, Del., formerly of Old Chester, Del., do certify that, for one year and a half I suffered everything but death from that awful disease called Dyspepsia. My whole system was prostrated with weakness and nervous debility; I could not digest my food; if I ate even a cracker or the smallest amount of food, it would return just as I swallowed it; I became so costive in my bowels that I would not have a passage in less than from four and often eight days; under this immense suffering, my mind seemed entirely to give way. I had a dreadful horror and evil forebodings. I thought everybody hated me, and I hated everybody; I could not bear my husband nor my own children, everything appeared to be horror-stricken to me; I had no ambition to do anything; I lost all my love of family and home; I would ramble and wander from place to place, but could not be contented; I felt that I was doomed to hell, and that there was no heaven for me, and was often tempted to commit suicide, so near was my whole nervous system destroyed, and also my mind from that awful complaint, Dyspepsia, that my friends thought compaint, Dyspepsia, that my trends thought best to have me placed in Dr. Kirkbride's hospital, West Philadelphia; I remained there nine weeks, and thought I was a little better, but in a few days my dreadful complaint was raging as bad as ever. I had been grieviously afflicted for the last twenty-oight years, and for ten years of that time have not been free from its path one week at a time. I have had it in its worst form and have dragged on a most miserable existence—in pain day and night. Every kind of food that I ate filled me with wind and pain, it mattered not how light, or how small the quantity. A continued belching was sure to follow I had no appetite for any kinds of meate whatfollow I had no appetite for any kinds of meate whatfore I heard of your Pills, that I frequently wished for foseth. I had taken everything that I had heard of for Dyspopsia, without receiving any benefit; but on your Pills being recommended to me by one who had been cured by them, I concluded to give them a trial, although I had no failth in them. To me y astonishment, I found myself getting better before I had taken one-fourth of a box, and after taking half a box, I am a well max, and can cat ampthing I wich, and only a hearty meal three times a day, without inconvenience from anything I eat or drink. This distressing affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are teo apt to commit excesses from not being aware of the dreasfull consequences that may ensue. Besides being depirted the pleasures of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyspopula, splitation of the heart, indigestion, constitutional debility, a wasting of the frame, cough, songuently, doesy and death.
