TOWN LOTE FOR SALE

THE PHILADELPHIA AND ERIE LAND

COMPANY, chartered by an act of the Legislature of Pennsylvania, ofters for sale choice lots for dwellings and business purposes in the above new towns on the line of the Philadelphia and Eric Railroad.

RENOVO has been selected as the site for the extensive shops for building and repairing the rolling stock of the Philadelphia and Eric Railroad, of which the Penna. Railroad Company are now leesses. It is 92 miles west of Sunbury, and 196 miles cast of Eric. The town is beautifully situated on the margin of the west branch of the Susquehanna river, in the county of Ginton, and is surrounded by romantic and attractive scenery. The Railroad Company are creeting an immense Locomotive Round House, Repair Shops for Cars and Engines, Car Building shop. Iron and Brass Furnaces, and Dwellings for the Superintendent and other officers. A splendid Hotel, with which are connected arrangements for feeding passengers on the most extensive scale, has been commenced. All these buildings are of the most permanent and substantial character, of brick and iron, and are in accordance with the iman ense business anticipated on the completion of this great Railroad, so long anxiously looked for, and now an accomplished fact—the last rail connecting the Susquehanna river with Lake Eric having been laid on Saturday, July 24, 1864.

A Company has been chartered by the Legislature for applying the town with gas and water, and the water works are nearly completed. Churches will be erected in-mediately. The situation of RENOVO is entirely healthy, and as the dimensions of the town are timited by nature, the value of the lots must appreciate greatly in the course of a few years.

EMPORIUM will certainly be the most important companying the town with gas and water, and the water works are nearly completed. Churches will be erected in-mediately. The situation of RENOVO is entirely healthy, and as the dimensions of the town are timited by nature, the value of the lots na

eapablitics. An excellent graded road now connects it with Coudersport, the seat of Justice of Potter county it is also connected with Smethport, the seat of Justice of McKean county. Emporium is the County Seat of Cameron county; it has a handsome Court House, and the Land Company have just completed a large and commodious Hotel, with h will immediately be opened to the public. The Railroad Company are about to excet a hant come and permanent l'assenger Station at a central point near the Hotel and Court House. The place is healthy, and excellent water is abundant. It is in the midst of one of the linest White Pine regions in Pennsylvania. As a manufacturing own it has great advantages; coal, lumber stone, bark for fanneries are abundant, and is railroad communications with the great lakes and all points of importance in the seahoard are unsurpassed. This place was selected thirty years ago as a point of importance, and a town laid out with the prophetic name of EMP-BHIUM, but the difficulty of access has prevented its development so entirely that it is mainly known for the excel ence of hunting and trout fishing in the vicinity. The completion of the Philade phia and Erie railroad must soon make it a place of great importance as a distributing poin for goods of all kinds, and it offers great advantages for persons of moderate capital who desire to identify themseives with the early history of a threving swen.

CRUELTY OF BEBEL AUTHORITIES
TO PRISONERS OF WAR.

There are some things spoken of as sufficient to open the eyes of the blind and to unstop the ears of the deaf. They are over-whelming Faces, before which the most inveterate prejudices and the most cherished judgments must go down, and which no judgments must go down, and which no amount of influence can keep from passing into the body of history and the actied convictions of mankind. Such is the story of the massacre of St. Bartholomew, the persecution of the Huguenots, Albigenses and Waldenses, o'Spanish Protostants by Philip, and of Dutch Protestants by Alva. No amount of whitewashing can hide the true tint of the scarlet where can make a merital war put of News whore, can make a merciful man out of Nero, or Herod the Great, a good man out of Judas, just man out of Pilate, or a martyr out of Pharaoh. Certain dev-lopments are being made during this war which will set a brand example of inhumanity as conspicuous as any the world has ever seen will pass into history in connection with its name. It will stand beside the Inquisition and the Sepoy rebellion, and the page on which its barbarities are written will be hurried over, like theirs, with

It is indeed possible, by subtle reasoning, to shake somewhat the grounds of belief in some of the enormities referred to as recorded in history; and in the absence of the specific testimony of of eye-witnesses, we are obliged to depend upon the general verdict of cotemporaries. But the Commissions of Inquiry appointed by the Government and by the Sanitary Commission, have put the whole matter of rebel barbarity upon a footing as satisfactory as any court of justice would require, in a case of life or death. While the documents which they have issued endure, no mind capable of receiving testimony will be able to hesitate a moment as to the reality of the lamentable and shameful facts.

We have before us the thick pamphlet, issued from the Living Age office, which contains the narrative and sworn testimony collected by the agents of the Sanitary Commis sion upon the privations and suffering of the U. S. officers and soldiers, while prisoners of war in the hands of the rebel authorities. We hope our countrymen will read it. They ought to know the diabolical intensity and malignity of the spirit with which they are contending. They ought to be instructed into what depths of inhumanity an unjustifiable rebellion -- a pro-slavery mania stimulated to open war-can plunge their former fellowcitizens, how it can unman and brutalize the most chivalric and polished of people. They ought to understand the measure of suffering, worse than wounding, maining and death. which their noble citizen soldiers are endur-ing for their sake. They should have deeply wrought into their souls a sense of duty laid upon them, as ministers of justice and of God, bearing not the sword in vain, to crush such iniquities, and to make th punishment as broad, as signal and as conspicuous as the erime. It would indeed be a fresh crime, to be, in the slightest degree, indifferent to such crimes or lukewarm as to their punishment. The deepest perils must environ a people who can calmly frame their policy to conciliate the authors of such enormities. The very foun-dations of morality and of justice must be undermined where this can occur.

We cannot even epitomize details of these harrowing recitals. Every paragraph of the harrowing Narrative seems burdened with some fresh horror. First, the captives are systematically robbed, even of necessary articles of clothing. They are packed away in their prison houses like the miserable cargo of a slave ship amid indescribable accumulations of preferences. tions of uncleanness. They are wantonly shot down in their defenceless and pitiable condition, for the sport of their brutal guards.

They are deliberately starved and suffered to pine away with hunger and cold—a slow torture which even the Indians, with all their refinements of cruelty, did not inflict on their victims. The succour sent by their friends in the North is plundered from them, or piled up in the sight, but beyond the reach of the famished men, thus putting them in the hell of the ancient mythology, and inflicting on them the pangs of Tantalus. Dogs, rats, bones, cast-away refuse were cagerly seized by these famine-stricken men for food. Some were thrust into green and slimy dangeons, so full that all were obliged to stand all night. Loathsomeness, vermin, cold and hunger, hospitals scarcely equal to good hog-pens, swept them away by hundreds. Even the bodies of those who fell victims to these cruelties, were sufdevoured by ho rats. And preparations were actually made to blow up the Richmond prisons, with all their inmates, in the event of the capture of the city by our forces. And as for those who escaped alive and were returned exchanged to the North, language fails to describe their pitiable, emaciated, loathsome condition: some idiotic, some imbecile, many dying, many requiring months of cleansing to restore the functions of the skin, some partially blind, deaf and dumb, some maimed from frost, and all ravenous beyond expression for food. They were not the victims of disease, but of They were not the victures of disease, says systematic starvation, of overcrowding, of confinement in foul abodes, and of exposure like beasts to all the changes of the seasons

and the atmosphere. And all these sufferings befel them at the hands of an enemy who was able to feed, clothe, nurse and give adequate medical attention to his own army, and who could plead no act of our Government towards his own men in our hands, as a justification. Thus far every statement is proved beyond possi-bility of doubt. "Tens of thousands of help less men have been and are now being disabled and destroyed by a process as certain as poison, and as cruel as the torture or turning at the stake, because nearly as agonizing and more prolonged. This spectacle is daily beheld and allowed by the rebel government." And what is the crushing and inevitable inference? That these sufferings "were designedly inflicted upon them by the authority of the rebel government." The commission see no possible alternative, much as they de-

sired to avoid the conclusion. The race of men who under the debasing influence of slavery have become capable of such unspeakable cruelties, and who are so unconcious of their crim nality as to appeal to Heaven and to mankind in justification of their cause, cannot be tolerated by the advancing civilization of the world, any more than the cruel and crafty red-man of the forest. They will not reform; they will not accept offers of peace. God in his justice will suffer them to harden their hearts like Pharaoh and will consign them to Pharaoh's doom. The South will persist, will again and again rally and fill up the ranks of her shattered armies, will be suffered to gather courage from partial defeats and repulses of the North will in fine prolong the war sufficiently to secure the sweeping of her cruel and relen-tless population from the face of the earth.*

*Just as we lift our pen from the paper, we hear of our Government purchasing flour for the rebel prisoners at Fort Deleware, of a quality commanding the price by the thousand barre's of \$12,50 per barre! That will do as a specimen of our mode of treatment of our captured ene

Bulls and bears must have a gay time at the Richmond stock exchange, gold being now at a premium of 4,000 per cent., or forty dol-lars for one. On the day of the Presidential election, John Bright, a true descendant of Hampden, testified the great interest of liberty-loving Englishmen in our cause, by writing to a friend as follows: "To day the great issue is to be decided. I think the Secession papers here are rather sick of their clients, and it is time the whole civilized world should 'spew them out of its mouth.' Richard Cobden, twin brother with Bright in fame and honor, wrote these shrewd words: "The only thing wrote these shrewd words: "The only thing that seems to give me anxiety is the apprehension that either at the polls or after the election there may be confusion or rioting, which may spread in the North. Against the probability of this is the inherent reverence of the Americans for the rights of the majority. But the times are exceptional, and the long lease of the rebel Covernment at Bickmond is on of the rebel Government at Richmond is an evil example. Besides, I tear that Jeff. the American people for the rights of the

THE PASSPORT SYSTEM REVIVED .- The folowing has to-day been officially promulgated: DEPARTMENT OF STATE, WASHINGTON, Dec. 17, 1864.—The President directs that, except, immigrant passengers, directly entering an American port by sea, no traveler shall hereafter be allowed to enter the United States from a foreign country without a passport.

If a citizen, the passport must be from this Department, or from some United States minister or consul abroad, and it an alien, from the competent authority of his own country, the passport to be countersigned by a diplo-matic agent or consul of the United States. This regulation is intended to apply especially to persons proposing to come to the United States from the neighboring British Provinces. Its observance will be strictly enforced by all officers, civil, military and naval, in the service of the United States, and the State

It is expected, however, that no immigrant passengers coming by sea in the manner afore-said will be obstructed, or any person who may set out on their way hither before intelligence of this regulation could reasonably be expected to reach the country from which they may have started.
